

PMOnDemand Inc. Capability Statement

Cage 91DW3
DUNS 118059058

Mission Statement: Delivering cost effective systems that drive up business value.

Company Overview

PMOnDemand Inc. headquartered in San Antonio, TX has been providing exceptional service to customer since the beginning in April 2021.

PMOnDemand focuses on business development and ensuring systems bring the most value. PMOnDemand Inc. provides automation of services, leveraging technologies such as Artificial Intelligence and Machine Learning (A.I. ML) for Data-Driven decision making.

With an initial focus on providing consulting services in project and product development, PMOnDemand has expanded to specialize in mathematical models that demonstrate improved efficiency.

Technical Services

To meet the growing demand in personalized A.I. ML solutions PMOnDemand is efficient in providing services concerning Strategic Planning, and tactical execution of projects that satisfy process automation, and program improvement by leveraging artificial intelligence and machine learning algorithms. Our services include DevOps designs, and continuous improvement-continuous development pipeline.

PMOnDemand is capable of executing, automating, scheduling, and governing your strategic projects.

Quality Commitment

At PMOnDemand Inc. we are committed to exceeding your expectations by ensuring your complete satisfaction. Our delivery team works assiduously with our customers to ensure quality integration in our plans.

Experience

FY 2022

PMOnDemand is providing supporting project consulting services to IHeartRadio to bring a legacy radio delivery to the 21st century

Artificial Intelligence converts emails to spots on the radio with little to no human involvement

FY 21 - 22

PMOnDemand is provided product consulting services to Regions Bank for modernization for Digital Mobile

System back-end re-write from legacy system APIs to modern APIs that improve performance

FY 18 - 21

PMOnDemand provided enterprise solutions for automated complaint capture for USAA Enterprise GRC.

Natural Language Processes to identify and ML to classify complaint interactions

Delivery Team

When you work with PMOnDemand, you are working with a team that is dedicated to completing all contractual objectives within the scope of work.

PMOnDemand will assign our **relationship manager** to oversee the contract and provide regular feedback and performance metrics. The **Delivery Team** will tailor a solution to maximize productivity and efficiency. This team considers the project complete when you are completely satisfied, users are trained, and user guides are thoroughly documented. The bottom line; the job is done when value is being demonstrated in your organization.
