

Greener Rectory Garden Party 2023

As part of our Churches Green Initiatives, this year at our annual Rectory Garden Party we took steps to reduce waste at this key and well supported event:

1. We supported Plastic Free July by offering a 20% discount for all hot drinks bought where the customer supplied their own mug. This was advertised ahead of the event and sustainable mugs were available to purchase on our Church Stall on the day.
2. All tea bags and raw food waste was collected and used to make compost at our Community Allotment in High Halstow.
3. Recycling cans and plastics was encouraged by providing customers with the choice of white recycling bags as well black bags. Disposal options were highlighted with posters and signage encouraging customers to recycle where possible.

All was well received by our volunteers and customers and we thank everyone for their support.
