

Codes and Property Maintenance

Maintaining Aesthetic Appeal

The Village's property maintenance program is designed to ensure that properties are maintained to the standard set forth by the Village Code. The most frequent complaints the Village receives are:

- Accessory structures in disrepair
- Unkempt lawns (including ditches)
- Unenclosed storage (trailers, unused cars, building materials, etc.)
- Homes in need of repair

Addressing Violations

Village staff works diligently to make sure all violations are addressed; however, we are not always able to visit every property in the Village consistently. If you see a violation, please voice your concern using the myBlue category in [Access Bayside](#).
