# " G " NATURE CENTER DISTRICT ZONING

VILLAGE OF BAYSIDE  
MILWAUKEE COUNTY, WI

# Nature Center District

Sec. 125-100

Purpose. The purpose of the nature center district shall be to encourage the preservation of natural wildlife, plants and animals, watercourses and topography for the benefit of the public and the education of children and adults by furthering environmental awareness and to motivate a sense of responsibility to maintain a healthy environment.

The "G" nature center district shall be devoted to the preservation and protection of natural animal and plant life and for the conduct of outdoor exploratory programs, a rural life display including representative specimens of domestic farm animals, educational programs through school officials or otherwise, the operation of a preschool, training workshops and programs for teachers, counselors and naturalists and guided tours.

To secure such objectives, only those structures and improvements may be erected in the "G" nature center district that tend to promote such objectives, including interpretive buildings, residences for caretakers, naturalists and other employees, interpretive features, landscaping, parking facilities, sanitary facilities and the installation of utilities required therefor.
