

STRAIGHT, STABLE, STURDY

Always ensure that your mailbox is straight, stable, and sturdy! Mailboxes that do not display these qualities is more susceptible to damage and being knocked over especially during the winter plowing months.

If your mailbox is deemed not straight, stable, or sturdy by the Village, it will be the responsibility of the homeowner to replace it should the snow coming off the snowplow knock it over.

Need your mailbox replaced?

Check out the Village's Mailbox Replacement Program!
