**Existing Tree Protection & Removal Notes**

All existing plant material to remain and be protected unless otherwise noted.

- (E) tree symbol
- (E) shrub
- (E) to be removed symbol

**Existing Notes**

- A (E) Hawthorn tree
- B (E) Plane tree
- C (E) planting to remain

**Proposed Notes**

- 1 (P) patio furniture per Architect
- 2 (P) trash enclosure per Architect
- 3 (P) trash receptacle per Architect
- 4 (P) overhead structure per Architect
- 5 (P) menu order board per Architect
- 6 (P) headache bar per Architect

**Total Landscape Area: 3,353 SF**

**Project Type: Commercial**

**Water Supply: Potable**

**Irrigation Notes**

Landscape Plan are in compliance with the State Model Efficiency Landscape Ordinance (MWEL0). 100% of plant material are drought tolerant and low water use per WUCOLS.

1. The design of the irrigation system shall conform to the hydrozones of the landscape design plan.
2. In all planting areas, low volume water irrigation (subsurface drip) will be provided to maximize water infiltration into the roots.
3. A dedicated water meter shall be provided for common landscape area.
4. A weather base "smart controller" shall be utilized. Controller shall be programmed to water in early morning or night.
5. A rain sensor shall be installed at each controller.
6. Water use calculation shall certify conformance with the current requirements.
7. Trees are to be irrigated by bubbler.
