Alumni Updates

## WHO IS ASKING THE QUESTIONS?

## ENGAGEMENT SPOTLIGHT

*I'd love to connect with an Elon alum who has experience in operations management or a related role within the aviation, automotive, or heavy machinery manufacturing. I'm particularly interested in learning about what a typical day looks like in these roles, especially in managing KPIs, data inputs, and tracking.*

**? sent to 32 alumni**

*I'd be happy to help you better understand being a technical person in management at a large company. I am currently the Integration and Verification manager for the Mobility, Bombers and Surveillance Trainers at Boeing. If you'd like to chat, I can make time the rest of this week from 4-7pm CST if you want to text me the best time for you.*

## FEEDBACK

**"My experience with Elon Q&A has been helpful so far. All of the alumni are kind and conversational, and one even asked if we could meet and get coffee!"**

**"The question I received was one I felt confident responding to, and was thrilled to have the opportunity to connect with a student and provide the one-on-one student support Elon prides itself on. I look forward to more opportunities to connect!"**

**"I was able to connect with professionals in the field who had gone through the same experiences as me by being Elon alums. I really appreciated the personal touch each one had on answering my question."**
