

PRESS RELEASE

For immediate Release

During the West Milton Council meeting of March 12th, 2024, multiple inaccurate comments were offered including a few questions that had no basis in fact. The comments implied statements that were never uttered by the Village Manager and or Mayor regarding proposed or intended income tax increases. No such increases have been proposed or are contemplated. The comments implied the Manager and or Council could impose such increases, when in fact any income tax increase must go to levy ballot and approved by the citizens. Another question implied the Village budget was in the “red” when that is also incorrect.

For more information, please contact;

Jeff Sheridan, Village Manager,
