ALL THE INFORMATION AND
TASTING NOTES FOR OUR BEERS.

Our beers are all our own recipes. We are a beer brand that, like so many, started brewing beer in a small kitchen, progressed to hobby brewing in a garage and now brew our recipes at two fantastic partner breweries in Holland. We aim to brew something for everyone, always following a 'three beer rule' - any beer we brew you should comfortably be able to drink 3 of. We are passionate about beer, and if you any questions about our beer and our story, then please just ask our Pub Stars. Cheers!
