

6 June 2025

To whom it may concern

Federation University Australia acknowledges its long-standing partnership with Infotech Professionals Pty Ltd, trading as International Institute of Business and information Technology (IIBIT).

The partnership began in 2000 and for over 25 years, IIBIT has been successfully delivering Federation University Australia undergraduate and postgraduate courses in Adelaide and Sydney. Over 5,000 students have graduated with a Federation University degree through this partnership.

With all education delivery partnerships, partners are required to adhere to strict quality guidelines across academic delivery and student support. Joint Management Committee and Joint Operational Committee meetings were held regularly to monitor the performance of the partnership and most importantly, to ensure that the quality of academic delivery is consistent with delivery at Federation University campuses. IIBIT has consistently met the academic quality requirements of the partnership.

Over the two decades of the partnership, Federation University Australia and IIBIT have continuously engaged in open discussions on other forms of collaboration.

The partnership is now evolving and IIBIT has matured to a point where the current education delivery partnership is phasing out and Federation University Australia is collaborating with IIBIT to support their associated registered provider, Global Higher Education, through a curriculum licencing arrangement.

In light of our long-standing and fruitful partnership, Federation University Australia will continue discussions with IIBIT on future collaboration opportunities.

Yours sincerely,

Professor Duncan Bentley
Vice-Chancellor & President
