December 7, 2023

Honorable Mayor, Members of the City Council and Citizens of the City of Belvedere

The City, consistent with its responsibility to fully disclose its financial information and to ensure compliance with all state and federal regulations, publishes a complete set of audited financial statements within six months after the close of each fiscal year. The Annual Comprehensive Financial Report of the City of Belvedere fulfills that requirement for the fiscal year ended June 30, 2023. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included. City management assumes full responsibility for the accuracy, completeness and reliability of the information contained in this report.

The City's financial statements have been audited by Maze & Associates Accountancy Corporation, a firm of certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2023, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified ("clean") opinion that the City's financial statements for the fiscal year ended June 30, 2023, are fairly presented in conformity with generally accepted accounting principles ("GAAP"). The independent auditors' report is presented as the first component of the financial section of this report.

Generally accepted accounting principles ("GAAP") require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

### **Government Profile**

The City of Belvedere is a residential community located on the Tiburon Peninsula in Marin County, California. Belvedere is 2.4 square miles in size and is surrounded on three sides by the waters of the San Francisco Bay. The town is situated on two "islands" (Belvedere Island and Corinthian Island) and a lagoon area with adjacent residential properties. Belvedere affords its residents with amazing views in every direction. San Francisco, the Golden Gate Bridge, Sausalito, Angel Island and Mt. Tamalpais can be seen from Belvedere. The population of Belvedere is just under 2,100. A small fraction of the land area in Belvedere is devoted to commercial uses, including offices, services and retail establishments.

Incorporated in 1896, Belvedere has a Council/Manager form of government. Policy-making and legislative authority are vested in the governing city council, which consists of a mayor, vice-mayor and three council members. Council members are elected on a non-partisan basis to overlapping four-year terms. The council members select the Mayor and Vice Mayor each year. The Council is responsible for passing ordinances, adopting the budget, appointing commission and board members, and hiring the City Manager and City Attorney. The City Manager is responsible for assuring compliance with all ordinances, implementing the policies and direction of the City Council, appointing department heads, hiring employees, and managing the daily operations of the City.

The City provides a range of municipal services including law enforcement, planning, building code compliance, construction and maintenance of city infrastructure and park maintenance. Contract fire services are provided by the Tiburon Fire Protection District. Library and Recreation services are provided through joint powers agreements with the Town of Tiburon.

The annual budget serves as the foundation for the City of Belvedere's financial planning and control system. The City's departments are required to submit requests for appropriation to the City Manager each year. The City Manager uses these requests as the starting point for developing the proposed budget. In May of each year, the City Manager submits to the City Council a proposed operating budget for review. The Council holds a public hearing, and a final budget is adopted by June 30<sup>th</sup> each year.

The budget is adopted by fund, department and account classification. The City Manager may transfer budgeted amounts within any fund. Only the City Council can approve additional appropriations. The City Council is given a financial report and a comprehensive budget review at mid-year.

### **Economic Outlook**

The City is primarily residential, and the majority of general fund revenue received (72%) is from local property taxes. Current Secured Property Tax revenue increased 9.0% (or \$481,739) in fiscal year 2023 and is estimated to increase 4.0% (or \$232,875) in fiscal year 2024. At the end of October 2023, there were 11 homes for sale in Belvedere with sales prices ranging from \$2.85 to \$31.5 million with an average list price of \$13 million, and a median list price of \$8 million.

Belvedere's revenues are somewhat insulated from economic downturns because only a small percentage of revenue received is from sales tax and there are no hotels in the city. In the ten years ranging from fiscal year 2014 through fiscal year 2023 overall property tax revenues increased an average of 6.41% per year.

# **Long-Term Financial Planning**

Belvedere's unique reliance on property tax revenue places Belvedere in a relatively positive economic outlook compared to other agencies that rely mostly on sales tax revenues. The City did see an increase during the fiscal year in both planning and building related workloads and public work projects. The City has taken a conservative approach to our budget planning due to signs of a slowing economy and an increase in the cost of living over the past year leading to higher expenditures for both the City and staff. To address these challenges, the City maintains a thoughtful and measured approach to our financial planning.

The five-year forecast assumes a conservative 4.5% in property tax revenue over the period, and continued contributions to the new Section 115 Pension Trust Fund to hedge against rising pension liabilities. Operating and capital expenditures have been forecasted just below pre-pandemic levels.

The City has identified \$3.09 million in capital projects to be completed over the next five fiscal years. Capital projects included are:

- \$1,840,000 for street improvements,
- \$392,000 for infrastructure improvements including funding for completing the Environmental Impact Report (EIR) for the Belvedere Seismic Upgrade Project (BSUP),
- \$206,000 for improvements to Belvedere's lanes,
- \$129,000 for parks and open space projects,
- \$177,000 for community building upgrades, and
- \$348,000 for miscellaneous uncategorized projects.

Funding for street-related projects will come from various sources, including Road Impact Fee revenue; which is collected at the time a construction permit is issued; State Gas Tax revenue; and Marin County Measure A sales tax revenue.

On November 3, 2021, the Council considered updated project designs for a project that has been under serious consideration for several years. The project, the "Critical Infrastructure Project," is a comprehensive approach to protecting the City from current and future threats. By strengthening key access routes and utility arteries and providing additional protection against storm surges and waves, the project would not only ensure resilience of public assets but would also add value to every property in Belvedere. The project has been divided into two phases with an estimated cost of the entire project of \$28 million and will likely be funded through a combination of grant funding and other financing sources still to be identified.

The City's General Fund Reserve Policy was revised at its meeting on December 13, 2021, to require that the City maintain an end-of-year General Fund Reserve that totals one half of the projected fiscal year's General Fund expenditures, plus one half of the General Fund transfer to the Fire Fund, plus one half of annual debt service payments. The projected expenditures from the 2nd year of the 5-year budget are used for this calculation. The General Fund reserve was fully funded at the end of fiscal year 2023 and is anticipated to be fully funded in each of the next five fiscal years.

The General Fund Reserve Policy was revised at the March 13, 2023 Council meeting, whereby any unassigned funds remaining in the City's General Fund after all other funds have been classified in accordance with GAAP and City Policy, will be reviewed by the Finance Committee as part of the annual financial audit report each December and a recommendation made to Council.

## **Financial Information**

The City's management is responsible for establishing and maintaining internal controls to ensure that the City's assets are adequately protected from loss, theft or misuse. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. It is management's belief that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance that financial transactions are properly recorded.

This report was completed with contributions from Robert Zadnik, City Manager and Bob McCaskill, Finance Committee Chair.

The Government Finance Officers Association of the United States and Canada ("GFOA") award for Certificate of Achievement for Excellence in Financial Reporting to the City of Belvedere for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022, has been received. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility.

Sincerely,

Robert Zadnik City Manager

# FINANCIAL SECTION

### INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the City Council of the City of Belvedere, California

### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Belvedere, (City) California, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirement relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management's for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Report on Summarized Comparative Information

We have previously audited the City's June 30, 2022 financial statements and we expressed unmodified audit opinions on those audited financial statements in our report dated November 10, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying Supplementary Information, as listed in the Table of Contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section listed in the Table of Contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exits, we are required to describe it in our report.

Pleasant Hill, California

Maze & Associates

December 7, 2023

#### INTRODUCTION

As management of the City of Belvedere (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with the City's financial statements, which follow this discussion and analysis.

# FINANCIAL HIGHLIGHTS

- The City's total assets plus deferred outflows on a Government-wide basis exceeded its liabilities plus deferred inflows at the close of the most recent fiscal year for a net position of \$14.44 million.
- The City's Government-wide *net position* decreased by \$1.38 million at the close of FY 2022-23 as compared to FY 2021-22, primarily due to unfavorable changes to the City's long-term inflows and outflows of resources.
- At the close of the current fiscal year, the City's Governmental funds, on a current financial resource basis, reported a combined ending fund balance of \$9.91 million. This represents an increase of \$1.84 million over the prior fiscal year mainly due to increase in revenues.
- The General Fund balance is \$7.88 million, of which \$3.95 million is assigned to the General Fund Reserve in compliance with City policy, \$2.00 million is restricted for the City's pension liabilities, \$.34 million is assigned for the Insurance and Legal Reserve, \$.02 million is nonspendable and \$1.56 is unassigned.

# OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other required and non-required supplementary information in addition to the basic financial statements themselves.

# **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the four components reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position and condition of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused vacation leave).

The governmental activities of the City include general government, public safety, planning and development, public works, recreation, and non-departmental. The City does not conduct any business-type activities (such as water or sewer).

The government-wide financial statements include only the City because the City has no component unit relationship with any other agency. The government-wide financial statements can be found on pages 16 and 17 of this report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Funds of governmental entities are divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The City does not have any proprietary funds.

## Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on (1) short-term inflows and outflows of spendable resources and (2) the remaining year-end balances available for spending. This information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist the reader with this comparison between governmental funds and governmental activities.

The City maintains 7 individual governmental funds. In the governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances, information is presented separately for the following funds considered to be major funds:

- o General Fund
- o Fire Protection Fund
- o General Capital Improvements
- Critical Infrastructure Fund

# Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because those resources are not available to support the City's own programs. The City uses fiduciary funds to account for the undergrounding assessment district funds and the Library fund. The basic fiduciary fund financial statements can be found on pages 28 - 29 of this report.

### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are part of the basic financial statements and can be found on pages 31 to 67 of this report.

# **Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. One section includes budgetary comparison statements for the major funds (general, fire protection, and general capital improvements). The other section is a schedule of funding progress for PERS and OPEB. Required supplementary information can be found on pages 70 to 78 of this report. Other supplementary information as noted in the table of contents can be found on pages 80 to 88 of this report.

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

### **Statement of Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's overall financial condition and position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$14.44 million at the close of the most recent fiscal year. The following table summarizes the net position for governmental activities as of June 30, 2023, 2022 and 2021:

		overnmenta Activities	l	·	7			
	2023	2022	2021	2023	2022	2022-2023 Increase (Decrease)	2021	2021-2022 Increase (Decrease)
Current and other assets	\$ 11,792	\$ 11,838	\$ 8,843	\$ 11,792	\$ 11,838	\$ (46)	\$ 8,843	\$ 2,995
Capital assets	8,599	7,931	7,122	8,599	7,931	668	7,122	808
Total assets	20,391	19,769	15,965	20,391	19,769	622	15,965	3,804
Deferred outflows related to OPEB & Pension	3,922	2,773	1,070	3,922	3,062	860	1,070	1,992
Total deferred outflows	3,922	2,773	1,070	3,922	3,062	860	1,070	1,992
Current liabilities	2,077	1,750	1,369	2,077	1,750	326	1,369	381
Noncurrent liabilities	6,040	3,668	5,285	6,040	3,668	2,373	5,285	(1,617)
Total liabilities	8,117	5,418	6,653	8,117	5,418	2,700	6,653	(1,236)
Deferred inflows related to OPEB & Pension	1,753	1,594	1,731	1,753	1,594	159	1,731	(137)
Total deferred inflows	1,753	1,594	1,731	1,753	1,594	159	1,731	(137)
Net position: Net investment in								
capital assets	8,599	7,931	7,122	8,599	7,931	669	7,122	808
Restricted	2,003	1,787	592	2,003	1,787	217	592	1,193
Unrestricted	3,840	6,102	937	3,840	6,102	(2,262)	937	5,165
Total net position	\$ 14,443	\$ 15,819	\$ 8,651	\$ 14,443	\$ 15,819	\$ (1,377)	\$ 8,651	\$ 7,167

- Current assets decreased by \$.04 million, attributable to total revenues in excess of program expenses in the reported year, increase in restricted investments due to contributions made to the Section 115 trust which offset the decrease of \$1.82 million net pension asset due to the significant change in net pension liability for the fiscal year.
- Capital assets increased by \$.67 million, net of accumulated depreciation, largely due to additions of various infrastructure projects in progress during the year.
- Liabilities related to short-term obligations increased by \$.33 million, due to modest increases in accounts payable, refundable deposits, and bonds payable within one year.
- Liabilities related to long term obligations increased by \$2.37 million is mostly attributable to the significant change in net pension from a net pension asset in the prior year to a net pension liability for the fiscal year due to negative 6.1% investment return for CalPERS.

# **Statement of Activities and Changes in Net Position**

The Statement of Activities and Changes in Net Position provides information regarding the City's revenue and expenses. The following table summarizes the revenues, expenditures and changes in net position as of June 30, 2023, 2022 and 2021:

	Governmental Activities				Total Primary Government										
	2	023		2022	2021		2023		2022	In	22-2023 crease ecrease)		2021	In	21-2022 crease ecrease)
Revenues:															
Program revenues:															
Charges for services	\$	1,811	\$	1,210	\$ 979	\$	1,811	\$	1,210	\$	601	\$	979	\$	230

Net position, end of year	\$	14,443	\$	15,819	\$ 8,652	\$	14,443	\$	15,819	\$	(1,377)	\$	8,652	\$	7,167

Governmental activities net position decreased by \$1.38 million. Key elements of the change in net position are as follows:

- Program revenue and charges for services reflected an increase of \$.60 million over the prior year, primarily due to an increase in building and planning activity during the fiscal year.
- Operating grants reflect an increase of \$.23 million, primarily due to the Regional Early Action Planning (REAP) grant revenue received during the fiscal year.
- Overall property taxes (including current secured property taxes) reflected an increase of \$.52 million over the prior year.
- Program expenses reflected an increase of \$9.82 million over the prior year. This significant change is due to the investment rate of return for CalPERS for the period June 30, 2022, of negative 6.1% which results in a pension expense of \$3.64 million which is allocated across the City's departments. This change also incorporates modest changes to both compensated absences and depreciable asset expense.

#### FUND FINANCIAL STATEMENTS

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Activity of the Governmental Funds is summarized in the following table:

Governmental Funds
Revenues, Expenditures and Other Changes in Fund Balances
For the Fiscal Years Ended June 30, 2023, 2022, and 2021 (thousands)

			202	3			20	22				2021

# **General Fund**

- General fund revenues of \$10.10 million reflected an increase of approximately \$1.61 million when compared to the prior year.
- General fund expenditures of \$6.59 million increased by \$.59 million over the previous fiscal year.
- Net transfers of \$2.38 million consist of transfers out for capital improvement, equipment replacement, fire protection, and debt service and a transfer in from the critical infrastructure fund of \$.70 million.
- The General Fund balance at fiscal year-end was \$7.88 million.

# Other Major Funds - Fire Protection Fund

• Revenues in the Fire Protection Fund, which were generated from a Citywide Parcel Tax, were \$1.05 million, an increase of \$.06 million over the previous fiscal year. Expenses were \$1.99 million, an increase of \$.14 million over the previous year.

# **General Fund Budgetary Highlights**

In the General Fund, there were no significant changes to appropriations as a result of amending the original budget.

Also in the General Fund, differences between the adopted budget and the actual amounts for revenues, expenditures, and other financing sources and uses resulted in a positive net variance of \$1.69 million. General fund revenues accounted for a positive variance of \$1.57 million, resulting primarily from a positive variance of \$.40 million in property taxes, .27 million in use of money and property and \$.42 million in fines and forfeitures. General fund expenditures were under budget by \$.17 million (or 3% of the budgeted expenditures), which is considered a reasonable fluctuation and not due to any one particular cause.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

# **Capital Assets**

The City's net investment in capital assets for its governmental activities as of June 30, 2023, was \$8.60 million. This investment in capital assets includes infrastructure, construction-in-progress, buildings and improvements, equipment, vehicles, streets and roads, storm drains, and parks. Infrastructure assets are items that are normally immovable and of value to the city, such as roads, levees, streets and sidewalks, drainage systems, and similar items (Note 5).

Net investment in capital assets is presented below to illustrate changes from the prior year:

### Capital Assets at Year-end

	2023		2022			et Change
Construction-in-progress	\$	1,838,044	\$	1,238,639	\$	599,405
Buildings & Improvements		3,994,410		3,994,410		-
Equipment		325,647		298,702		26,945
Vehicles		726,635		672,922		53,713
Infrastructure		10,159,800		9,564,070		595,730
Less accumulated depreciation		(8,445,228)		(7,838,191)		(607,037)
	\$	8,599,308	\$	7,930,552	\$	668,756

#### **Debt Administration**

The City's sole debt issuance is discussed in detail in Note 6 of the financial statements. On June 30, 2023, the City's long-term debt is comprised of a Lease Revenue bond bearing an interest rate of 2.55%, as follows:

### **Outstanding Debt**

Governmental Activity Debt	Ju	Balance ne 30, 2023	Ju	Balance ne 30, 2022	N	et Change
Lease Revenue Bonds	\$	1,842,000	\$	2,034,000	\$	(192,000)
Total Debt	\$	1,842,000	\$	2,034,000	\$	(192,000)

### PENSION AND OTHER POST EMPLOYMENT BENEFITS

The City offers pension and Other Post-Employment Benefits (OPEB) to its employees. The primary pension plan is administered by the California Public Employees' Retirement System (CalPERS). Council has continued to be concerned about the impacts of rising pension cost on the City's budgets, and its potential for creating shortfalls in budgetary resources needed to fund city services and important capital projects. Recognizing that Belvedere needed a more comprehensive proactive strategy for dealing with the pension challenge, the City created in 2020 an ad hoc Taskforce on Pensions and OPEB. The Taskforce developed and proposed a strategy that would establish a City commitment to plan for and fund pension costs based on realistic assumptions, and to develop a mechanism by which future adjustments to the funding formula could be made in 3–5-year increments. The City Council approved this strategy at its April 2021 meeting, and staff implemented the strategy right away.

As a result, the City has begun accumulating restricted funds that can only be used for pension liabilities and is well positioned to meet its pension commitments to past, present, and future City employees (Note 8D).

The City previously offered an additional defined benefit plan to long-time employees; it does not offer this plan to employees hired after January 1, 2012. The plan is administered by the Public Agency Retirement System (PARS). It is a supplement to the CalPERS plan and has more stringent qualification requirements than the CalPERS plan.

The City also offers OPEB health benefits to employees who meet CalPERS vesting requirements. The benefit provided to City retirees is the minimum amount allowable under the CalPERS health plan, with the exception of certain City Manager retirees, who receive a more generous benefit.

# ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

- Property tax revenue is the primary source of revenue for the City, and continues to show steady growth, thanks to a stable real estate market and the City's favorable inventory of homes.
- General Fund expenditures are anticipated to increase in line with inflation in the greater Bay Area.
- Creation of a Section 115 pension trust and continual funding towards the trust means the City is well positioned for inevitable volatility in its future pension liabilities.
- Prudent fiscal management has resulted in a strong general fund reserve balance of 50% of projected General Fund expenditures plus Fire Fund transfer, plus the debt-service payments. Consequently, the City is well positioned to face unanticipated fiscal emergencies, such as catastrophic events or budget stabilization.

# **REQUESTS FOR INFORMATION**

This financial report is designed to provide our citizens, taxpayers, creditors and government regulators with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Below is the contact address for questions about this report or requests for additional financial information.

City of Belvedere Finance Department 450 San Rafael Ave. Belvedere, CA 94920 Ph: 415-435-3838

# STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The Statement of Net Position and the Statement of Activities summarize the entire City's financial activities and financial position. They are prepared on the same basis as is used by most businesses, which means they include all the City's assets, all its deferred inflows/outflows of resources and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis—the effect of all the City's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between City funds have been eliminated.

The Statement of Net Position reports the difference between the City's total assets and deferred outflows of resources and the City's total liabilities and deferred inflows of resources, including all the City's capital assets and all its long-term debt. The Statement of Net Position presents information in a way that focuses the reader on the composition of the City's net position, by subtracting total liabilities and deferred inflows of resources from total assets and deferred outflows of resources.

The Statement of Net Position summarizes the financial position of all of the City's Governmental Activities in a single column. The City's Governmental Activities include the activities of its General Fund, along with all its Special Revenue, Capital Projects and Debt Service Funds that present the financial position of the primary government. This column is followed by a column that displays the discretely presented component unit.

The Statement of Activities reports increases and decreases in the City's net position. It is also prepared on the full accrual basis, which means it includes all the City's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis used in the Fund financial statements, which reflect only current assets, current liabilities, available revenues and measurable expenditures.

The Statement of Activities presents the City's expenses first, listed by program. Program revenues—that is, revenues which are generated directly by these programs—are then deducted from program expenses to arrive at the net expense of each governmental program. The City's general revenues are then listed in the Governmental Activities or discretely presented component unit and the Change in Net Position is computed and reconciled with the Statement of Net Position.

Both these Statements include the financial activities of the City and the Belvedere Public Financing Authority.

### FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The General Fund, Fire Protection Special Revenue Fund, General Capital Improvements Fund and Critical Infrastructure Capital Projects Fund were determined to be Major Funds by the City for fiscal 2023. Individual non-major funds may be found in the Supplemental Section.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS - STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES AND CHANGES IN NET POSITION FOR THE FISCAL YEAR ENDED JUNE 30, 2023

WITH COMPARATIVE AMOUNTS FOR THE FISCAL YEAR ENDED JUNE 30, 2022

The schedule below reconciles the Net Changes in Fund Balances reported on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance, which measures only changes in current assets and current liabilities on the modified accrual basis, with the Change in Net Position of Governmental Activities reported in the Statement of Activities, which is prepared on the full accrual basis.

	2023	2022
Net changes in fund balances - total governmental funds	\$1,839,495	\$526,522
Amounts reported for Governmental Activities in the Statement of Activities and Changes in Net Position are different because:		
CAPITAL ASSETS TRANSACTIONS		
Governmental funds report capital outlays as expenditures. However, the Statement of Activities and Changes in Net Position, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capitalized expenditures are therefore added back to fund balance Depreciation expense is deducted from fund balance	1,275,793 (607,037)	1,425,886 (617,514)
LONG-TERM DEBT TRANSACTIONS		
Repayment of capital lease principal is added back to fund balance	192,000	194,000
ACCRUAL OF NON-CURRENT ITEMS		
The amounts below included in the Statement of Activities do not provide or require the use of current financial resources and therefore are not reported as revenue or expenditures in governmental funds (net change):		
Compensated absences	(24,179)	56,779
Unavailable grant revenues	(388,656)	260,390
Net OPEB liability and deferred outflows/inflows related to OPEB	(25,906)	(56,342)
Net pension liability and deferred outflows/inflows related to pension	(3,638,380)	5,378,468
Total Changes in Net Position of Governmental Activities	(\$1,376,870)	\$7,168,189

See accompanying notes to basic financial statements.

### FIDUCIARY FUNDS

These funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. The financial activities of these funds are excluded from the City-wide financial statements, but are presented in separate Fiduciary Fund financial statements.

#### CITY OF BELVEDERE STATEMENT OF FIDUCIARY NET POSITION FIDUCIARY FUNDS JUNE 30, 2023

	Custodial Funds
ASSETS:	
Cash and investments (Note 3)	\$567,847

Net Position - Beginning	548,350
Net Position - Ending	\$551,156

See accompanying notes to basic financial statements

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Belvedere (the "City") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental agencies. The Governmental Accounting Standards Boards ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting principles are described below.

#### A. Reporting Entity

The City is a municipal corporation governed by an elected five-member Council. As required by accounting principles generally accepted in the United States of America, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations and so data from these units are combined with data of the primary government. At June 30, 2023, the City did not have any component units that met this criterion.

#### B. Description of Funds

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows/outflows of resources, fund equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The minimum number of funds is maintained consistent with legal and managerial expectations.

#### C. Government-Wide Financial Statements

The City's government-wide financial statements include a Statement of Net Position and a Statement of Activities and Changes in Net Position. These statements present summaries of Governmental Activities for the City. These financial statements include the financial activities of the overall City government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed generally through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities and Changes in Net Position presents a comparison between direct expenses and program revenues for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and therefore are clearly identifiable to a particular function. Program revenues include three categories: (1) charges for services, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including all taxes are presented as general revenues.

Certain eliminations have been made as prescribed by Governmental Accounting Standards Board No. 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments ("GASB 34") in regard to interfund activities, payables and receivables.

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### D. Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. Accompanying schedules are presented to reconcile and explain the differences in net fund balance as presented in these fund statements to the net position presented in the government-wide financial statements.

GASB 34 defines major funds and requires that the City's major governmental funds be identified and presented separately in the Fund financial statements. All other governmental funds, called non-major funds, are combined and reported in a single column, regardless of their fund-type.

Major funds are defined as governmental funds which have either assets, liabilities, revenues or expenditures equal to ten percent of their fund-type total or five percent of the grand total. The General Fund is always a major fund. The City may select other governmental funds it believes should be presented as major funds. The City elected to report the Critical Infrastructure Capital Projects Fund as a major fund for the fiscal year ended June 30, 2023.

The major governmental funds of the City are:

- **General Fund** The General Fund is used to account for the resources to carry out basic governmental activities of the City such as general government, public safety, public works, and parks and recreation, which are not required to be accounted for in another fund.
- Fire Protection Fund This fund was established to receive and expend revenue from Measure C, the fire and emergency services special tax levy. This revenue, along with transfers from other funds, funds the cost of services provided by the Tiburon Fire Protection District.
- General Capital Improvements Fund This fund accounts for most capital improvement projects in the City that have various funding sources. Revenues received from various sources are used for related project costs.
- **Critical Infrastructure Fund** This fund accounts for funds set aside for potential future critical infrastructure capital projects, both planned and emergency repair.

#### E. Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. The City's fiduciary funds represent custodial funds. Custodial funds report resources, not in a trust, that are held by the City for other parties outside of the City's reporting entity.

Custodial Funds – These funds were created to account for all of the Assessment District Bonds, which includes the 2016 Avenue Assessment District, the Acacia/Laurel Undergrounding Utility District and the Golden Gate Undergrounding Utility District, as well as property taxes received on behalf of the Belvedere-Tiburon Library Agency. Special assessments received are used to meet the debt service requirements and to pay for the administrative costs.

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### F. Basis of Accounting

The City-wide and Fiduciary Fund financial statements required by GASB 34 are reported using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets and liabilities, including capital assets and long-term liabilities, if any, are included in the accompanying Statement of Net Position. The Statement of Activities and Changes in Net Position presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

The Governmental Fund financial statements are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and liabilities (except for long-term advances from the City) are included in the Balance Sheet, and the Statement of Revenues, Expenditures and Changes in Fund Balances present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Revenues are recorded when received in cash, except that revenues subject to accrual (generally 60 days after fiscal year end) are recognized when due. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property taxes, sales taxes, intergovernmental revenues, other taxes and investment earnings. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Grant revenues are recognized in the fiscal year in which all eligibility requirements are met. Under the terms of grant agreements, the City may fund certain programs with a combination of cost-reimbursement grants, categorical block grants and general revenues. Thus both restricted and unrestricted net position may be available to finance program expenditures. The City's policy is to first apply restricted grant resources to such programs, followed by general revenues if necessary.

Non-exchange transactions, in which the City gives or receives value without directly receiving or giving value in exchange, include taxes, grants, entitlements and donations. On the accrual basis, revenue from taxes is recognized in the fiscal year for which the taxes are levied or assessed. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The City applies all Government Accounting Standards Board (GASB) pronouncements (including all NCGA Statements and Interpretations in effect).

The reconciliations of the Fund Financial Statements to the Government-Wide Financial Statements are provided to explain the differences created by the integrated approach of GASB No. 34.

#### G. Use of Restricted/Unrestricted Net Position

When an expense is incurred for purposes for which both restricted and unrestricted net positions are available, the City's policy is to apply restricted net position first.

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### H. Interfund Balances

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans).

Long-term advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate they are not in a spendable form and are not expendable available financial resources. The City does not have any long-term advances between funds.

#### I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the purchases method in both the Government-Wide and Fund Financial statements. Inventories and prepaid items, as reported in the Fund Financial Statements, are offset by a nonspendable fund balance for noncurrent assets in governmental funds to indicate that these resources are not in spendable form.

#### J. Capital Assets

The City's assets are capitalized at historical cost or estimated historical cost. City policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. Depreciation of capital assets is charged as an expense each year and the total amount of depreciation taken over the years, accumulated depreciation, is reported on the Statement of Net Position as a reduction in the book value of capital assets. The City has assigned the useful lives listed below to capital assets: Buildings and improvements (20-30 years); Transportation equipment (10-15 years); Furniture and Equipment (3-20 years); and Infrastructure (20 years).

#### K. Compensated Absences

City employees accrue vacation, sick, holiday, executive leave and compensatory time off benefits. Vacation may not accrue beyond 320 hours or as provided in the employee's memorandum of understanding ("MOU") and the current Salary and Benefits Resolution. Cash compensation is payable for accrued vacation upon separation of service and also payable each year when the accrual balance exceeds the maximum allowed on December 31. No cash payment is made for accrued sick leave upon separation of service. Upon retirement, eligible employees may convert sick leave to years of service credit as provided for in the City's contract with PERS. In lieu of overtime, it is the City's policy to allow employees to accumulate compensatory time to limits provided for in the MOU. This accumulation may subsequently be converted to cash up to limits provided for in their MOU or converted to cash upon separation of service.

All vacation pay is accrued when incurred in the Government-Wide financial statements. A liability for these amounts is reported in the governmental funds financial statements only when they have matured (such as vacation time, estimated to be paid upon retirement in the next fiscal year with expendable available financial resources).

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated absences for governmental activities are primarily liquidated by the General Fund. The change in compensated absences was as follows:

Beginning Balance	\$235,170
Additions	123,494
Payments	(99,315)
Ending Balance	\$259,349
Current Portion	\$25,935

#### L. Unearned Revenue

Government-Wide Financial Statements – Unearned revenue is recognized for transactions for which revenue has not yet been earned. Typical transactions recorded as unearned revenues in the Government-Wide Financial Statements are unearned grants and prepaid charges for services.

Fund Financial Statements – Unavailable revenue is recorded when transactions have not yet met the revenue recognition criteria based on the modified accrual basis of accounting. The City records unavailable revenue for transactions for which funds are not available to meet current financial obligations. Typical transactions for which unavailable revenue is recorded are grants received but not yet earned or available, interest on interfund advances receivable and long-term loans receivable.

#### M. Property Tax Revenues

State Constitution Article 13 provides for a maximum general property tax rate statewide of \$1.00 per \$100 of assessed value. Assessed value is calculated at 100% of market value as defined by the above-referenced Article 13. The State Legislature has determined the method of distribution of receipts from the \$1.00 tax levy among the counties, cities, school districts and other districts. Counties, cities and school districts may levy such additional tax rate as is necessary to provide for voter approved debt service. The County of Marin assesses properties and bills for and collects property taxes according to the schedules that follow:

	Secured	Unsecured	
Valuation dates	March 1	March 1	
Lien/levy dates	July 1	July 1	
Due dates	50% on November 1	July 1	
	50% on February 1		
Delinquent as of	December 10 and April 10	August 31	

The term "Unsecured" refers to taxes on personal property other than land and buildings. These taxes are secured by liens on the property being taxed. Property tax revenues are recognized in the fiscal year for which the taxes have been levied.

For The Year Ended June 30, 2023

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and governmental funds balance sheet sometimes reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City has two items that qualify for reporting in this category related to pensions and OPEB as discussed in Notes 8 and 9.

In addition to liabilities, the statement of net position and governmental funds balance sheet report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has deferred inflows of resources related to pensions and OPEB on the statement of net position as discussed in Notes 8 and 9. The City also has deferred inflows related to unavailable grant revenues reported in the governmental fund balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### O. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses/expenditures. Actual results could differ from those estimates.

#### P. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs – other than quoted prices included within level 1 – that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Q. Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

GASB 96 – <u>Subscription-Based Information Technology Arrangements</u>. In May 2020, GASB issued Statement No. 96, <u>Subscription-Based Information Technology Arrangements</u>. The objective of this Statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The Statement is effective for the reporting periods beginning after June 15, 2022, or fiscal year 2022-23. As part of the implementation of this Statement, the City established a threshold for reporting subscriptions with a net present value of \$100,000 and determined than none of its subscriptions were required to be recorded.

#### R. Prior Fiscal Year Summarized Comparative Information

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended June 30, 2022, from which summarized information was derived.

#### NOTE 2 – BUDGETS

#### **Budget Policy**

The City operates under the general laws of the State of California ("State") and annually adopts a budget to be effective July 1 of the ensuing fiscal year. The City adopts an annual budget for General, Special Revenue and Capital Projects Funds, except for the Gas Tax Special Revenue Fund. The legal level of budgetary control has been established at the fund level. Budgets are subject to a public hearing before they are adopted by the City Council. Budgets are prepared on the cash basis and are not materially different from budgets prepared under accounting principles generally accepted in the United States of America.

With the exception of Capital and Equipment budget which are budgeted by project, all annual appropriations lapse at fiscal year-end. Budgets submitted to the City Council include both proposed appropriations and the means of financing them. The City Council approves total appropriations on a fund-by-fund basis.

The City Manager is authorized to transfer budget appropriations within the same fund in conformance with the adopted policies set by the City Council. Additional appropriations or interfund transfers not included in the original budget resolutions require approval by the City Council. Budgeted amounts shown reflect the annual operating budget as originally passed. Encumbrance accounting, a method of recording purchase commitments, is not used by the City.

For The Year Ended June 30, 2023

#### NOTE 3 – CASH AND INVESTMENTS

The City pools cash from all sources and all funds so that it can be invested at the maximum yield consistent with safety and liquidity, while individual funds can make expenditures at any time.

#### A. Policies

California Law requires banks and savings and loan institutions to pledge government securities with market value of 110% of the City's cash on deposit, or first trust deed mortgage notes with a market value of 150% of the deposit, as collateral for these deposits. Under California Law this collateral is held in a separate investment pool by another institution in the City's name and places the City ahead of general creditors of the institution.

The City and its fiscal agents invest in individual investments and in investment pools. Individual investments are evidenced by specific identifiable *securities instruments*, or by an electronic entry registering the owner in the records of the institution issuing the security, called the *book entry* system.

On April 12, 2021, the City Council adopted a resolution approving the adoption of the California Employers' Pension Prefunding Trust (CEPPT) Fund administered by CalPERS. The Trust is an irrevocable trust and qualifies as an Internal Revenue Section 115 trust. This trust will assist the City in mitigating the CalPERS contribution rate volatility. Investments of funds held in Trust are governed by the Investment Guideline Document for the investment account and by the agreement for administrative services with CalPERS, rather than the general provisions of the California Government Code or the City's investment policy. The City elected the CEPPT Strategy 1 option. The assets in the Trust will eventually be used to fund pension plan obligations.

The City's investments are carried at fair value, as required by generally accepted accounting principles. The City adjusts the carrying value of its investments to reflect their fair value at each fiscal year end, and it includes the effects of these adjustments in income for that fiscal year.

#### B. Classification

Cash and investments are classified in the financial statements as shown below, based on whether or not their use is restricted under the terms of debt instruments or agency agreements.

#### **Governmental Activities**

Cash and investments	\$9,332,556
Restricted investments	2,002,481
Total Governmental Activities Cash and Investments	11,335,037
Fiduciary Funds	
Cash and investments	567,847
Total Cash and Investments	\$11,902,884

#### **NOTE 3 – CASH AND INVESTMENTS (Continued)**

#### C. Investments Authorized by the California Government Code and the City's Investment Policy

The City's Investment Policy allows the City to invest in the Local Agency Investment Fund (LAIF), the CalPERS Section 115 California Employers' Pension Prefunding Trust Fund or hold cash on deposit at FDIC insured banks. Investments of reserve funds in other instruments may be considered if recommended by the Finance Committee to the City Manager for action by the City Council and provided that any such investments should only be undertaken if the likelihood of the City needing to deploy these funds in the near term is low.

#### D. Interest Rate Risk

Interest rate risk is the risk that potential future changes in market interest rates will adversely affect the fair market value of an investment. Normally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Information about the sensitivity of the fair values of the investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the investments by maturity or earliest call date:

	12 Months	
Investment Type	or less	Total
California Local Agency Investment Fund	\$9,722,933	\$9,722,933
CalPERS Section 115 CEPPT	2,002,481	2,002,481
Total Investments	\$11,725,414	11,725,414
Cash in banks and on hand		177,470
Total Cash and Investments		\$11,902,884

The City is a participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the authority of the Treasurer of the State of California and is not registered with the Securities and Exchange Commission as an investment company. The City reports its investment in LAIF at the fair value amount provided by LAIF, which is the same as the value of the pool share. The balance is available for withdrawal on demand, and is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, loans to certain state funds, and floating rate securities issued by federal agencies, government-sponsored enterprises, United States Treasury Notes and Bills, and corporations. At June 30, 2023, the average maturity was 260 days.

#### E. Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The California Local Agency Investment Fund and the CalPERS Section 115 CEPPT are not rated.

#### NOTE 3 – CASH AND INVESTMENTS (Continued)

#### F. Cash Deposits with Financial Institutions – Custodial Credit Risk on Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. As of June 30, 2023, the City's bank balance was \$376,369 and \$126,469 of that amount was exposed to custodial credit risk because it was uninsured, however they are collateralized with securities held by the pledging or financial institution's trust department or agent.

#### G. Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The California Local Agency Investment Fund, reported at amortized cost, and the CalPERS Section 115 CEPPT, reported at Net Asset Value, are not subject to the fair value reporting requirements. Fair value is defined as the quoted market value on the last trading day of the period.

For The Year Ended June 30, 2023

### NOTE 4 – INTERFUND TRANSACTIONS

#### A. Current Interfund Balances

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. At June 30, 2023, current interfund balances are as follows:

Fund Making Loan	Fund Receiving Loan	Amount
General Fund	Gas Tax Special Revenue Fund	\$5,282
	Total	\$5,282

#### B. Transfers Between Funds

With Council approval, resources may be transferred from one City fund to another. Transfers In/Out for the year ended June 30, 2023 were as follows:

Fund Making Transfer	Fund Receiving Transfer	Amount	
General Fund	Fire Protection Special Revenue Fund	\$939,186	(A)
	General Capital Improvements Capital Projects Fund	281,862	(A)
	Equipment Replacement Capital Project Fund	108,158	(B)
	2017 Lease Revenue Bonds Debt Service Fund	242,918	(C)
Critical Infrastructure Capital Projects Fund	General Fund	700,000	(D)
Gas Tax Special Revenue Fund	General Capital Improvements Capital Projects Fund	106,112	(E)
	Total	\$2,378,236	

<sup>(</sup>A) To cover fund deficits.

<sup>(</sup>B) To cover computer equipment and police department vehicle purchases.

<sup>(</sup>C) To cover debt service payments.

<sup>(</sup>D) To cover anticipated reserve fund deficit.

<sup>(</sup>E) To fund eligible projects.

#### NOTE 5 – CAPITAL ASSETS

All capital assets are valued at historical cost or estimated cost if actual historical cost is not available. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value.

GASB 34 requires that all capital assets with limited useful lives be depreciated over their estimated useful lives. The purpose of the depreciation is to spread the cost of the capital assets equitably among all users over the life of these assets. The amount charged to depreciation expense each year represents that year's pro-rata share of the cost of the capital assets. Depreciation is provided using the straightline method over its expected useful life.

Governmental capital asset activity for the fiscal year was as follows:

	Balance		Balance
	June 30, 2022	Additions	June 30, 2023
<b>Governmental Activities</b>			
Non-Depreciable Capital Assets:			
Construction-in-progress	\$1,238,639	\$599,405	\$1,838,044
Total capital assets not being depreciated	1,238,639	599,405	1,838,044
Depreciable Capital Assets:			
City Hall & Community Center			
Buildings and building improvements	3,711,959		3,711,959
Corporation yard improvements	282,451		282,451
Office furniture & equipment	298,702	26,945	325,647

Net depreciable assets	6,691,913	69,351	6,761,264
Governmental activities capital assets, net	\$7,930,552	\$668,756	\$8,599,308

### NOTE 5 – CAPITAL ASSETS (Continued)

Construction in progress consisted of the following projects at June 30, 2023:

Project	Amount
Lane Projects	\$67,481
Lagoon Road Repairs	64,724
Playground Renovation	469,527
Undergrounding Projects	160,620
City Hall Renovations	256,361
Seawall	738,276
Miscellaneous Improvements	81,055
Total	\$1,838,044

Depreciation expense for governmental activities was charged to each expense function as follows:

#### **Governmental Activities**

General Government	\$20,494
Police	50,086
Planning & Building	19,343
Public Works	24,473
Community Center (General Government)	19,343
Infrastructure (Public Works)	473,298
Total Governmental Activities	\$607,037

### NOTE 6 – LONG-TERM DEBT

#### A. City Debt

The following is a summary of long-term debt transactions of the governmental activities for the year ended June 30, 2023:

Direct Borrowings	Balance at June 30, 2022	Retirements	Balance at June 30, 2023
2020 Refunding Lease Bonds, due 09/01/31	\$2,034,000	(\$192,000)	\$1,842,000
	\$2,034,000	(\$192,000)	1,842,000
	Amount due within o Amount due in more	•	(195,000) \$1,647,000

#### **NOTE 6 – LONG-TERM DEBT (Continued)**

Debt service requirements are shown below for the bonds:

	Direct Borrowings			
Year ending June 30	Principal	Interest	Total	
2024	\$195,000	\$45,722	\$240,722	
2025	207,000	40,711	247,711	
2026	205,000	35,445	240,445	
2027	207,000	30,166	237,166	
2028	225,000	24,773	249,773	
2029-2032	803,000	41,552	844,552	
Total	\$1,842,000	\$218,369	\$2,060,369	

In August 2017, the City entered into a site and facility lease with the Belvedere Public Financing Authority (Authority) whereby the City leased its corporation yard and adjacent parking lot to the Authority, and the Authority, in turn, leased the property back to the City where the City agreed to make semi-annual lease payments to the Authority. The Authority subsequently assigned the lease to a third party financial institution, that paid the Authority \$2,655,000, which the Authority remitted to the City as an advance rental on the lease agreement, for the City to use to refinance a portion of its unfunded actuarial accrued liability with respect to the City's pension obligations, and to pay for costs related to the preparation, execution and delivery of the lease agreement, site and facility lease and the assignment agreement.

On October 1, 2020, the City entered into the 2020 Refunding Lease Agreement. The proceeds from the 2020 Refunding Lease Bonds (2020 Bonds) of \$2,323,000 were used to refinance the remaining 2017 Lease Revenue Bonds, that were part of the agreement discussed above. As part of the new agreement, the Authority assigned certain of its rights under the Site Lease and Lease Agreement, including the right to receive and enforce payment of the Lease Payments, to Capital One Public Funding, LLC. The 2020 Bonds bear interest at 2.55% per annum, and principal and interest payments are due semi-annually on March 1 and September 1 through September 1, 2031. The lease payments are payable from general funds of the City.

#### B. Local Improvement District Debt with no City Commitment

Local Improvement Districts (LID's) are established in various parts of the City to provide improvements to properties located in those districts. Properties in these districts are assessed for the cost of improvements; these assessments are payable over the term of the debt issued to finance the improvements and must be sufficient to repay this debt. The City acts solely as the collecting and paying agent for the Districts' debt which is not included in the general debt of the City.

#### **NOTE 6 – LONG-TERM DEBT (Continued)**

The following table summarizes the outstanding balance of the LID debt with no City commitment:

	Balance at June 30, 2022	Retirements	Balance at June 30, 2023	Due Within One Year	Due in More Than One Year
2016 Revenue Bonds,	Φ <b>7.</b> 2.65, 0.00	(#205.000)	<b>#</b> C 000 000	<b>#</b> 40 <b>#</b> 000	DC 477 000
due serially to 2043	\$7,265,000	(\$385,000)	\$6,880,000	\$405,000	\$6,475,000
2018 Revenue Bonds,		(50.000)		ć <b></b> .	
due serially to 2048	2,580,000	(60,000)	2,520,000	65,000	2,455,000
2019 Revenue Bonds,					
due serially to 2050	635,000	(15,000)	620,000	15,000	605,000
	\$10,480,000	(\$460,000)	\$10,020,000	\$485,000	\$9,535,000

**2016 Underground Assessment District – 2016 Revenue Bonds:** In August 2016, the City's seven utility undergrounding assessment districts (Upper Beach Road; Madrona, Bella Vista and Oak; San Rafael; Lower Belvedere; Bayview/Bella Vista Avenues; Mid San Rafael Avenue; and Pine Avenue) were consolidated and refinanced with lower interest rates in order to reduce payments for participating property owners. This District was formed to finance certain public improvements, including the relocation of utility services (electricity, telephone and cable television) to underground locations and the elimination of all existing utility poles and overhead wires in the same area.

The Belvedere Public Financing Authority Revenue Bonds, 2016 Consolidated Utility Undergrounding Reassessment and Refunding District, were issued in the amount of \$9,475,000, representing the unpaid assessments from the outstanding limited obligation bonds from the seven previous underground assessment districts of \$9,011,209, plus fees pursuant to the provisions of the Refunding Act of 1984 for 1915 Improvement Act Bonds. The revenue bonds bear annual interest ranging from 0.75% to 3.05%, and are due semi-annually commencing March 2, 2017. Principal payments are due annually on September 2 until they mature on September 2, 2034.

**2018** Acacia/Laurel Utility Undergrounding Assessment District – 2018 Revenue Bonds: This District was formed to finance certain public improvements, including the relocation of utility services (electricity, telephone and cable television) to underground locations and the elimination of all existing utility poles and overhead wires in the same area. The Belvedere Public Financing Authority Revenue Bonds, 2018 Acacia/Laurel Utility Undergrounding Assessment District, were issued in the amount of \$2,810,000. Concurrently, the City issued one series of assessment bonds for the Acacia/Laurel Utility Undergrounding Assessment District in the amount of \$2,673,056.80 pursuant to the Municipal Improvement Act of 1913. The assessment bonds were purchased by the Public Financing Authority, and secure and provide the stream of revenues to pay debt service on the Revenue Bonds. The assessment bonds are payable from the unpaid assessments levied and collected within the assessment district. The revenue bonds bear annual interest ranging from 2.10% to 4.30%, and are due semi-annually commencing March 2, 2019. Principal payments are due annually on September 2 until they mature on September 2, 2048.

For The Year Ended June 30, 2023

#### NOTE 6 – LONG-TERM DEBT (Continued)

#### 2019 Golden Gate/Belvedere Utility Undergrounding Assessment District – 2019 Revenue Bonds:

This District was formed to finance certain public improvements, including the relocation of utility services (electricity, telephone and cable television) to underground locations and the elimination of all existing utility poles and overhead wires in the same area. The Belvedere Public Financing Authority Revenue Bonds, 2019 Golden Gate/Belvedere Utility Undergrounding Assessment District, were issued in the amount of \$665,000. The assessment bonds were purchased by the Public Financing Authority, and secure and provide the stream of revenues to pay debt service on the Revenue Bonds. The assessment bonds are payable from the unpaid assessments levied and collected within the assessment district. The revenue bonds bear annual interest ranging from 2.65% to 5.00%, and are due semi-annually commencing March 2, 2020. Principal payments are due annually on September 2 until they mature on September 2, 2049.

#### NOTE 7 – NET POSITION AND FUND BALANCES

Governmental fund balances represent the net current assets of each fund. Net current assets generally represent a fund's cash and receivables, less its liabilities.

Net Position is measured on the full accrual basis while Fund Balance is measured on the modified accrual basis, as explained in Note 1.

#### A. Net Position

Government-Wide Net Position consists of the following:

<u>Net investment in capital assets</u> – This amount consists of capital assets, net of accumulated depreciation and reduced by outstanding debt that was attributed to the acquisition, construction or improvement of the assets.

<u>Restricted net position</u> – This amount is restricted by external creditors, grantors, contributors or laws or regulations of other governments.

<u>Unrestricted net position</u> – This amount consists of net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

#### B. Fund Balances

The City has adopted the provisions of GASB Statement No. 54, *Fund Balance and Governmental Fund Type Definitions*. GASB 54 establishes Fund Balance classifications based largely upon the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The Governmental Fund statements conform to this new classification.

The Fund Financial Statements consist of Nonspendable, Restricted, Committed, Assigned and Unassigned amounts as described below:

Nonspendable: Items that cannot be spent because they are not in spendable form, such as prepaid items, or items that are legally or contractually required to be maintained intact, such as principal of an endowment or revolving loan fund.

For The Year Ended June 30, 2023

#### NOTE 7 – NET POSITION AND FUND BALANCES (Continued)

<u>Restricted</u>: Restricted fund balances encompass the portion of net fund resources subject to externally enforceable legal restrictions. This includes externally imposed restrictions by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments, as well as restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Committed:</u> Committed fund balances encompass the portion of net fund resources, the use of which is constrained by limitations that the government imposes upon itself at its highest level of decision making (normally the governing body) and that remain binding unless removed in the same manner. The City Council is considered the highest authority for the City and can commit funds through resolutions.

<u>Assigned:</u> Assigned fund balances encompass the portion of net fund resources reflecting the government's intended use of resources. Assignment of resources can be done by the highest level of decision making or by a committee or official designated for that purpose. The City Council has the authority to assign funds in Belvedere and can assign funds through the budgetary process.

<u>Unassigned:</u> This category is for any balances that have no restrictions placed upon them. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

#### C. Governmental Fund Type Definitions

General Fund: The general fund is be used to account for and report all financial resources not accounted for and reported in another fund.

<u>Special Revenue</u>: Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues is the foundation for a special revenue fund. The description of each major special revenue fund is discussed in *Note 1 - Summary of significant accounting policies*.

<u>Capital Projects Fund:</u> Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

For The Year Ended June 30, 2023

#### NOTE 7 – NET POSITION AND FUND BALANCES (Continued)

#### D. Spending Policy

The City's policy is to spend restricted fund balances first, before spending unrestricted fund balances, for expenditures incurred for purposes for which both restricted and unrestricted fund balances are available. The City does not have a formal policy for its use of unrestricted fund balance amounts. The City will reduce committed amounts first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used. The City typically uses unassigned general funds to liquidate the liability for compensated absences and to liquidate the net pension liability or net postemployment benefit obligation when necessary.

#### E. Investment Earnings

Investment earnings follow the classification of the revenues invested.

#### F. Minimum Fund Balance Policy

The Council has established a policy to maintain a General Fund Reserve equal to half of the projected fiscal year's General Fund expenditures, plus one half of the General Fund transfer to the Fire Protection Fund, plus one half of the annual debt service payments. The projected expenditures from the 2<sup>nd</sup> year of the 5-year budget are used for this calculation. Transfers to the City's 115 Pension Trust and/or any additional discretionary payments made to CalPERS will not be included in this calculation because they are discretionary in nature. At June 30, 2023, the amount in reserve is \$3.95 million, which complies with this policy.

#### G. Fund Balance Classifications

Fund balances classifications at June 30, 2023 were:

	General		Other	
o circi ur	Capital	Critical	Governmental	
Fund	Improvements	Infrastructure	Funds	Total
\$17,761				\$17,761

For The Year Ended June 30, 2023

#### NOTE 8 – PENSION PLANS

#### A. Plan Descriptions and Summary of Balances by Plan

**Plan Descriptions** – The City has three defined benefit pension plans, a Miscellaneous Plan, a Safety (Police) Plan, and a Retirement Enhancement Plan (REP). The Miscellaneous Plan and the Safety Plan are Cost-Sharing Multiple Employer Plans administered by the California Public Employees' Retirement System (CalPERS). The Retirement Enhancement Plan is an Agent-Multiple Employer Plan administered by the Public Agency Retirement System (PARS). Benefit provisions under the Plans are established by State statute and City Ordinance. The PARS Plan is closed to new participants.

CalPERS Plans - All qualified employees are eligible to participate in the City's following cost-sharing multiple employer defined benefit pension plans ("Plans"):

- City Miscellaneous (Classic) Plan
- City Miscellaneous (PEPRA) Plan
- City Safety (Classic) Plan
- City Safety (PEPRA) Plan

The Plans are administered by the California Public Employees' Retirement System ("CalPERS"). Benefit provisions under the Plans are established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

PARS Retirement Enhancement Plan ("REP") – This plan was implemented July 1, 2003 and closed to new participants hired after January 1, 2012. This plan is separate from CalPERS and is established as a 401(a) Defined Benefit Plan. The REP is administered by PARS, and is an Agent-Multiple Employer Plan.

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Miscellaneous and Safety Plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office or PARS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Below is a summary of the deferred outflows of resources, net pension liabilities and deferred inflows of resources by Plan:

Plan	Deferred Outflows of Resources	Net Pension Liability (Asset)/Proportionate Share of Net Pension Liability	Deferred Inflows of Resources
1 lali	Resources	Liability	Resources
CalPERS Plans:			
Miscellaneous	\$2,153,823	\$1,463,854	\$747,854
Safety - Police	1,503,976	1,115,454	735,863
PARS Retirement Enhancement Plan	52,670	184,224	
	\$3,710,469	\$2,763,532	\$1,483,717

#### **NOTE 8 – PENSION PLANS (Continued)**

Pension liabilities are liquidated by the funds that have recorded the liability. The long-term portion of the governmental activities pension liabilities are liquidated primarily by the General Fund. For the year ended June 30, 2023, the City recognized pension expense of \$3,638,380 including amounts contributed to the CalPERS and PARS REP plans.

Each Plan is discussed in detail below.

#### B. CalPERS Plans (Miscellaneous and Safety)

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

**Funding Policy** – Active plan members in the Plan are required to contribute 6.75% or 7% of their covered salary for the miscellaneous plans and 11.5% or 9% for public safety members. The City is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The contribution requirements of plan members are established by State statute and the employer contribution is established and may be amended by CalPERS.

#### NOTE 8 – PENSION PLANS (Continued)

The Plans' provisions and benefits in effect at June 30, 2023, are summarized as follows:

	Miscellaneous	
	Classic (A)	PEPRA

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2023, the contributions recognized as part of pension expense for each Plan were as follows:

Employer
Contributions
\$145,667
108,261
\$253,928

#### NOTE 8 – PENSION PLANS (Continued)

Beginning in fiscal year 2016, CalPERS collects employer contributions for the Plan as a percentage of payroll for the normal cost portion as noted in the rates above and as a dollar amount for contributions toward the unfunded liability (UAL). The dollar amounts are billed on a monthly basis. The City's required contributions for the unfunded liability in the Miscellaneous and Safety Plans were \$87,287 and \$69,365, respectively.

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions - As of June 30, 2023, the City reported net pension liabilities for its proportionate shares of the net pension liability of each Plan as follows:

	Proportionate Share
	of Net Pension Liability
Miscellaneous	\$1,463,854
Safety	1,115,454
Total Net Pension Liability	\$2,579,308

The City's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2022, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability for each Plan as of June 30, 2021 and 2022 were as follows:

	Miscellaneous
Proportion - June 30, 2021	-0.05970%
Proportion - June 30, 2022	0.03128%
Change - Increase (Decrease)	0.09098%
	Safety
Proportion - June 30, 2021	-0.02337%
Proportion - June 30, 2022	0.01623%
Change - Increase (Decrease)	0.03960%

### NOTE 8 – PENSION PLANS (Continued)

At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to the Miscellaneous Plan from the following sources:

	Miscellaneous	
	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Pension contributions subsequent to measurement date	\$145,667	
Differences between actual and expected experience	29,397	(\$19,689)
Changes of assumptions	150,002	
Net differences between projected and actual earnings on plan investments Net difference in actual contribution and proportion contributions	268,139	(729.1(5)
Adjustment due to differences in proportions	1,560,618	(728,165)
Adjustment due to differences in proportions	1,300,010	
Total	\$2,153,823	(\$747,854)

\$145,667 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended	Annual
June 30	Amortization
2024	\$396,112
2025	423,664
2026	276,523
2027	164,003
Total	\$1,260,302

At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to the Safety Plan from the following sources:

	Safety	
	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Pension contributions subsequent to measurement date	\$108,261	
Differences between actual and expected experience	46,165	(\$12,113)
Changes of assumptions	112,472	
Net differences between projected and actual earnings on plan investments	176,146	
Net difference in actual contribution and proportion contributions		(723,750)
Adjustment due to differences in proportions	1,060,932	
Total	\$1,503,976	(\$735,863)

For The Year Ended June 30, 2023

#### NOTE 8 – PENSION PLANS (Continued)

Post Retirement Benefit Increase

\$108,261 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended	Annual
June 30	Amortization
2024	\$194,541
2025	218,493
2026	139,365
2027	107,453
Total	\$659,852

**Actuarial Assumptions** – For the measurement period ended June 30, 2022, the total pension liability was determined by rolling forward the June 30, 2021 total pension liabilities. The June 30, 2021 total pension liabilities were based on the following actuarial methods and assumptions for all benefit tiers:

	CalPERS
Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
	Entry-Age Normal Cost in accordance with the requirements of
Actuarial Cost Method	GASB Statement No.68
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.50%
Payroll Growth	3.00%
Projected Salary Increase	Varies by Entry Age and Service
Mortality	Derived using CalPERS Membership Data for all Funds (1)
	Contract COLA up to 2.50% until Purchasing Power Protection

Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on purchasing power applies.

(1) The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021 that can be found on the CalPERS website.

**Discount Rate** – The discount rate used to measure the total pension liability for the Plan was 6.90%. The projection of cash flows used to determine the discount rate for the Plan assumed that contributions from all plan members in the Public Employees Retirement Fund (PERF) will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### NOTE 8 – PENSION PLANS (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected rate of returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund (Public Employees' Retirement Fund) cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 basis points.

The expected real rate of return by asset class are as follows:

Asset Class (a)	Assumed Asset Allocation	Real Return Years 1 - 10(b)	Real Return Years 11+(c)
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%		-0.92%
Total	100%		

- (a) In the CalPERS ACFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.
- (b) An expected inflation of 2.0% used for this period.
- (c) An expected inflation of 2.92% used for this period.

### NOTE 8 – PENSION PLANS (Continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net pension liability for each Plan, calculated using the discount rate 6.90%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

_	Miscellaneous	Safety	Total
1% Decrease	5.90%	5.90%	5.90%
Net Pension Liability (Asset)	\$3,576,449	\$2,646,973	\$6,223,422
Current Discount Rate	6.90%	6.90%	6.90%
Net Pension Liability (Asset)	\$1,463,854	\$1,115,454	\$2,579,308
1% Increase	7.90%	7.90%	7.90%
Net Pension Liability (Asset)	(\$274,288)	(\$136,216)	(\$410,504)

**Pension Plan Fiduciary Net Position** – Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Reduction of CalPERS Discount Rate - On July 12, 2021, CalPERS reported a preliminary 21.3% net return on investments for fiscal year 2020-21. Based on the thresholds specified in CalPERS Funding Risk Mitigation policy approved by the CalPERS Board in 2015, the excess return of 14.3% prescribes a reduction in investment volatility that corresponds to a reduction in the discount rate used for funding purposes of 0.20%, from 7.00% to 6.80%. Since CalPERS was in the final stages of the four-year Asset Liability Management (ALM) cycle, the CalPERS Board elected to defer any changes to the asset allocation until the ALM process concluded, and the board could make its final decision on the asset allocation in November 2021.

On November 17, 2021, the board adopted a new strategic asset allocation. The new asset allocation along with the new capital market assumptions, economic assumptions and administrative expense assumption support a discount rate of 6.90% (net of investment expense, but without a reduction for administrative expense) for financial reporting purposes. This includes a reduction in the price inflation assumption from 2.50% to 2.30% as recommended in the November 2021 CalPERS Experience Study and Review of Actuarial Assumptions. This study also recommended modifications to retirement rates, termination rates, mortality rates and rates of salary increases that were adopted by the CalPERS Board. These new assumptions will be reflected in the CalPERS GASB 68 accounting valuation reports for the June 30, 2022, measurement date.

### C. PARS Retirement Enhancement Plan (REP)

Benefits Provided – Effective July 1, 2003, the City contracted with the Public Agency Retirement System (PARS) to sponsor a supplemental Retirement Enhancement Plan created in accordance with IRC Section 401(a), which is a qualified defined benefit pension plan covering all eligible employees of the City. The Retirement Enhancement Plan is an Agent-Multiple Employer Plan administered by the PARS. Eligibility for the benefit is defined as reaching age 55, completing fifteen years of full-time City service, and retiring concurrently from both the City and CalPERS after leaving City employment. The Plan was closed to new participants effective January 1, 2012. The REP provides a benefit equal to 0.5% of final average compensation for all service while employed at the City of Belvedere.

## CITY OF BELVEDERE, CALIFORNIA NOTES TO BASIC FINANCIAL STATEMENTS

For The Year Ended June 30, 2023

### NOTE 8 – PENSION PLANS (Continued)

**Contributions** – The City makes all contributions necessary to fund the benefits available under the REP. Employees are not permitted to make any contributions. Contributions during the fiscal year ended June 30, 2023 totaled \$25,430.

**Net Pension Liability** – The City's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2023 using an annual actuarial valuation. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

**Actuarial Assumptions** – For the measurement period ended June 30, 2023, the total pension liability was determined using an actuarial valuation as of June 30, 2022. The June 30, 2023 total pension liability was based on the following actuarial methods and assumptions:

	PARS REP
Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	6.50%
Inflation	2.30%
Payroll Growth	2.80%
Cost of Living Adjustments	2.00%
Projected Salary Increase	Consistent with the rates used to value Miscellaneous Public Agency CalPERS Pension Plans for employees with an entry age of 30 years.
Mortality	Pre-Retirement: Consistent with the Non-Industrial rates used to value the Miscellaneous Public Agency CalPERS Pension Plans after June 30, 2021.
	Post-Retirement: Consistent with the Non-Industrial rates used to value the Miscellaneous Public Agency CalPERS Pension Plans after June 30, 2021.
Post Retirement Benefit Increase	Tier I: The retirement rates are consistent with those used to value the Miscellaneous Public Agency CalPERS Pension Plans "2.5% at age 55." The rates used are those for retirees with 20 years of service.
	Tier II: The retirement rates are consistent with those used to value the Safety (Police) Public Agency CalPERS Pension Plans "3.0% at age 50." The rates used are those for retirees with 25 years of service.

### NOTE 8 – PENSION PLANS (Continued)

**Discount Rate** - The discount rate used to measure the total pension liability for the Plan was 6.50%. The Plan's long-term expected rate of return was determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation based upon the investment of all assets in PARS' diversified Moderately Conservative portfolio.

*Changes in the Net Pension Liability* - The changes in the Net Pension Liability for the Plan as of the June 30, 2023 Measurement Date follows:

Increase (Decrease)		
Total	Plan	Net Pension
Pension	Fiduciary	Liability
Liability	Net Position	Liability
\$871,510	\$737,398	\$134,112
6,624		6,624

Emerging Markets Equity	4.34%	9.58%	6.18%
US REITs	1.72%	6.96%	4.74%
Total	100%		

**Deferred Outflows/Inflows of Resources Related to Pensions** – At June 30, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for the Plan from the following sources:

	PARS	S REP
	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Differences between actual and expected experience	\$5,514	
Changes in assumptions	805	
Net differences between projected and actual earnings on plan investments	46,351	
Total	\$52,670	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended	Annual
June 30	Amortization
2024	\$17,417
2025	5,327
2026	32,588
2027	(2,662)
Total	\$52,670

### NOTE 8 – PENSION PLANS (Continued)

### D. Section 115 Pension Trust Fund

In April 2021, the City established a Section 115 irrevocable trust with the California Employers' Pension Prefunding Trust 41(CEPPT) fund. The Council approved an initial deposit of \$1.5 million in level payments over a 15-month period in General Fund proceeds into the Strategy 1 sub-account of the City's CEPPT account. The Trust Account allows more control and flexibility in investment allocations compared to the City's portfolio, which is restricted by State regulations to fixed income instruments. Beginning July 1, 2021, the City will proactively contribute to the Section 115 irrevocable trust amounts reflective of what retirement costs would be if the normal cost of contributions were budgeted at a 6.0% discount rate. During the fiscal year ended June 30, 2023, the City contributed \$300,000 to the CEPPT account. As of June 30, 2023, the City reported the account balance of \$2,002,481 as restricted investments in the General Fund.

For The Year Ended June 30, 2023

### NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

### A. General Information about the City's Other Post Employment Benefit (OPEB) Plan

Plan Description - The City's Post Employment Benefit Plan is a single-employer plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board Statement No. 75.

Benefits Provided - The following is a summary of Plan benefits by employee group as of June 30, 2023:

	Miscellaneous	Safety	City Manager
Eligibility:			
Age & Service Retirement	50 & 5 years CalPERS service	50 & 5 years CalPERS service	50 & 5 years CalPERS service; City Manager employees only
Industrial Disability Retirement	Yes	Yes	Yes
Duty Death	Yes	Yes	Yes
Health Benefit Plan:			
Employee only	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Amount not to exceed 60% of Kaiser Basic rate for 2-party coverage
Employee + one dependent	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Amount not to exceed 60% of Kaiser Basic rate for 2-party coverage
Employee + two or more dependents	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Amount not to exceed 60% of Kaiser Basic rate for 2-party coverage
Surviving Spouse of Retiree	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Premium for Kaiser Permanente or Public Employee's Medical Hospital Care Act (PEMHCA) minimum only	Amount not to exceed 60% of Kaiser Basic rate for 2-party coverage

Note: PEMHCA Minimum Rate: \$149/month as of 2022 and \$151/month as of 2023 Kaiser 2-party rate: up to \$907.59/month as of 2022 and \$849.75/month as of 2023

## CITY OF BELVEDERE, CALIFORNIA NOTES TO BASIC FINANCIAL STATEMENTS

For The Year Ended June 30, 2023

### NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

*Employees Covered by Benefit Terms* – Membership in the plan consisted of the following at the measurement date of June 30, 2022:

	Count
Inactive employees currently receiving benefits	14
Inactive employees entitled to benefit payments	9
Active employees	18
Total	41

### B. Total OPEB Liability

Actuarial Methods and Assumptions – The City's total OPEB liability was measured as of June 30, 2022, and the total OPEB liability was determined by an actuarial valuation dated June 30, 2021, to determine the \$1,396,048 total OPEB liability as of June 30, 2023, based on the following actuarial methods and assumptions:

Actuarial Assumptions:	Miscellaneous
Actuarial Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	3.54%
Inflation Rate	2.50%
Payroll Growth	2.75%
Mortality, Retirement, Disability &	
Termination Rate	CalPERS 2000-2019 Experience Study
Mortality Improvement	
	Mortality projected fully generational with Scale MP-2021
	Non-Medicare: 6.50% for 2023, decreasing to an ultimate rate of
	3.75% in 2076
Healthcare Cost Trend Rate	Medicare (Non-Kaiser): 5.65% for 2023, decreasing to an ultimate rate of 3.75% in 2076
	Medicare (Kaiser): 4.60% for 2023, decreasing to an ultimate rate
	of 3.75% in 2076
PEMHCA Minimum Increase	4% annually after 2021

The discount rate was based on the Bond Buyer 20 Index.

The underlying mortality assumptions were based on the CalPERS 2000-2019 Experience Study and all other actuarial assumptions used in the June 30, 2021, valuation were based on the results of a June 30, 2021 actuarial experience study for the period July 1, 2021 to June 30, 2022.

For The Year Ended June 30, 2023

### NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

### C. Changes in Total OPEB Liability

The changes in the total OPEB liability follows:

	Increase (Decrease) Total OPEB Liability
Balance at June 30, 2022	\$1,614,197
Changes for the year:	
Service Cost	78,962
Interest on the Total OPEB Liability	35,805
Assumption changes	(261,807)
Benefit payments	(71,109)
Net changes	(218,149)
Balance at June 30, 2023	\$1,396,048

The long-term portion of the Governmental Activities Net OPEB Liability is liquidated primarily by the General Fund.

## D. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rates

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.54%) or 1-percentage-point higher (4.54%) than the current discount rate:

1% Decrease	2.54%
Net OPEB Liability	\$1,577,967
Current Discount Rate	3.54%
Net OPEB Liability	\$1,396,048
1% Increase	4.54%
Net OPEB Liability	\$1,247,455

## CITY OF BELVEDERE, CALIFORNIA NOTES TO BASIC FINANCIAL STATEMENTS

For The Year Ended June 30, 2023

### NOTE 9 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (7.0%) or 1-percentage-point higher (9%) than the current healthcare cost trend rates:

1% Decrease	7.00%
Net OPEB Liability	\$1,225,905
Trend Rate	8.00%
Net OPEBLiability	\$1,396,048
·	
1% Increase	9.00%
Net OPEB Liability	\$1,605,488

### E. OPEB Expenses and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2023, the City recognized OPEB expense of \$25,906. At June 30, 2023, the City reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Differences between expected and actual		
experience	\$39,819	\$4,210
Changes of assumptions	94,331	265,623
Employer contributions made subsequent to the		
measurement date	77,784	
Total	\$211,934	\$269,833

\$77,784 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as part of OPEB expense as follows:

Fiscal Year Ended	Annual
June 30	Amorization
2024	(\$6,909)
2025	(28,972)
2026	(60,811)
2027	(38,991)
Total	(\$135,683)

## CITY OF BELVEDERE, CALIFORNIA NOTES TO BASIC FINANCIAL STATEMENTS

For The Year Ended June 30, 2023

### NOTE 10 – JOINT VENTURES AND POOLS

The City is involved in multiple joint ventures and pools. The following are cited as they are entities for which the City has a material ongoing financial interest and/or material ongoing financial responsibilities.

### A. Belvedere Parking Authority and Belvedere Public Financing Authority

The Belvedere Parking Authority ("Parking Authority") was established in May 2016 for the purpose of being the second entity in a joint powers authority with the City to establish a financing authority.

The Belvedere Public Financing Authority (the "Financing Authority") was established in May 2016 as a joint powers authority between the City and the Financing Authority. The Financing Authority was established to execute refunding agreements for the outstanding limited obligation bonds of the underground assessment districts, fund the reserve fund, pay for the costs of issuance, and pay debt service payments.

### B. Belvedere-Tiburon Library Agency

The Belvedere-Tiburon Library Agency (the "Agency") was established in May 1995 to construct, own, operate, and maintain a new public library, servicing the residents of Belvedere and Tiburon. Each member of the Agency has three (3) representatives on the Library Board which governs the management and financing of its activities and an at large member appointed by the Reed School District. Participating agencies at June 30, 2020 were the Town of Tiburon and the City of Belvedere. The City receives tax receipts, relating to the Belvedere-Tiburon Library, from the County of Marin. The City disburses all of those receipts to the Library (\$974,094 for fiscal 2023), which utilizes the funds for ordinary operations. The financial results of the Agency are not included in the accompanying financial statements because the City does not have oversight authority.

Financial statements for the Belvedere-Tiburon Library Agency can be obtained at 1501 Tiburon Blvd., Tiburon, CA 94920.

### C. Belvedere-Tiburon Joint Recreation Committee

The Belvedere-Tiburon Joint Recreation Committee (the Committee, commonly referred to as "The Ranch") was formed under a joint powers agreement between the City of Belvedere and the Town of Tiburon. The Town Council of the Town of Tiburon and City Council of the City of Belvedere each select and appoint three citizens and one Council Member to serve on The Ranch Board. The ninth member is designated an 'at-large' member and to the extent possible is appointed by the Reed Union School District. The purpose of the Committee is to formulate, administer and operate recreation and education programs and facilities for the residents of the Tiburon Peninsula. The Committee operates as a special district, a legal entity separate and distinct from the City of Belvedere. The Committee does not receive any ongoing funding from the City, however, the Committee does use City facilities for many of its recreational programs.

Financial statements for the Belvedere-Tiburon Joint Recreation Committee can be obtained at 600 Neds Way, Tiburon, CA 94920.

### NOTE 10 – JOINT VENTURES AND POOLS (Continued)

### D. California Intergovernmental Risk Authority (CIRA)

The City of Belvedere is a member of the California Intergovernmental Risk Authority (CIRA), formerly known as the Public Agency Risk Sharing Authority of California (PARSAC), for liability and workers' compensation risk coverage. Property insurance is covered through CIRA's partner agency, Public Risk Innovation Solutions, and Management (PRISM). CIRA is a statewide joint powers authority providing risk sharing services to California public entities that provide a municipal service. CIRA is governed by a Board of Directors and member agencies are entitled to representation on the board. Upon termination of the joint powers authority agreements, all property of CIRA would be returned to the respective parties that transferred the property to CIRA and any surplus of funds and assets would be returned to the parties in proportion to actual balances of each entity. Complete financial information for CIRA is available at 1525 Response Road, Sacramento, CA 95815.

Coverage Type	Deductible	Coverage Limits
General & Auto Liability	\$25,000	\$40,000,000
Employment Practices Liability	25,000	40,000,000
Workers' Compensation	100,000	Statutory Limits
Pollution Insurance	250,000	10,000,000
Property Insurance	10,000	600,000,000
Employee Dishonesty	2,500	1,000,000
Forgery & Alteration	2,500	1,000,000
Theft, Disappearance, Destruction	2,500	1,000,000
Robbery & Safe Burglary	2,500	1,000,000
Computer Fraud	2,500	1,000,000
Money Orders and Counterfeit Paper Currency	2,500	1,000,000
Deadly Weapons Response	10,000	500,000

Liabilities of the City are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). There were no material unpaid and uninsured claims outstanding at the beginning or end of the last two fiscal years.

Amounts of settlements did not exceed insurance coverage for the last three years.

### E. Richardson Bay Regional Agency (RBRA)

The Richardson Bay Regional Agency ("RBRA") was formed under a joint powers agreement between the County of Marin and the Cities of Belvedere, Mill Valley, Sausalito and Tiburon. The governing body of RBRA consists of five members, one appointee from each member entity. The purpose of the RBRA is to perform mutual exercise of certain functions within the waters of Richardson Bay to the benefit of all parties. The City contributes 7.5% of the operating costs of the RBRA each year.

Financial statements for the Richardson Bay Regional Agency can be obtained at 3501 Civic Center Drive, Room 308, San Rafael, CA 94903.

### NOTE 10 – JOINT VENTURES AND POOLS (Continued)

### F. Marin Emergency Radio Authority (MERA)

The City participates in a joint powers agreement through the Marin Emergency Radio Authority ("MERA") under an operating agreement dated February 1, 1999. MERA was created July 1, 1997 by an agreement between certain public agencies in Marin County to provide a public safety radio system to its members. The members have agreed to assign a portion of their property tax revenues and make annual payments, on a pro rata basis, to cover the costs of debt financing and operating the system.

### G. County of Marin

The City along with certain other cities entered into joint venture and pooling contracts with the County of Marin to provide dispatch services and a 911 public safety answering point for member cities.

Financial information on the joint ventures and pools can be obtained from the City at:

450 San Rafael Avenue Belvedere, California 94920

### NOTE 11 - COMMITMENTS AND CONTINGENCIES

The City is subject to litigation arising in the normal course of business. In the opinion of the City's attorney, there is no pending litigation which is likely to have a material adverse effect on the financial position of the City.

## CITY OF BELVEDERE, CALIFORNIA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

### **NOTE 1 - Budgets and Budgetary Accounting**

The City operates under the general laws of the State of California ("State") and annually adopts a budget to be effective July 1 of the ensuing fiscal year. The City adopts an annual budget for General, Special Revenue and Capital Projects Funds, except for the Gas Tax Special Revenue Fund. The legal level of budgetary control has been established at the fund level. Budgets are subject to a public hearing before they are adopted by the City Council. Budgets are prepared on the cash basis and are not materially different from budgets prepared under accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule – General Fund does not include other funds combined with the General Fund for financial statement purposes. Budgetary comparison schedules for these funds have been included with the nonmajor budgetary comparison schedules as appropriate.

All annual appropriations lapse at fiscal year-end. Budgets submitted to the City Council include both proposed appropriations and the means of financing them. The City Council approves total appropriations on a fund-by-fund basis.

The City Manager is authorized to transfer budget appropriations within the same fund in conformance with the adopted policies set by the City Council. Additional appropriations or interfund transfers not included in the original budget resolutions require approval by the City Council. Budgeted amounts shown reflect the annual operating budget as originally passed and include an additional appropriation for equipment replacement made in mid-year. Encumbrance accounting, a method of recording purchase commitments, is not used by the City.

#### Notes to Schedule Contributions

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Entry-Age Normal Cost in accordance with the requirements of

GASB Statement No. 68

Actual Assumptions:

 Discount Rate
 7.15%

 Inflation
 2.50%

 Payroll Growth
 3.00%

 Investment Rate of Return
 7.15% (1)

Mortality Derived using CalPERS Membership Data for all Funds (2)

- (1) Net of pension plan investment expenses, including inflation
- (2) The mortality table used was developed based on CalPERS' specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions Report from November 2021 that can be found on the CalPERS website.

<sup>\*</sup> Fiscal year 2015 was the first year of implementation, therefore only nine years are shown.

### STATISTICAL SECTION

This part of the City's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. In contrast to the financial section, the statistical section information is not subject to independent audit.

#### Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and wellbeing have changed over time.

### Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.

### **Debt Capacity**

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

### Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.

### **Operating Information**

These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

### Sources

Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

1.) Total Direct Tax Rate is represented by TRA 001-000.

2.) Estimated Actual Value is derived from a series of calculations comparing median assessed values from 1940 to current median sale prices. Based on these calculations a multiplier value was extrapolated and applied to current assessed values.

TOTAL DIDLOT DEPT			01.042.000	
TOTAL DIRECT DEBT			\$1,842,000	
TOTAL OVERLAPPING DEBT			\$57,180,823	
COMBINED TOTAL DEBT			\$59,022,823	(2)

- (1) The percentage of overlapping debt applicable to the city is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the city divided by the district's total taxable assessed value.
- (2) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and non-bonded capital lease obligations.

## Ratios to Assessed Valuation:

TERRITOR TO TERREDO TO TERREDO TO	
Total Overlapping Tax and Assessment Debt	1.83%
Total Direct Debt (\$1,842,000)	0.06%
