## Employee Spotlight...

Ingrid Jimenez Guzman, Facility Attendant  
Colma Employee since June 2023

### Why did you want to work with the Town of Colma?

I wanted to work with the Town of Colma because I enjoy working with different communities. I have had pleasant experiences with other cities so I wanted to work with another city/town.

### What is your favorite part about working here?

My favorite part about working here are the events. I have so much fun interacting with the community members and my co-workers.

### When you're not at work, what are some things you like to do?

Some things I like to do when I am not at work are making lattes, reading, watching K-dramas and movies.

### What are your plans for the future?

I am currently in the process of finishing my bachelor's degree in political science with a minor in Geography. With that, I would like to either go to law school or get a master's degree to continue studying how border politics affect indigenous communities.

### What is your best tip for health and wellness?

If you are ever feeling down, stressed, sad, talk to someone about your feelings. Don't keep those feelings to yourself. Do something that you like to keep your mind entertained for a few minutes.

### Fun Fact:

I had the position of a secretary to a commission for a few years!

Kumon is an after-school learning program designed to help build confidence, increase self-discipline, improve concentration, and study habits. Kumon instructors will design individual lesson plans based on a student's ability and understanding of the material in math or reading. The emphasis on individualized learning will help your child become more focused, motivated, and self-reliant. Students will also learn to assume responsibility for their own progress and learn at a rate that is comfortable for them. For more information or if you would like to enroll your child in this program, please call the Colma Community Center at 650-985-5678. Each participant may register for one subject at the resident rate.

**Math Program** – Kumon Math is a comprehensive program that develops the necessary skills to help your children progress from counting through calculus. Kumon assignments allow students to discover specific math concepts and improve mental calculation, reasoning, and problem solving skills.

**Reading Program**– Kumon's assignments incrementally build on each subject to develop students' comfort with and understanding of reading.
