APPLICATION GUIDELINES

- Rebates are available to **Danvers Residents only**. Applicants listed must be Water Account holders with all active accounts in good standing. If account is not active or in good standing, rebate will not be processed. Rebate application will not be processed until application and checklist is complete. Incomplete applications will be returned. Please call 978-777-0001 x3011 for guidance.
- If the rebate is for an apartment tenant or condo owner, the "Account Information" should be for the apartment owner or condo association. Unit information should be filled under "Installation Address". These applications require both applicant signature and account holder signature below.
- WaterSense fixtures are recommended, but not mandatory. WaterSense fixtures are tested by an independent third party and are estimated to save an additional 20% compared to non-WaterSense models. For more information on WaterSense please visit: www.epa.gov/watersense.
- Application requires: the proof of purchase with a clear line item displaying the product purchased in the form of the sales receipt, a product specification sheet that verifies gallons per flush compliance with guidelines, **a copy of the plumbing permit** and a **completed and signed** Toilet Rebate Application. The plumbing permit fee will be refunded upon approval of application.
- The rebate program is on a first-come, first-served basis and is effective until the funding is exhausted or the program is discontinued.
- New construction projects (any construction after January 2008) or home additions do not qualify for rebates since all additions are considered an additional draw on Danvers' water reserves. Rebates are for remodeling only.
- New toilets must be replacing old toilets and installed at the account location. Old toilets cannot be reused by applicant or other Danvers residents.
- Danvers Water Division reserves the right to inspect the installation on premises.
- Applicant agrees and understands that the Danvers Water Division does not guarantee that the installation of a low-flow fixture will result in water savings, as site-specific water consumption varies.
- Danvers Water Division does not warrant, endorse or assume liability for the quality, performance or safety of the contractor and/or retailer or wholesaler or performance of any appliance or fixture. Responsibility for product chosen is solely the applicant's.
- Individual rebates more than \$600 may require the issuance of a 1099 Tax Form.

Please return the completed application to:

Rebate Program
Town of Danvers—Business Division
2 Burroughs Street
Danvers, MA 01923

Rebate processing will take 6-8 weeks from the receipt of a completed application. Rebate checks will be sent upon application review, verification by a site visit, processing and approval.

I have read, understand and agree to the terms and conditions on the back of this rebate program.
