**Brownfield Plan Summary for Graphic Packaging International, LLC**  
**City of Kalamazoo and Kalamazoo Township, Michigan**

Graphic Packaging International, LLC (GPI) is evaluating potential properties in Michigan and Ohio for the expansion of existing operations. A potential site in Michigan includes existing Graphic Packaging property, the former Checker Motors property, and contiguous properties in the City of Kalamazoo and Kalamazoo Township. The potential expansion site includes approximately 123.83 acres of mostly vacant and unoccupied property in a heavily industrial area. Historically, a portion of the property was used by Checker Motors Corporation for the manufacturing of automobiles from the 1920s until 1982, followed by the manufacturing of automotive parts until 2009. Since then, most of the buildings have been demolished and contamination has been identified on site in the soil and groundwater at levels exceeding generic residential cleanup criteria. The proposed project includes expansion and redevelopment of the property through selective building and site demolition and abatement. GPI's investment plans include construction of a new building to house a new Coated Recycled Board Machine with an annual capacity of approximately 500,000 tons. GPI's investment is expected to have a significant positive economic impact for businesses and suppliers in the region. GPI has incurred or will incur costs associated with the following eligible activities: baseline environmental activities (Phase I, Phase II and BEA), due care activities, additional response activities, demolition of existing structures, lead and asbestos abatement, site preparation and infrastructure activities.

This Brownfield Plan has been prepared as one part of a State and Local incentive package and in order to provide for reimbursement of eligible activities associated with redevelopment of the subject property through tax increment financing (TIF) capture. This Plan details eligible activities that have been completed, as well as anticipated eligible activities that will be conducted by GPI and the City of Kalamazoo or another public partner. The Plan allows for capture of up to five full years of tax increment, if available, for the county-wide KCBRA Local Brownfield Revolving Fund (LBRF).

- **Anticipated private investment:**
  - **\$180,000,000 in real property over the next 3 years**
  - **\$600,000,000 total estimated investment including personal property**
- **Anticipated new jobs — The project will create an estimated 1,000 construction jobs during the redevelopment phase and approximately 25–50 full-time jobs.**
- **Local and State Tax Increment Capture (TIF) available for reimbursement based on estimated redevelopment values (over 30 years) - \$12,830,976**
- **Total taxes to continue to Taxing Jurisdictions during Plan — \$10,693,200 (current base tax revenues projected over the 30-year period of tax increment revenue capture)**
- **Total reimbursement to KCBRA — TBD (administrative expenses of the KCBRA)**
- **Length of Brownfield Plan — 30 years (with start of tax capture delayed 3 years)**

- F. Site Preparation. Site preparation activities on the eligible property within the City of Kalamazoo (a core community) include clearing and grubbing, mass grading, land balancing, utility relocation, special foundations, temporary site control, temporary access, temporary facility, temporary erosion control, geotechnical engineering, staking, and other similar expenses.
- G. Infrastructure Improvements. Infrastructure improvements that directly benefit eligible property will include improvements to street and roadways, utility improvements, road improvements to US 131 interchange and right of ways, and other eligible infrastructure improvements.
- H. Contingency. A 15% contingency is included to cover unexpected cost overruns encountered during construction on the future costs.
- I. Preparation, Development and Implementation of Brownfield Plan and Work Plan. Reasonable costs associated with the preparation, development and implementation of this Brownfield Plan and the Work Plan are included in the eligible activities.
- J. Authority Administrative Expenses. Actual eligible costs incurred by the Authority are also included in the Plan as an eligible expense. Such expenses could include costs of public notifications, legal, and other costs to administer the Plan. These will be reimbursed with local tax increment revenues only, up to the limits allowed by Act 381.

**C. An estimate of the captured taxable value and tax increment revenues for each year of the Plan from each parcel of eligible property and in the aggregate. (MCL 125.2663(2)(c))**

A 12-year PA 198 Application will be filed for the real property improvements on the property located within the City of Kalamazoo. An estimate of real property tax capture for tax increment financing is attached in Exhibit C.

**D. The method by which the costs of the Plan will be financed, including a description of any advances made or anticipated to be made for the costs of the Plan from the City. (MCLA 125.2663(2)(d))**

The cost of Eligible Activities included in the Plan Amendment will initially be paid for by GPI and the Public Entity, or other public sector partners, and they will seek reimbursement through available local and school property tax increment during the term of the Plan.

**E. The maximum amount of the note or bonded indebtedness to be incurred, if any. (MCLA 125.2663(2)(e))**

Bonds will not be issued by the Authority for this Project but may be issued in conjunction with some of the proposed infrastructure improvements. Bonds will not be used to fund GPI's eligible activities.

**F. The proposed beginning date and duration of capture of tax increment revenues for each eligible property as determined under the Act (MCLA 125.2663(2)(f))**

The duration of the Brownfield Plan Amendment for the Project is estimated to be 33 years. It is estimated that development of the Property will be completed by the end of 2021 and that it will take up to 30 years to recapture the Eligible Activities through tax increment revenues. Therefore, the first year of tax increment capture will be 2022 and the Plan will remain in place until GPI and the Public Entity are fully reimbursed and the Authority has completed capture for the revolving fund capture, if available, subject to the maximum duration provided for in MCL 125.2663.

**G. An estimate of the impact of tax increment financing on the revenues of all taxing jurisdictions in which the Property is located. (MCLA 125.2663(2)(g))**

An estimate of real property tax capture is attached as Exhibit C.

**H. A legal description of each parcel of eligible property to which the Plan applies, a map showing the location and dimensions of each eligible property, a statement of the characteristics that qualify the property as eligible property, and a statement of whether personal property is included as part of the eligible property. (MCLA 125.2663(2)(h))**

1. See legal description in Exhibit A.

2. See location and site map Exhibit D.

3. Characteristics of Property:

The Property consists of approximately 123.83 acres located in a heavily industrial area and is mostly vacant and unoccupied. Historically, a majority of the Property was used by the former Checker Motors Corporation (“Checker”) for the manufacturing of automobiles from the 1920s until 1982. After ceasing automobile manufacturing operations, Checker continued to operate manufacturing automotive parts until it went bankrupt in 2009. The Property was purchased by Jones Trading, LLC in 2010 and most of the buildings were demolished at that time, leaving several piles of demolition debris throughout the Property. GPI now owns or controls the Property and began cleaning it up in preparation for the proposed Project. The balance of the Property has been historically used for heavy industrial operations. The Property is considered “eligible property” because they are either considered a “facility” due to the presence of contamination or they are adjacent to or contiguous to a parcel that is a “facility.” Please see Section 2 for a summary of eligibility.

4. Personal property: New personal property added to the Property is included as part of the “Eligible Property” to the extent it is taxable.

**I. An estimate of the number of persons residing on each eligible property to which the Plan applies and the number of families or individuals to be displaced, if any. (MCL 125.2663(2)(i))**

There are no persons currently residing on this Property and, therefore, no families or individuals will be displaced.

**J. A plan for establishing priority for the relocation of persons displaced by implementation of the Plan, if applicable. (MCLA 125.2663(2)(j))**

This section is inapplicable to this site as there are no persons residing on the Property.

**K. Provision for the costs of relocating persons displaced by implementation of the Plan, and financial assistance and reimbursement of expenses, if any. (MCLA 125.2663(2)(k))**

This section is inapplicable to this site as there are no persons residing on the Property.

**L. A strategy for compliance with the Michigan Relocation Assistance Act, if applicable. (MCLA 125.2663(2)(l))**

This section is inapplicable to this site as there are no persons residing on the Property.

**M. Other material that the Authority or the City Council considers pertinent.  
(MCLA 125.2663(2)(m))**

The Project provides significant investment in the City and Township and it will revitalize a long underutilized site in the City of Kalamazoo and Kalamazoo Township.

### **New Police Officer**

The Township welcomes Jon Szablewski, his swearing in was on August 5, 2019. Officer Szablewski will bring the department to 30 sworn officer out of 34.

### **IT**

Brian Bowman, who has done our computer and network work for years, will become staff starting October 1, 2019. This position is something that the Township as a whole will benefit from. The addition of Brian Bowman will be covered through the police budget, this is part of the reorganization of the police department. This move will allow additional staffing while staying under budget.

### **ACE training**

On Tuesday August 27, 2019 I had the opportunity to take a training on ACE, through the County Equity Task Force. Adverse Childhood Experiences (ACEs) are traumatic or stressful events that occur in childhood or adolescence. These events can include physical or sexual abuse, neglect, household dysfunction or witnessing violence. ACEs can harm a child's brain and its development, which can lead to long-term negative health and social outcomes.

### **Youth for Christ**

I have Meeting with Pastor Chris from youth for Christ. Youth for Christ operates out of the church on East Main that went before the ZBA for an expansion in the form of a new gymnasium to help with their ministry outreach for youth.

### **Social Equity**

On August 26<sup>th</sup> there was a meeting with M.A.R. (Marijuana Regulatory Affairs) to go over the Social Equity Education and Outreach. Part of this meeting was to get contact information for MAR. A key question from the Township was to find out what areas of Kalamazoo qualified for the Social Equity program. The short answer is "it is just for the City of Kalamazoo". You can have a residency anywhere in Kalamazoo County but to qualify for the Social Equity program you must have a business located within the City of Kalamazoo.

## **US 131**

We now have seven municipal bodies that have passed resolutions in support of the expanded US 131 interchange. In addition to that there is the \$600 million Graphic Packaging expansion. Graphic Packaging will need 90% of its truck traffic to go south. We have been working on getting additional elected officials to commit letters of support for the full interchange for 131. Please see the list below if there any other officials that we should contact to help this project, please do not hesitate to pass that information on.

**CHARTER TOWNSHIP OF KALAMAZOO**  
**BOARD OF TRUSTEES – SPECIAL WORK SESSION**  
**Monday, August 26, 2019**

The Board of Trustees of the *Charter Township of Kalamazoo* held a Special Work Session on **Monday, August 26, 2019** at **5:30 p.m.** in the Board Room of the Charter Township of Kalamazoo Administration Building, 1720 Riverview Drive, Kalamazoo, Michigan 49004-1099, for the purpose of discussing Work Session Agenda items, and any other business that may legally come before the Board of Trustees of the Charter Township of Kalamazoo, Kalamazoo County.

**PRESENT:** Supervisor Donald Martin, Clerk Mark Miller, Treasurer Sherine Miller, Trustees Nicolette Leigh, Steven Leuty, Jennifer Strebs. Trustee Jeremy Hathcock arrived at 7:03 pm.

**ABSENT:** None

**ALSO PRESENT:** Township Manager Dexter Mitchell and Attorney Seth Koches. Andy Johnson, VP of Government and Sustainability for Graphic Packaging, Rusty Miller, Sr. VP of Engineering and Technology, Graphic Packaging (by phone conference), and Bronwyn Drost, Director of Southwest Michigan First.

Supervisor Martin called the meeting to order at 5:30 p.m.

**Item 1 – PRESENTATION ON PROJECT BRONCO BY SOUTHWEST MICHIGAN FIRST**

Mr. Johnson covered the details of “Project Bronco”, and some background on Graphic Packaging. All paperboard made by Graphic is in the US, except for one plant in Canada. “Project Bronco” is an opportunity to consolidate operations and increase efficiency as well as improve quality. There are two possible locations, in Ohio or Michigan. Rusty Miller spoke about the new paperboard machine, and details of the project. Graphic will push for completion of the Bus-131 interchange; they have met with M-DOT and the City. Rail is also important for shipping. The investment will protect present jobs for decades to come.

Supervisor Martin asked what we could do to be supportive; Mr. Miller said that City leadership, County and Township now appear to be working together. Manager Mitchell introduced Rachel Glover, who spoke about the Kalamazoo County Brownfield Plan for this set of properties. Mr. Johnson mentioned that the total investment is \$600 million. Manager Mitchell said there was no ordinance regulating having construction workers staying in RVs. City and County must also approve the brownfield plan.

Trustee Strebs asked if there were environmental regulations that they need to have changed; Mr. Johnson answered that the construction plan would need to be started quickly. Ms. Glover mentioned asbestos that could be remediated and would be eligible to be reimbursed through the Brownfield TIF.

Trustee Leuty mentioned that solar panels could be a good use of space for a short time.

Mr. Johnson stated that Sept. 24 is important, a vote of the MEDC Michigan Strategic Fund board.

**Item 2 – DISCUSSION REGARDING GRAND PRAIRIE GOLF COURSE CONTRACT**

Manager Mitchell explained the various provisions of the new 5-year contract. It provides for termination with 180-day notice, within a calendar window. Trustee Leigh questioned some

aspects of the \$15,000 payment. Attorney Koches suggested clarification that the last sentence of 9.d. to refer only to capital expenses. Trustee Leuty suggested that 9.c. refer to \$7,500 management fee and \$7,500 capital allocation, which could roll over. All capital improvements shall remain the property of the Township. Trustee Leigh wants to add a cost-of-living to the annual renewal. Trustee Strebs agreed. Treasurer Miller asked what we could expect as revenue. Manager Mitchell answered that the \$10,000 fee is gone, and we will see what the revenue is on a monthly basis. Trustee Leuty asked about the wording that the contractors “shall” apply for a beer-and-wine license. He also suggested that the capital money not go out and then come back in. He asked whether the audit would be part of the Township audit? Manager Mitchell answered yes. Clerk Miller asked whether we are in a position to pass the contract at this evening’s meeting. Attorney Koches suggested that he could make revisions and bring it back to next meeting. There was further discussion about the possibility of money to come back to Township if income went up.

**Item 3 – DISCUSSION REGARDING POLICY ADMINISTRATION COMMITTEE RECOMMENDATIONS CONCERNING COMPENSATION STUDY**

Manager Mitchell reviewed the process carried out by Municipal Consulting Services, LLC (Mark Nottley, Principal) and the delivery of his report. The Policy Administration Committee decided that further work on the grade point assignments and comparable salaries was required before presenting this report to the Board; this was carried out by a subcommittee of the Manager and the two Chiefs, and is now complete.

Clerk Miller reviewed the process of taking the work of the subcommittee and applying Mr. Nottley’s methodology to it. This was a complex process, and the Clerk expressed concern that the Board might not have sufficient time to discuss and understand the implications of the report. He also reviewed the cost for one-year adjustments, and also the total cost if all employees eventually received the maximum in their grade (step 7).

Treasurer Miller has similar concerns about not understanding the report yet. Trustee Leigh said the original question was, “Are we paying our people fairly?” The committee did a thorough job. Trustee Strebs also wanted more time. Supervisor Martin said we would pull this from tonight’s new business agenda.

**Item 4 – DISCUSSION REGARDING ITEMS ON THE REGULAR AGENDA**

Clerk Miller reported two minor modifications to the Consent Agenda, a correction to the August 12 regular meeting minutes, and the amount of payment of the bills.

**Item 5 – MANAGER’S UPDATE**

None.

**Item 6 – PUBLIC COMMENT**

None.

## **BOARD OF TRUSTEES – STAFF REPORT**

TO: BOARD OF TRUSTEES

CC: DEXTER MITCHELL, TOWNSHIP MANAGER

FROM: NANCY DESAI, FINANCE ADMINISTRATOR <sup>ND</sup>

DATE: September 4, 2019

SUBJECT: PURCHASE, TRAINING, & IMPLEMENTATION OF BSA SOFTWARE – FIXED ASSET  
MODULE

---

### **BACKGROUND**

The fixed asset records of the Township are currently managed in a database by Siegfried & Crandall. On an annual basis, the Township provides the addition/deletion records to Siegfried & Crandall and the records are updated.

### **POLICY FOCUS**

In order to maintain accurate records and strengthen internal controls for the management of fixed assets, it is imperative for the Township to manage its own fixed assets. Fixed asset reporting will be used to perform annual inventory audits. Inventory audits are a necessary part of fiscal accountability because they provide useful information for the valuation of assets. Accurate valuation of assets leads to the determination of insurance liability premiums for the Township.

### **FISCAL IMPACT**

The fixed asset module, implementation, and training is estimated not to exceed \$14,500.00. A budget amendment to decrease the adopted budgeted amount from the Contingency account (101.890.955.00) for \$14,500.00 and increase the Capital Outlay account adopted budget (101.901.983.00) for \$14,500.00.

### **RECOMMENDATION**

The Board authorize the purchase of the Fixed Asset module from BSA with a not to exceed cost of \$14,500.00 and authorize a budget transfer from the Contingency account to the Capital Outlay account in the General Fund.

### **PUBLIC NOTICE**

Public notification was achieved by posting the agenda electronically and in print, with this agenda item being listed at least 72 hours prior to the meeting.
