NORTH SHORE HEALTH DEPARTMENT HEALTHY HIGHLIGHTS 2022

Serving the communities of Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood and Whitefish Bay

EQUALITY VS EQUITY

OFTENTIMES THE TERMS EQUITY AND EQUALITY ARE USED INTERCHANGABLY, YET THEY ARE NOT THE SAME.

The left half of the graphic illustrates equality - where everyone, regardless of race, physical ability, gender, etc., gets the same sized box, even though one person is still left out from viewing the game.

The right half of the image illustrates what equity would look like. A simplified definition of equity is assistance that is proportional to an individual or community's need. Therefore, as opposed to the boxes being distributed evenly or equally amongst the three people, the boxes are distributed equitably, with the person on the left utilizing no boxes and the person on the right receiving the most boxes.

EQUALITY	EQUITY
Equality is about Sameness	Equity is about Fairness
Equality promotes fairness and justice by giving everyone the same thing.	Equity gives people access to the same opportunities.
It can only work if everyone starts from the same place.	Our differences and/or history can create barriers to participation, so we must first ensure equity before we can enjoy equality.
