

JOB AVAILABLE IN CARNATION WA!

Carnation seeks a Community Economic Development (CED) Technician to process permits related to exciting residential and commercial development in this gem of the Snoqualmie Valley.

Class Title: Community Economic Development Technician (CED)

Union: Teamsters Local 763

Location: Carnation City Hall

Pay Range: \$31.08-\$39.32 DOE

Impact: To ensure effective communication with customers and completion of projects. Securing 100% of cost recovery revenues.

General Purpose:

As part of the Community Economic Development team, this position will perform varied technical and complex administrative tasks in the building and land use development permitting process, event permitting, business licenses, and other community development complex operations.

Responsibilities include coordination and assistance in the preparation, routing, and issuance of building and land use development permits, coordination of cemetery operations, and issuance of licenses and permits. This position will perform program support, general and administrative tasks, customer service/front counter support and other administrative operations that require some level of professional discretion.

Job Responsibilities

PERMITTING

- Understand and assist in all aspects of Building, Fire, Planning, Land Use and Public Works permitting and administrative processes.
- Support CED staff scheduling meetings, permit reviews, pre-app, and all other relevant encounters.
- Issue permits when the review process is completed, verifying completeness of documents included in the permit packet and calculating final fees due.
- Respond appropriately to all inquiries from the public and employees via phone, written correspondence, or in person at the permit counter.
- Participate in and assist with ongoing evaluation of the permit process to aid in improving customer service, productivity, and efficiency.
- Process Business and Event licenses and permits.

CUSTOMER SERVICE

- Assist citizens, contractors, engineers, developers and business owners with issues related to permitting, basic building codes, permit application completion and submittal, permit costs and other requirements.
- Provide status updates on permit applications to both internal and external customers, maintain a log of applications to track status and follow up on delays to ensure applications are maintaining review timelines as well as sending out review comments to applicants when review is complete.
- Interpret information, answer inquiries and provide research explaining policies and procedures of the permitting process. Resolve routine questions or problems independently. Direct customer inquiries to appropriate department personnel.
- Perform office coordination details without referral to or direction from a supervisor. General and other administrative tasks as performed as assigned by the supervisor or management staff including customer service, front counter, answering phone calls, cemetery backup support, and administrative functions related to the office work environment.
- Perform other related duties as assigned.

COST RECOVERY

- Process application, collect fees, route documents and verify licenses.

Knowledge, Skills and Abilities

- Knowledge of City ordinances and code relating to building, land use planning, zoning, community development standards and the environment. Understanding of how the State Shoreline Management Act, State Environmental Policy Act, Growth Management Act, municipal land use, planning and subdivision statutes apply to the permitting and development process.
- Advanced knowledge of the overall operation and purpose of planning, engineering, fire and building departments including what resources each employee provides the public.
- Ability to analyze and diagnose problems as well as research and interpret codes, regulations, standards, plans and specifications, legal descriptions, and various governmental documents.
- Ability to manage in coordination with the City Planner or designee multiple projects concurrently under difficult deadlines.
- Knowledge of zoning, municipal, and administrative codes, and public information processes as well as an understanding of the problems of the applicant.
- Ability to read difficult instructions and maintain written records.
- Advanced computer skills including, but not limited to, Office Suites and current permit tracking program.
- Ability to communicate effectively orally and in writing with architects, contractors, developers, owners, supervisors, employees, and the general public; Ability to establish effective working relationships with staff, clients, and the public.

Minimum Qualifications

- A B.A. or 5 years administrative experience in the permitting field or a combination of training and experience that provides the required skills, knowledge and abilities is preferred.
- Permit Technician Certification through ICC or the ability to obtain within one year of hire.

- Experience & familiarity with permit tracking software programs. Familiarity with BlueBeam, Sharepoint and Springbrook software a plus.
- Experience & familiarity with zoning, land use, engineering and building codes.
- Ability to communicate effectively in English is required.
