

Ways you can help your Community Allotment

1) Why not volunteer? Come along enjoy the fresh air and company of other like-minded people! Whether you're an expert or a novice, we can definitely use your help. Contact Louise by email on louisemason@PCCofHHand AH.onmicrosoft.com

2) Donate your surplus seedlings.

During the growing season, If you are growing from seed and are blessed with an abundance, please consider donating your surplus to us? We will grow what we can on the allotment or use them to raise funds for essential materials required.

3) Spread the news.

Tell your friends and family about the good work we are doing. Our aim is to share all the produce with the local community and our volunteers. Last year over 40 bags of free freshly grown produce was delivered to the High Halstow community. This year we hope to deliver even more. Please help us to do this!
