Weekly Q&A:

Q: Is there a plan for the burnt-out cars around town?

A: Cars that have been burned on private property should be removed with the structural debris. There are several hundred properties that opted to utilize the private debris removal program that still have not been cleared yet, the deadline for those properties to be cleared is February 2020. For cars on public rights of way, most have been removed by CHP. If there are still cars on public right of way in the Town of Paradise, please notify our Code Enforcement Officer at (530) 872-6291 ext. 124.

Q: If there are hazardous trees on an adjacent property to mine and the property owners aren't living there how do I take care of them to protect my property?

A: Trees on adjacent or neighboring properties must be addressed by the property owner. The property owner is responsible for submitting an ROE or enrolling in the private program for tree removal. The Town of Paradise and Butte County have sent letters out to eligible property owners to notify them that they need to enroll in the program. For more information on the tree program, visit <https://buttecountyrecovers.org/private-property-tree-removal/>.
