VARIOUS RESURFACING AND SEAL COAT PROJECTS AND MATERIALS FOR CAMBRIDGE, EAST FALLOWFIELD, HAYFIELD, SADBURY, SUMMERHILL, UNION, VERNON, WEST MEAD AND WOODCOCK.

These bids will be considered by the various entities within 45 days of the bid opening. Bid forms and specifications may be obtained at the Office of the West Mead Township Secretary, 1150 Morgan Village Road, Meadville, PA 16335 or at www.frenchcreekcog.org. Some portions of this bid packet may fall under the Pennsylvania prevailing wage rates.

Each proposal must be accompanied by a certified check or bid bond in the amount of ten (10%) percent of the contract amount, made out individually to Cambridge Township, East Fallowfield Township, Hayfield Township, Sadsbury Township, Summerhill Township, Union Township, Vernon Township, West Mead Township and Woodcock Township, as a guarantee that the bidder will furnish proper bonds satisfactory to all entities and enter into contracts to do the said work. These checks or bid bonds will be forfeited to the participating entities in case of failure to do so. Bids will be accepted only from PennDOT pre-qualified contractors. All proposals must be upon the forms furnished.

Bidders must attend a MANDATORY pre-bid meeting for all projects at the West Mead Township Building, 1150 Morgan Village Road at 9:00 a.m. on Thursday, March 21, 2024 in person to meet with all municipal representatives.

All bids must be submitted in a **SEALED** envelope clearly labeled **"ROAD PROJECT BID for letting of April 3, 2024"**.

The Townships of Cambridge, East Fallowfield, Hayfield, Sadsbury, Summerhill, Union, Vernon, West Mead and Woodcock, reserve the right to reject any or all proposals or waive any or all informalities therein, and award contracts in the best interest of each entity. Each participating entity also reserves the right to delete any item or items from the contract for budgetary reasons.

INSTRUCTIONS FOR ALL BIDDERS

1.1 As used in these documents, the term “participating entities” shall mean the Townships of Cambridge, East Fallowfield, Hayfield, Sadsbury, Summerhill, Union, Vernon, West Mead and Woodcock.

1.2 All bids are to be submitted on the forms included in this packet. They may be photocopied, however any bid submitted for consideration must include original signatures. All bids must be submitted in a sealed envelope, clearly labeled **“ROAD PROJECT BID for letting of April 3, 2024”**.

1.3 Each bid form may or may not include several items. Bidders may bid on any or all items for which he can provide the specified services. Bid prices however, must be itemized for each unit of each item as well as any sub items within an item.

Bid Deviations

If the bidder cannot provide services exactly as specified, but wishes to bid on similar services, he shall attach a letter explaining the deviations from the specifications. These deviations may or may not cause the bid to be rejected.

Alternate Bids

If the bidder wishes to propose an alternate bid, he may attach an alternate bid labeled as such. However again, each participating municipality has no legal obligation to consider any or all of the unsolicited alternate bids provided by the contractor(s).

1.4 **MANDATORY Pre-Bid Meeting will be held at the West Mead Township building, 1150 Morgan Village Road, Meadville, PA 16335 at 9:00 a.m. on Thursday, March 21, 2024 in person to meet with all municipal representatives.**

1.5 **Bids shall be delivered to the Secretary/Treasurer of West Mead Township, 1150 Morgan Village Road, Meadville, PA 16335 no later than 1:00 p.m. prevailing time on Wednesday, April 3, 2024.**

Bids delivered after that time will not be accepted for consideration. The participating entities will not be responsible for U.S.P.S. delays in the mail. Bids will be opened at 1:00 p.m. on Wednesday, April 3, 2024 and distributed to each participating entity.

1.6 **All bids must be accompanied by a certified check or bid bond made out individually to the entities in the amount of 10% (ten percent) of the bid based on the contractor’s unit prices and the estimated quantities.**

1.7 All bidders must submit Form MS-944 Proposal and Contract, Proposal and Contract Instructions – Form 944, Attachment 1 – Schedule of Prices, Special Provisions to Contract MS-944 (Attachment 1-A) and any other additional attachments that may include 1-B. One copy of each will be furnished to each prospective bidder to be used as a proposal, when completed by the municipality.

1.8 All bidders must submit Attachment 2 – Performance Bond, Attachment 3- Payment Bond, Attachment 4 – Affidavit RE: (Accepting Provision of the Workman’s Compensation Act), Form 7126 – Anti-Collusion Affidavit and MS – NCP form – Notice of Completion, Attachment 5 – Public Works Employment Verification Form and if applicable, Attachment 6 Prevailing Wage Rates apply.

AWARDING AND EXECUTION OF CONTRACTS

2.1 Each participating entity will review the bids for their projects and will award their own contract(s) within 45 (forty-five) days of the bid opening. Each participating entity shall award the contract(s) based on what they believe to be in the best interest of that entity. The awarding of any one participating entity shall have no effect on the other participating entities decisions to award, not to award or to accept or reject any or all of the bids.

2.2 Each participating entity shall notify the contractor(s) of the awards and make arrangements for the collection of performance bonds and payment bonds, (50% for contracts under \$5,000.00 and 100% for any contracts \$5,000.00 or more) and any additional forms which must be submitted by the successful bidder(s) within 20 (twenty) days of the awarding of the contract. Failure to submit the bond(s) shall constitute grounds to cancel the contract.

2.3 Each item on the proposal, as previously stated, may be awarded as a separate contract however all sub items within an item shall be priced individually yet must be awarded together.

- ☒ Traffic Control and Safety Devices to be provided by the contractor. (Maintenance and Protection of Traffic to comply with current MUTCD, PennDot Publication 212 and Penndot Publication 213).
- ☒ **Contractor required to review proposed project with municipality's representative prior to bidding. Contact Dan Klapthorat (814) 450-5002, to schedule a review of the project.**
- ☒ The municipality reserves the right to eliminate items of work.
- ☒ The lowest responsible bidder must comply with the Public Works Employment Verification Act by submitting a Commonwealth Public Works Employment Verification Form to the Public Body prior to award of Contract. The form and relevant information is attached with the Bid Package. Return completed form with submitted bid package.
- ☒ Contractor to supply proof of CDL Drug and Alcohol Compliance upon award of the bid.
- ☒ Notify the municipality 5 working days prior to the start of physical work.
- ☒ **No physical work prior to June 3, 2024, unless authorized by the municipality.**
- ☒ **No work on July 4 through July 7.**
- ☒ No work permitted on weekends unless authorized by the municipality.
- ☒ **Work to be completed on or before August 30, 2024. Liquidated damages apply at the rate of \$975.00 per calendar day after this completion date.**
- ☒ Contractor must receive authorization from municipality if the anticipated work is to exceed 100% of planned quantity.
- ☒ The municipality is responsible for the inspection of the project. If the municipality's representative is not on site, it is the responsibility of the contractor to contact the municipality for any questions or concerns that may arise during construction. Failure to do so, may result in "no payment" for the area in question.
- ☒ Incidental preparation and clean up required (Project Construction Materials). Excess material to be removed by the contractor.
- ☒ Contractor responsible for defects that occur within one year from the date of the Notice of Completion.
- ☒ Future award of Contract will be based on quality of work as determined by the municipality.

PROPOSAL AND CONTRACT INSTRUCTIONS- FORM 944

- 1 The proposal must be typewritten or printed.
- 2 If more than one proposal on any project is submitted by an individual, firm or partnership, corporation or association under the same or different names, only one proposal, the lowest, will be considered.
- 3 Description of work—A. If additional space is needed, insert appropriately numbered attachment and note "Continued on attached work sheets"
- 4 Part A of Page 1 is to be completed by municipality. Part B of Page 1 to be completed by contractor. Schedule of Prices -Column #1 (Item) ,#2 (Approximate Quantities), #3 (Unit, i.e., ton, square yard, linear foot, etc.) and #4 (Description, i.e., bituminous materials -9.5mm S & L, 12.5mmWearing, 25.0mm Base Course, etc.) must be filled in by municipality to insure equitable bidding. Columns #5 (Unit Price), #6 (Total) and total amount of bid, must be filled in by the contractor. If more space is needed, add note at bottom of the page, "Continued on Attachment No. 1-A"; and add additional sheet designated as Attachment No. 1-A, 1-B, etc. Repeat for each additional sheet required. As required by Publication 408 (current edition), Section 102.06 (e), each bidder must submit a completed Form D-7126, Anti-Collusion Affidavit (included in this Form MS-944), with its bid proposal.
- 5 If liquidated damages are to be assessed, add the following sentence to Part A #2: "If all work is not completed on time, liquidated damages will be assessed at the rate of \$975.00 per additional working day." (OR"... as set forth in the attached schedule").
- 6 Only the successful bidder is obligated to provide payment and performance bonds. These bonds shall conform to the requirements of the relevant municipal code or charter and the Public Works Contractors' Bond Law of 1967, Act of December 20, 1967, P.L. 869, No.385, 8 P.S. §§ 191—202. Bond forms are included in this Form MS-944 as Attachments 2 (performance bond) and 3 (payment bond). The successful bidder must submit the bonds and the Workmen's Compensation Act Affidavit, Attachment 4, within 20 days of the contract award. Failure to submit the bonds shall constitute grounds to cancel the contract
- 7 If the estimated cost of a contract for "public work," as this term is defined in the Pennsylvania Prevailing Wage Act, Act of August 15, 1961, P.L. 987, No. 442, as amended, 43 P.S. §§ 165-1—165-17, exceeds \$100,000.00 and the contract is paid for in whole or part out of the funds of the municipality, the municipality shall take the following actions: (1) Determine the prevailing minimum wage rates from the Department of Labor and Industry, Bureau of Labor Law Compliance. (2) Indicate in the advertisement issued for the purpose of securing bids for the contract that prevailing wage rates shall be paid on the project. (3) Specify the prevailing minimum wage rates in the bid proposals for the contract. On projects financed partly with federal funds, if the project cost exceeds \$2,000.00 and 25% or more of the funding comes from federal funds, the Davis-Bacon Act, 40 U.S.C. §§ 3141—3145, applies. Here again, it is the responsibility of the municipality to obtain the Davis-Bacon wage rates from the United States Department of Labor, Wage and Hour Division, which has offices in Philadelphia, Pittsburgh and Wilkes-Barre; include them in the proposal; and note the fact in the advertisement. If both acts are applicable, the Davis-Bacon Act preempts the Pennsylvania Prevailing Wage Act and applies to the entire project, not just the federally-funded components.
- 8 An ESCALATOR CLAUSE is optional; if used, it must be included in the proposal prepared by the municipality. An escalator clause may not be inserted by the contractor.

Provision Body

I. DESCRIPTION—This work is the standard and RPS construction of plant-mixed Fiber Modified Courses (FMC) on a prepared surface using a volumetric mixture design developed with the Superpave Gyratory Compactor.

II. MATERIAL—Section 413.2 with the following additions.

(k) Aramid Fibers. Use only Para-aramid fibers (aramid fibers) approved and listed in Bulletin 15 for use in Asphalt. Provide a supplier certification with each shipment as specified in Section 106.03(b)3. Certify that the aramid fibers conform to the physical requirements of TABLE 1.

Add aramid fibers at a rate of 2.0 ounces (minimum) of aramid fiber per ton of asphalt mix.

Aramid fibers may be packaged in loose form with other inert material, or packaged in a bundled form coated with wax (or other inert material) to aid in dispersion of the aramid fibers into the mixture.

Deliver fibers in sealed, undamaged, pre-weighed bags or as loose fibers in bulk containers. Identify the pre-weighed bags or bulk containers with legible labels, indicating fiber manufacturer name, product name or designation, manufacturer lot number, and weight.

Store materials in accordance with manufacturer's recommendations. Protect fibers from UV radiation. Do not allow fibers to become wet or contaminated. Discard and replace wet or contaminated fibers at no additional cost to the Department.

TABLE 1**Aramid Fiber Properties**

Property	Requirement
Length	3/4 inch ± 1/16 inch
Form	Filament Yarn
Color	Yellow
Tensile Strength	400,000 psi minimum
Decomposition Temperature	800 F minimum
Modulus	10.2 x 10 ⁶ psi minimum
Specific Gravity	1.44 - 1.45 (g/cm ³)

III. Construction—Section 313.3 or 413.3 with the following additions.

- **Revise Section 413.3(c) Asphalt Mixing Plant to add the following:**

Make any plant modifications needed to add fibers in accordance with manufacturer's recommendation. Follow manufacturer's requirements for minimum mix production temperature when adding fibers.

- **Revise Section 413.3(c)1 Batch Plant to add the following:**

Add fibers to the aggregate in the weigh hopper and follow the manufacturer's recommendations for both the dry and wet mixing times. Ensure that the fibers are uniformly distributed before the injection of asphalt cement into the mixture. If there is evidence of clumping of fibers, stop production of the asphalt material.

The addition of fibers must be controlled to ±10% by weight of the aramid fibers required. The Plant's fiber supply system must be approved by the fiber manufacturer, and include one of the following methods:

- For use of pre-weighed bags, add the bags of fibers through an automated supply system during production. Have the fiber supply system meter and print out, with date and time stamp, the number of bags added during mix production.
- For use of loose (bulk) fibers, utilize one of the following methods:
 - **Automated Fiber Feeder System:** Add fibers through an integrated fiber feeder system that prints out, with date and time stamp, the weight of the aramid fibers added during each batch mix production. Calibrate the equipment to the satisfaction of the Representative to show the aramid fibers are being accurately metered and uniformly distributed into the mix.

OR, in lieu of an automated system

- **Qualified QA/QC Mixing Technician:** Have a dedicated, qualified QA/QC mixing technician trained by the manufacturer, to feed the aramid fibers into the asphalt during plant mixing operations to produce all the fiber modified quantities required for the project.

A certification report must be submitted upon project completion. The report must certify that the metering and feeding was performed per the dosage rate requirements of this specification, and that a visual inspection was performed during the mixing process to verify no clumping of aramid fibers.

- **Revise Section 413.3(c)2 Drum Mixer to add the following:**

Add fibers to the RAP collar or as per Manufacturers recommendation to ensure that fibers are uniformly distributed before the injection of asphalt cement into the mixture.

Do not allow fibers to be removed by the exhaust or dust collection system. If there is evidence of clumping of fibers, stop production of the asphalt material.

The addition of fibers must be controlled to $\pm 10\%$ by weight of the aramid fibers required. The Plant's fiber supply system must be approved by the fiber manufacturer, and include one of the following methods:

- For use of pre-weighed bags, add the bags of fibers through an automated supply system during production. Have the fiber supply system meter and print out, with date and time stamp, the number of bags added during mix production.
- For use of loose (bulk) fibers, utilize one of the following methods:
 - **Automated Fiber Feeder System:** Add fibers through an integrated fiber feeder system that prints out, with date and time stamp, the weight of the aramid fibers added during mix production. Calibrate the equipment to the satisfaction of the Representative to show the aramid fibers are being accurately metered and uniformly distributed into the mix.

OR, in lieu of an automated system

- **Qualified QA/QC Mixing Technician:** Have a dedicated, qualified QA/QC mixing technician trained by the manufacturer, to continuously feed the aramid fibers into the asphalt during plant mixing operations to produce all the fiber modified quantities required for the project.

A certification report must be submitted upon project completion. The report must certify that the metering and continuous feeding was performed per the dosage rate requirements of this specification, and that a visual inspection was performed during the mixing process to verify no clumping of aramid fibers.

IV. MEASUREMENT AND PAYMENT—Section 313.4 or Section 413.4 with the following modifications.

- **Revise Section 313.4(a)1 Courses to read as follows for base course:**

1. Fiber Modified Base Course (FMC). Add the following:

1.f Fiber Modified Superpave Asphalt Mixture Design, Base Course. Square Yard or Ton

- **Revise Section 413.4(a)1 Courses to read as follows:**

1. Fiber Modified Courses (FMC).

1.a Fiber Modified Superpave Asphalt Mixture Design, Wearing Course. Square Yard or Ton

1.b Fiber Modified Superpave Asphalt Mixture Design, Wearing Course (Scratch). Ton

1.c Fiber Modified Superpave Asphalt Mixture Design, Wearing Course (Leveling). Ton

1.d Fiber Modified Superpave Asphalt Mixture Design, Binder Course. Square Yard or Ton

1.e Fiber Modified Superpave Asphalt Mixture Design, Binder Course (Leveling). Ton

- **Revise Section 413.4(b) RPS Construction to read as follows:**

(b) RPS Fiber Modified Construction. Square Yard or Ton

PROPOSAL AND CONTRACT INSTRUCTIONS- FORM 944

- 1 The proposal must be typewritten or printed.
- 2 If more than one proposal on any project is submitted by an individual, firm or partnership, corporation or association under the same or different names, only one proposal, the lowest, will be considered.
- 3 Description of work—A. If additional space is needed, insert appropriately numbered attachment and note "Continued on attached work sheets"
- 4 Part A of Page 1 is to be completed by municipality. Part B of Page 1 to be completed by contractor. Schedule of Prices -Column #1 (Item) ,#2 (Approximate Quantities), #3 (Unit, i.e., ton, square yard, linear foot, etc.) and #4 (Description, i.e., bituminous materials -9.5mm S & L, 12.5mmWearing, 25.0mm Base Course, etc.) must be filled in by municipality to insure equitable bidding. Columns #5 (Unit Price), #6 (Total) and total amount of bid, must be filled in by the contractor. If more space is needed, add note at bottom of the page, "Continued on Attachment No. 1-A"; and add additional sheet designated as Attachment No. 1-A, 1-B, etc. Repeat for each additional sheet required. As required by Publication 408 (current edition), Section 102.06 (e), each bidder must submit a completed Form D-7126, Anti-Collusion Affidavit (included in this Form MS-944), with its bid proposal.
- 5 If liquidated damages are to be assessed, add the following sentence to Part A #2: "If all work is not completed on time, liquidated damages will be assessed at the rate of \$975.00 per additional working day." (OR"... as set forth in the attached schedule").
- 6 Only the successful bidder is obligated to provide payment and performance bonds. These bonds shall conform to the requirements of the relevant municipal code or charter and the Public Works Contractors' Bond Law of 1967, Act of December 20, 1967, P.L. 869, No.385, 8 P.S. §§ 191—202. Bond forms are included in this Form MS-944 as Attachments 2 (performance bond) and 3 (payment bond). The successful bidder must submit the bonds and the Workmen's Compensation Act Affidavit, Attachment 4, within 20 days of the contract award. Failure to submit the bonds shall constitute grounds to cancel the contract
- 7 If the estimated cost of a contract for "public work," as this term is defined in the Pennsylvania Prevailing Wage Act, Act of August 15, 1961, P.L. 987, No. 442, as amended, 43 P.S. §§ 165-1—165-17, exceeds \$100,000.00 and the contract is paid for in whole or part out of the funds of the municipality, the municipality shall take the following actions: (1) Determine the prevailing minimum wage rates from the Department of Labor and Industry, Bureau of Labor Law Compliance. (2) Indicate in the advertisement issued for the purpose of securing bids for the contract that prevailing wage rates shall be paid on the project. (3) Specify the prevailing minimum wage rates in the bid proposals for the contract. On projects financed partly with federal funds, if the project cost exceeds \$2,000.00 and 25% or more of the funding comes from federal funds, the Davis-Bacon Act, 40 U.S.C. §§ 3141—3145, applies. Here again, it is the responsibility of the municipality to obtain the Davis-Bacon wage rates from the United States Department of Labor, Wage and Hour Division, which has offices in Philadelphia, Pittsburgh and Wilkes-Barre; include them in the proposal; and note the fact in the advertisement. If both acts are applicable, the Davis-Bacon Act preempts the Pennsylvania Prevailing Wage Act and applies to the entire project, not just the federally-funded components.
- 8 An ESCALATOR CLAUSE is optional; if used, it must be included in the proposal prepared by the municipality. An escalator clause may not be inserted by the contractor.

CONTAINS IMPORTANT INFORMATION FOR THE CONTRACTOR

The Prime Contractor and subcontractors must comply with all of the following provisions that are marked with an "X".

- ☒ This Proposal and Contract is made under, subject to, and governed by Specification 408/2020, Change #7, effective October 6, 2023, of the Pennsylvania Department of Transportation.
- ☒ Traffic Control and Safety Devices to be provided by the contractor. (Maintenance and Protection of Traffic to comply with current MUTCD, PennDot Publication 212 and Penndot Publication 213).
- ☒ **Contractor required to review proposed project with municipality's representative prior to bidding. Contact Mike Hoegerl at (814) 573-3459, to schedule a review of the project.**
- ☒ The municipality reserves the right to eliminate items of work.
- ☒ The lowest responsible bidder must comply with the Public Works Employment Verification Act by submitting a Commonwealth Public Works Employment Verification Form to the Public Body prior to award of Contract. The form and relevant information is attached with the Bid Package. Return completed form with submitted bid package.
- ☒ Contractor to supply proof of CDL Drug and Alcohol Compliance upon award of the bid.
- ☒ Contractor to provide Asphalt Quality Control Plan (Form CS-409) and all Asphalt Mix Designs (Form TR-448A) to the municipality 5 days prior to start of work.
- ☒ Notify the municipality 5 working days prior to the start of physical work.
- ☒ **No physical work prior to June 3, 2024, unless authorized by the municipality.**
- ☒ **No work on July 4th through July 7th.**
- ☒ **No work permitted on weekends unless authorized by the municipality.**
- ☒ **Work to be completed on or before August 30, 2024. Liquidated damages apply at the rate of \$975.00 per calendar day after this completion date.**
- ☒ Prevailing wages apply if contract exceeds \$100,000.00.
- ☐ Contractor required to notify all residents of pending work to be performed.
- ☒ Contractor must receive authorization from municipality if the anticipated work is to exceed 100% of planned quantity.
- ☒ The municipality is responsible for the inspection of the project. If the municipality's representative is not on site, it is the responsibility of the contractor to contact the municipality for any questions or concerns that may arise during construction. Failure to do so, may result in "no payment" for the area in question.
- ☒ Incidental preparation and clean up required (Project Construction Materials). Excess material to be removed by the contractor.
- ☐ Municipality will retain asphalt millings. Contractor responsible for delivering the millings to XXXXXXXXXXXXXXXX. Contractor responsible for coordinating delivery and whether the contractor is responsible for providing a loader and operator to stockpile the material.
- ☒ Saw cut or milled paving notch required at abutting pavement which includes intersecting roads and paved driveways (considered incidental to paving item).
- ☒ Asphalt tack coat (NTT/CNTT) required for each paving course (considered incidental to paving item).
- ☐ Scratch/Leveling Courses to be placed at the discretion of appointed inspector(s).
- ☐ Full width pavement with one pass required.
- ☒ Asphalt material to be accepted by certification.
- ☒ Compaction to be accepted by non-movement.
- ☒ Asphalt seal required on all abutting pavement (including asphalt driveways) , new centerline longitudinal pavement joints, along existing concrete curbs, and around any inlets, manhole covers, water valves and gas valves (considered incidental to wearing item). Any inlet grates, manholes, and valve boxes sealed shut will be cleaned to the satisfaction of the municipality without any additional compensation to the contractor.

SPECIAL PROVISIONS TO CONTRACT MS-944 (Attachment 1-A) - PAGE 2 OF 2

- ☒ Contractor required to have approved sample bottles, bags, and boxes available if the municipality requests samples.
- ☒ All required documentation must be submitted to the municipality prior to any invoice payments. Required documentation are as follows: Asphalt Quality Control Plan, Mix Designs, Material Delivery Tickets, Material Certifications (CS-4171), Asphalt Bill of Lading(s), Tack Coat Bill of Lading, and the Notice of Completion (MS-NCP).
- ☒ Contractor responsible for defects that occur within one year from the date of the Notice of Completion.
- ☒ Future award of Contract will be based on quality of work as determined by the municipality.

Project Specific Special Provisions:

- ☒ This project is part of the Frenchcreek COG Joint Advertisement. Bids will be opened on April 3, 2024, at 1 PM at the West Mead Township Building. Bids will then be handed over to the Municipalities to either be awarded or rejected at the Township's Meeting scheduled April 8, at 7:00 PM.
- ☒ A mandatory Pre-Bid Meeting will be held on Thursday, March 21th at 9:00 AM at the West Mead Township Building. After the meeting Municipalities will be available to field view the projects with the contractors.
- ☒ Sealed bids are to be labeled on the outside envelope "Hayfield Township Paving Bid".

My signature signifies that I have read and understand the above special provisions to this contract, and by being authorized by this company to act as their authorized representative, and on their behalf hereby agree to adhere to any and all of the provisions pertaining to this contract.

PROPOSAL AND CONTRACT INSTRUCTIONS- FORM 944

- 1 The proposal must be typewritten or printed.
- 2 If more than one proposal on any project is submitted by an individual, firm or partnership, corporation or association under the same or different names, only one proposal, the lowest, will be considered.
- 3 Description of work—A. If additional space is needed, insert appropriately numbered attachment and note "Continued on attached work sheets"
- 4 Part A of Page 1 is to be completed by municipality. Part B of Page 1 to be completed by contractor. Schedule of Prices -Column #1 (Item) ,#2 (Approximate Quantities), #3 (Unit, i.e., ton, square yard, linear foot, etc.) and #4 (Description, i.e., bituminous materials -9.5mm S & L, 12.5mmWearing, 25.0mm Base Course, etc.) must be filled in by municipality to insure equitable bidding. Columns #5 (Unit Price), #6 (Total) and total amount of bid, must be filled in by the contractor. If more space is needed, add note at bottom of the page, "Continued on Attachment No. 1-A"; and add additional sheet designated as Attachment No. 1-A, 1-B, etc. Repeat for each additional sheet required. As required by Publication 408 (current edition), Section 102.06 (e), each bidder must submit a completed Form D-7126, Anti-Collusion Affidavit (included in this Form MS-944), with its bid proposal.
- 5 If liquidated damages are to be assessed, add the following sentence to Part A #2: "If all work is not completed on time, liquidated damages will be assessed at the rate of \$975.00 per additional working day." (OR"... as set forth in the attached schedule").
- 6 Only the successful bidder is obligated to provide payment and performance bonds. These bonds shall conform to the requirements of the relevant municipal code or charter and the Public Works Contractors' Bond Law of 1967, Act of December 20, 1967, P.L. 869, No.385, 8 P.S. §§ 191—202. Bond forms are included in this Form MS-944 as Attachments 2 (performance bond) and 3 (payment bond). The successful bidder must submit the bonds and the Workmen's Compensation Act Affidavit, Attachment 4, within 20 days of the contract award. Failure to submit the bonds shall constitute grounds to cancel the contract
- 7 If the estimated cost of a contract for "public work," as this term is defined in the Pennsylvania Prevailing Wage Act, Act of August 15, 1961, P.L. 987, No. 442, as amended, 43 P.S. §§ 165-1—165-17, exceeds \$100,000.00 and the contract is paid for in whole or part out of the funds of the municipality, the municipality shall take the following actions: (1) Determine the prevailing minimum wage rates from the Department of Labor and Industry, Bureau of Labor Law Compliance. (2) Indicate in the advertisement issued for the purpose of securing bids for the contract that prevailing wage rates shall be paid on the project. (3) Specify the prevailing minimum wage rates in the bid proposals for the contract. On projects financed partly with federal funds, if the project cost exceeds \$2,000.00 and 25% or more of the funding comes from federal funds, the Davis-Bacon Act, 40 U.S.C. §§ 3141—3145, applies. Here again, it is the responsibility of the municipality to obtain the Davis-Bacon wage rates from the United States Department of Labor, Wage and Hour Division, which has offices in Philadelphia, Pittsburgh and Wilkes-Barre; include them in the proposal; and note the fact in the advertisement. If both acts are applicable, the Davis-Bacon Act preempts the Pennsylvania Prevailing Wage Act and applies to the entire project, not just the federally-funded components.
- 8 An ESCALATOR CLAUSE is optional; if used, it must be included in the proposal prepared by the municipality. An escalator clause may not be inserted by the contractor.
