

Wellness Done The Heavenly Way

Heavenly Body offers a non-invasive way to help you reach your body goals for men and women quickly without surgery, high costs, or downtime. Contouring is a great alternative to various surgical procedures with similar results, such as skin reduction, tummy tucks, and liposuction.

What Is Body Sculpting

Body contouring, or body sculpting, can eliminate fat, shape areas of the body and tighten skin. Lipolysis is a nonsurgical option that uses cold, heat, lasers and other methods.

Vibration Exercise

The Vibration Exercise Machine is a scientifically calibrated machine that produces vibrations from the feet up distributing vibrational energy to the entire body. These vibrations result in rapid muscle fiber contractions causing a stretch reflex within the body, the muscles contract involuntarily creating the effect of exercise without the exertion of conventional exercise.

- * Metabolic burn
- * Detoxification
- * Clear & tighter skin
- * Improved circulation and more...
- * Weight loss

Lipo (Ultrasound) Cavitation

This process reduces fat deposits turning it into weight loss. It's a safe pain free alternative to Liposuction and other invasive surgical procedures. Lipo cavitation does NOT cause bleeding, bruising or pain and no down time! Radio Frequency is an energy source using heat to tighten skin while helping to initiate the production of new collagen. Heavenly Body combines Lipo Cavitation with Radio Frequency for enhanced results.
