

# HH Enviro-news

*Your local monthly green update*

## Great News

**Medical Blister packs** and other difficult to recycle products that cannot be recycled with your weekly waste, **can** now be recycled at **Boots in Bluewater, Hempstead Valley, Chatham and Gravesend**. Check out Boots reward scheme.

Our **MP Lauren Edwards** has invited members of the Climate Action Group to meet with her and discuss **Extended Producer Responsibility**. We will report back next month!

## Tree Planting Project

Encouraged and inspired by the amazing tree planting at Deangate, High Halstow Parish Council and the Climate Working Group have been in contact with Medway's Senior Tree Planting Officer, Mike Sankus. Mike is planning to offer guided walks about trees and their importance as well as advice about how we, in High Halstow can improve and increase the tree canopy cover across various sites in the village and benefit wildlife habitats, biodiversity, carbon sequestration, air quality and well being.
