

East Bio

East began as a classically trained artist hailing from the industrial environment of Chicago & NW Indiana. In the 80's, East left classic art behind to establish himself as a leading influence in Indiana/Illinois underground art scene & has since been hailed a founding father to Midwest graffiti styles. Currently a well respected & international painting figure, East continues to not only modernize the look of Midwest graffiti styles but continually pushes himself, securing his spot as one of the world's most influential & respected names in the Graffiti culture. With nearly 40 years experience under his belt this Midwest original shows no signs of fatigue but rather surges forward, hungry for the next goal & challenge. East has truly earned the title of being a "Midwest Master."
