

# Real Security, Really Convenient

## Android Video Intercom Tablet

With Hikvision Android Video Intercom Tablet, intercom door stations, intrusion panels, network cameras, NVRs and other various security devices can be managed with a light touch now! While satisfying a variety of basic needs including video intercom, monitoring, unlocking doors and intrusion alarm, the tablet carries built-in Hik-Connect to realize cross-device linkage flexibly for all-in-one management. What's more, based on the high extensibility Android system, it also supports integration with third-party apps.

## Various Advantages

### Android System

- Supports Android app installation
- Open platform for 3rd-party software integration

### Hikvision AX Hub Intrusion Alarm Management

- Wireless intrusion panel for remote management
- Receives 7 seconds of video verification from alarm systems

### Hik-Connect App

- Video intercom & live view on mobile phone 24x7
- Built-in Hik-Connect for all-in-one management

Curved LCD Touch Screen

## Various Application Scenarios
