I understand that I: am subject to all applicable codes, laws, statutes and ordinances, including those described on the Notice to Permit Applicants form; am subject to any conditions of this permit; understand that the issuance of this permit creates no legal liability, express or implied, on the state or municipality; and certify that all the above information is accurate. If one acre or more of soil will be disturbed, I understand that this project is subject to ch. NR 151 regarding additional erosion control and stormwater management and the owner shall sign the statement on the Notice to Permit Applicants form. I expressly grant the building inspector, or the inspector's authorized agent, permission to enter the premises for which this permit is sought at all reasonable hours and for any proper purpose to inspect the work which is being done.																												
<input checked="" type="checkbox"/> I vouch that I am or will be an owner-occupant of this dwelling for which I am applying for an erosion control or construction permit without a Dwelling Contractor Certification and have read the cautionary statement regarding contractor responsibility on the Notice to Permit Applicants form.

36inch

- **⚡ [STURDY AND HIGH QUALITY]** Our fence post anchors are made of durable premium 14-gauge sturdy steel material, with high strength and solidness, so you can insert the spikes onto ground quickly and easily. The surface of the ground spike is coated with durable powder coating to last many decades to come and protect your decking wood from rotting.

- **⚡ [SIZE]** The length of the fence post is 36 inches, can fit standard 4 x 4 inches posts; 3.5 x 3.5 inches true dimensions with screws on one side to allow the post bracket opening to be large enough to insert your 4x4 and then tighten to hold firmly

- **⚡ [EASY TO INSTALL]** You can use the post without digging holes or pouring concrete. You only need to add the wood into the post then tightened screws and nuts. Owing to the wooden post being in contact with metal rather than soft / wet ground, so your fence posts or mailbox can be last long time.

- **⚡ [WIDE APPLICATIONS]** The fence anchor is widely used in our daily life, including fencing, mailboxes, decking flag poles, shed support, timber frames, solar power installations, road signage, wooden structures, banners and more. It is a best choice for you to decorate your yard.

h or finish

Royal Hayden ST-136

Chocolate T-129

SEMI-TRANSPARENT

- Allows wood grain and texture to show through
- Adds subtle color
- Accents and enhances pattern of wood grain
