

## Traveling Beer Garden at Doctors Park

The Traveling Beer Garden is coming to Doctors Park July 27 to August 14!

Featuring a Sprecher firetruck, converted and outfitted with tap handles for a changing selection of craft beers, hard sodas, and their famous root beer. Enjoy live music Saturday nights, from 5-8 p.m. Each beer you drink supports your Milwaukee County Parks.

Admission is free!

## Yard Waste Carts Available

Do you need somewhere to store your yard waste? You can purchase a dark gray yard waste cart, similar style to your garbage and recycling carts.

Carts can be purchased through [Access Bayside](#) for the same price as your garbage and recycling carts, \$75. Payments can be made [online](#) or in person at Village Hall.

## MMSD Fish Creek Study

The Milwaukee Metropolitan Sewerage District will soon begin a study of Fish Creek in the northern section of the Village. The purpose of this study is to reduce the risk of flooding along Fish Creek in the Village of Bayside while protecting an environmentally sensitive stream corridor downstream. The scope of the project consists of conducting a preliminary

engineering study of Fish Creek to mitigate for current and future anticipated flood risks associated with additional runoff expected from land use changes in the watershed.

## Village Hall Recycling Center

The Village Hall Recycling Center is once again open! Residents can come to the Village Hall lobby to recycle:

- paper for shredding (shredded off-site by a third party)
- plastic bags
- eye glasses
- ink cartridges
- cell phones

These items and more are also accepted at Recycling Days and Clean Up Days.

## Grazing Goats

The Village will be partnering with Grazing Goats Wisconsin, utilizing goats to clear approximately 3.5 acres of stormwater management facilities near the North Shore Fire Department on Brown Deer Road in Bayside.

Due to the grade, elevations, and volume of material in this area, mowers are not a feasible option and string trimming over three acres is not viable or cost-effective alternative. Clearance of the 621 East Brown Deer Road Pond, along Indian Creek, and Bio-Retention pond facility south of the 621 pond is essential to maintain flow of stormwater and clear significant vegetation build up in and around the area to ensure stormwater flow.

Utilizing a goat grazing program will allow the Village to clear the unwanted vegetation in a sustainable manner and avoid chemical use. The goats will be within a secured, fenced area. We appreciate the anticipated hard work of the grazing goats.

taking place on Thursday, August 4th from 6-8 pm in front of the Village Hall. This is a family-friendly community event where residents and families will be able to meet, chat with, and eat great food with Bayside's finest and other area police officers. Mequon Police Department K9 Djuke and handler Officer Matt Bottoni will also be in attendance!

Your favorite area restaurants: The Original Sobelmans Pub and Grill, Sals Pizza - Cedarburg, Nothing Bundt Cakes, The Kabab Shack, and the Friendship Cafe, Bakery, & Art Studio, are back again this year and have once again generously donated their time and food to make myBlue Night Out a success.

The North Shore Fire/Rescue will have a firetruck and an ambulance on display to cover that! If you or your kids are feeling a bit artistic, you'll be able to paint a Village of Bayside Police Department squad car to your liking.

Other fun activities include a bounce house, yard games, tours, and information booths from the Bayside Communications Center, Village Village Hall, Schlitz Audubon Nature Center, North Shore Health Department, and more.

We hope to see you all there!

## Solar Update

In the first full year of operation, the solar array installed on the Department of Public Works rooftop, which provides power for the Public Works facility, Bayside Emergency Dispatch Center, Police Department and Village Hall, has generated 163 MWh of electricity.

The power generation of the solar array is equivalent to planting 1,904 trees and has saved 252,002 pounds of CO2 emissions.

This Village will be participating in the 2023 [Grow Solar](#) Greater Milwaukee program to make solar installation more accessible to residents. Keep an eye out for more information.
