National Preparedness Month

-  **Make a Plan!** Know which types of disasters could affect your area. Know how you'll contact your family members and reconnect if separated. Establish a family meeting place that's familiar and easy to find.
-  **Build an emergency kit!** Consider unique needs of your family. Include supplies that might be needed by pets, older adults, and those with disabilities in the event of the emergency.
-  **BEFORE an emergency, teach your child how to dial 911.** You should also teach kids when and how to call other important phone numbers.
-  **Sign up to receive alerts through CodeRED - follow the included link or text "NSALERTS" to 99411** 

National Preparedness Month

As National Preparedness Month comes to an end, here are a few reminders to keep you and your family safe.

- **Make a Plan** - Establish a family meeting place that is familiar and easy to find.
- **Build an Emergency Kit** - Include supplies for older adults, pets, and those with disabilities.
- **Teach 911** - Before an emergency, make sure your children know how and when to call 911.
- [Sign Up for CodeRED](#) - Text NSALERTS to 99411 to receive emergency text updates.
- [Text-to-911](#) - Remember, call if you can, text if you can't.

2022 Road Project

The paving contractor, Payne & Dolan, will be in the Village beginning the week of October 3. The contractor will be milling, grading, and repaving the roads in the project area.

Port Washington Road Traffic Shift

WisDOT's County Line Interchange project will include a traffic shift on Port Washington Road beginning this week between the Elizabeth Residence and Ravine Lane.

The shift will take the existing northbound and southbound lanes and narrow them to 10 feet (20 feet total) to provide room to rebuild the future southbound lanes of Port Washington Road. Due to the reduced width, the speed limit will reduce to 25mph.

For more information on this project, visit the WisDOT [webpage.](#)

Tennyson Drive Storm Sewer Project

Building on previously installed Green Infrastructure Improvements, the Tennyson Drive Stormwater Management Infrastructure Project will address localized flooding during significant storm events and allow stormwater from the drainage basin to collect and direct runoff to the ravine located near Standish Place, southeast of the Tennyson Drive area of concern that currently experiences flooding.

For more updates on this project including the timeline and other Village projects, [visit us online.](#)

Fish Creek Project

MMSD currently has jurisdiction of Fish Creek for the purpose of studying stormwater impacts addressing structures that are at risk of flooding.

The purpose of this project is to reduce the risk of flooding along Fish Creek in the Village of Bayside while protecting an environmentally

sensitive stream corridor downstream. The scope of the project consists of conducting a preliminary engineering study of Fish Creek to mitigate for current and future anticipated flood risks associated with additional runoff expected from land use changes in the watershed.

For more updates on this project and other Village projects, [visit us online](#).

Sanitary Sewer Lining and Manhole Rehabilitation Project

Visu-Sewer will be cleaning and televising the sewer mains beginning August 29. The lining installation began this week. There are approximately 10,000 feet of main line and approximately 60 manholes that are included in the project.

Residents will begin to see blue Visu-Sewer trucks around the Village. Remember to keep toilet lids down during this process.
