

Police Department June 2020

Highlights / Accomplishments

- Chief Larsson presented a formal discussion on what affects the legitimate standing that the department has in the community. The three-hour interactive time covered the topics of implicit bias, procedural justice and police legitimacy. Members of BCC joined the police staff as well.
- The Police Department contributed over 200 hours of time to the support of North Shore police departments in monitoring the protests and civil disturbances in June. The North Shore Chiefs decided to limit the deployment of police officers for what became typical, noisy but non-violent protests. There were two protests in Bayside.
- Prepackaged and carry-out food as well as cards and letters continue to come in for the BCC staff and Police staff from the community. The message of support and encouragement is clear.
- Chief Larsson has been reviewing policies concerning use of force to ensure that it coincides with best practices around the nation.
