ORDER OF THE BOARD OF HEALTH RESTRICTING THE NUMBER OF PERSONS IN ESSENTIAL BUSINESS ESTABLISHMENTS

ISSUED APRIL 1, 2020

On March 18, 2020, Danvers Town Manager Steve Bartha declared a state of emergency in response to the threat of the spread of COVID-19. Pursuant this declaration, the Board of Health issues this Order restricting the number of persons within the physical workplace and facility. Violations may include, but not be limited to civil fines of up to \$1,000.

1. Essential Services, identified as “other community-based essential functions” as provided in Exhibit A of the Order of the Governor, dated March 23, 2020 are limited to no greater than 50 customers in their establishment at any given time. Curbside pick-up services are encouraged.
2. Non-essential portions of essential businesses such as flower shops, and jewelry sales, may not be open.
3. Establishments subject to this order must provide one individual at the main entryway to the establishment who shall be responsible for keeping count of patrons and preventing entry by greater than 50 persons.
4. All establishments must provide distancing of six feet between employees, and between customers whenever possible, or as determined by the Board of Health.
5. Restaurants, bars, and other establishments that sell food and beverage products to the public are encouraged to continue to offer food for take-out and by delivery if they follow the social distancing protocols set forth in the Department of Public Health guidance. On-Premises consumption of food or drink, including outdoor tables, is prohibited.
6. Establishments shall provide barriers wherever possible, or as determined by the Board of Health including check-out aisles and registers, service counters, and similar, to protect employees and customers. This includes markings to indicate a distance of 6 feet for customers to ensure safe distancing.
7. This order is effective April 2, 2020 and shall remain in full force and effect through May 4, 2020, unless further extended.
