To the Honorable Mayor
And City Council
City of De Leon
De Leon, Texas

Report on Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of De Leon, Texas as of and for the year ended September 30, 2014, and the related notes to financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate discretely presented component units, and the aggregate remaining fund information of the City of De Leon, Texas as of September 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have issued my report dated July 31, 2015, on my consideration of the City of De Leon's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of De Leon's internal control over financial reporting and compliance.

Respectfully submitted,

Burl D. Lowery

Certified Public Accountant

Brownwood, Texas

July 31, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of City of De Leon's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended September 30, 2014. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The City's total combined net assets were \$4,332,890 at September 30, 2014 and \$3,269,932 at September 30, 2013.
- During the year, the City's expenses were \$211,561, more than the \$1,183,289 generated in taxes and other revenues for governmental activities before transfers from the Water and Sewer Fund.
- The total cost of the City's programs in the governmental activities was \$1,394,850.
- The general fund reported a fund balance this year of \$38,695.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts-*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual* parts of the government, reporting the City's operations in more detail than the government-wide statements.
- The *governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short- and long-term* financial information about the activities the government operates *like businesses*, such as water and sewer.
- *Fiduciary fund* statements provide information about the financial relationships in which the City acts solely as a *trustee* or *agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

Government-wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report information about the City's net assets and how they have changed. Net assets-the difference between the City's assets and liabilities- is one way to measure the City's financial health or *position*.

- Over time, increases or decreases in the City's net assets are an indicator of whether its financial health improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base.

The government-wide financial statements of the City include the *Governmental activities*. Most of the City's basic services are included here, such as fire, police and streets, and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant *funds*-not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following kinds of funds:

- *Governmental funds*-Most of the City's basic services are included in governmental funds, which focus on (1) how *cash* and *other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.
- *Proprietary funds*-Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.
- *Fiduciary funds*-The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These funds consist of the Cemetery Trust Fund.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net assets. The City's combined net assets were \$4,332,890 at September 30,2014.

Changes in net assets. The City's total governmental revenues were \$1,183,289. A significant portion, 30%, of the City's revenue comes from property taxes and 26% relates to charges for services.

The total cost of all governmental type programs and services was \$1,394,850; 25% of these costs are for police and 20% are for general administration.

Governmental Activities

- Property tax values have remained fairly stable for the City. Revenues from property taxes were \$362,886 for the 2013-2014 fiscal year.
- Revenues of the Water and Sewer Fund from customers was \$1,098,758 for the 2013-2014 fiscal year.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Revenues from governmental fund types in the individual funds totaled \$1,183,289, and \$1,963,303 in the proprietary funds. The City's property tax base and number of utility customers has remained stable.

General Fund Budgetary Highlights

Over the course of the year, the City did revised its budget. Actual expenditures were \$28,787 less than the final budget amounts of the General Fund.

On the other hand, resources available were \$22,121 more than the final budgeted amount.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2014, the City had invested \$6,999,039 in a broad range of capital assets, including land, equipment buildings, and vehicles. There were \$322,106 of additions during the current year.

The City's fiscal year 2014-2015 general fund budget does not include any new construction contracts. However the City is building waterlines of approximately \$1.3 million funded with certificates of obligation and note forgiveness proceeds..

Long Term Debt

At year-end the City had \$3,073,401 outstanding long-term debt including certificates of obligation of \$2,345,000. More detailed information about the City's debt is presented in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Appraised value and utility customers used for the 2014-2015 budget preparation is approximately the same as the appraised value and number of utility customers for the 2013-2014 budget.
- General operating fund spending decreases in the 2014-2015 budget from \$1,468,646 to \$1,369,551. This is an increase of 6.7%.

These indicators were taken into account when adopting the general fund budget for 2014-2015. Amounts available for appropriation in the general fund budget are \$1,145,984 an increase of 5.4 percent over the final 2013-2014 budget of \$1,086,999.

If these estimates are realized, the City's budgetary general fund balance is not expected to materially change during the 2014-2015 fiscal year.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Administration.

City of De Leon
 Reconciliation of the Governmental Funds Balance Sheet
 To the Statement of Net Assets
 September 30, 2014

Total Fund Balance - Governmental Funds \$198,128

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in the governmental funds.

Capital assets	\$3,193,107	
Accumulated depreciation	(\$1,484,849)	\$1,708,258

Property taxes receivable unavailable to pay for current period expenditures are deferred in the governmental funds.

Deferred revenue - ad valorem taxes	\$39,307
-------------------------------------	----------

Long-term liabilities including capital leases are not due and payable in the current period, and therefore are not reported as liabilities in the governmental funds.

(\$103,674)

Tax anticipation note issuance costs net of amortization. These costs are recorded as an expenditure in the governmental funds.

\$0

Accrued compensated absences are not reported as a liability in the governmental funds.

(11,813)

Total Net Position - Governmental Activities

1,830,206

The accompanying notes are an integral part of this statement.

The accompanying notes are an integral part of these financial statements.

City of De Leon
 Reconciliation of the Governmental Funds
 Statement of Revenues, Expenditures, and Changes in Fund Balance
 To the Statement of Activities
 For the Year Ended September 30, 2013

Total net change in fund balance - governmental funds **\$43,653**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. In the Statement of Activities, the cost of these expenditures is capitalized. \$69,701

Depreciation is not recognized in the governmental funds. The Statement of Activities recognizes depreciation on all depreciable assets. (\$29,672)

Proceeds from capital leases are not recognized as revenue and other resources in the Statement of Activities \$0

Proceeds from tax anticipation notes are not recognized as revenue and other resources in the Statement of Activities. \$0

Principal payments on capital leases are recognized as expenditures in the governmental funds. Principal payments are recognized as a reduction of liabilities in the Statement of Net Assets. \$11,257

Principal payments on tax anticipation notes are recognized as expenditures in the governmental funds. Principal payments are recognized as a reduction of liabilities in the Statement of Net Assets. \$45,000

Because some property taxes are not collected in the fiscal year assessed, the taxes are considered to be "available revenues in the year collected in the governmental funds. Deferred taxes decreased by this amount. \$313

The change in accrued compensated absences is not reflected as an expense in the governmental funds, but is in the Statement of Activities (11,813)

Change in net position of governmental activities 128,439

The accompanying notes are an integral part of this statement.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Note 1 – Description of City and Reporting Entity

The City of De Leon was incorporated under the provisions of the State of Texas. The City is a home rule city and operated under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, health and social services, culture, recreation, public improvements, and general administrative services. Other services include utilities.

Financial Reporting Entity

As required by the accounting principles generally accepted in the United States of America, these financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the primary government.

Component Units:

The Comanche Gardens of Memory, Inc. transferred its privately owned cemetery, perpetual care fund, cash on hand, and equipment to the De Leon Public Facilities Corporation on February 13, 2001. The De Leon Public Facilities Corporation was created by the City of De Leon to own and operate the Gardens of Memory Cemetery. The City Council appoints the directors of the De Leon Public Facilities Corporation and oversees its operations. The fiscal year of the corporation is the same as the City's fiscal year. The De Leon Industrial Development Corporation collects sales taxes to promote Industrial development in the City of De Leon. The board of directors of the De Leon Industrial Development Corporation are appointed by the City Council of the City of De Leon. The fiscal year of the De Leon Industrial Development Corporation is the same as the City's fiscal year.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the City of De Leon have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City also applied Financial Accounting Standards Board (FASB) Statements issued on or before November 30, 1989 to its governmental and business-type activities and to its enterprise funds provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements issued after November 30, 1989 to its business-type activities or enterprise funds. The most significant of the City's accounting principles are described as follows:

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program of the City's governmental activities and for business-type activities of the City. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and (2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at the more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

General Fund – The General Fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in the other funds.

Cemetery Trust Fund – The Cemetery Trust Fund is a permanent fund. The City in agreement with the De Leon Cemetery Association, a legally separate entity, has restricted the use of the Cemetery Trust Funds to only earnings and not principal. These earnings are transferred to a Cemetery Special Projects Fund for use in maintaining and improving the De Leon Cemetery.

Nonmajor funds are aggregated and presented in a single column. The City's nonmajor governmental funds are as follows:

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts and major capital projects) that are legally restricted to expenditures for specific purposes.

Proprietary Funds

Proprietary funds reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. The City's proprietary funds are all classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods and services. All of the City's enterprise funds are major funds.

Water and Sewer Fund – The Water and Sewer Fund is used to account for operation of the water and sewer departments of the City. The fund's operations are financed primarily through user charges.

B. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the City are included on the statement of net assets. The statement of activities presents the operations of the City in a format that reports the net revenues (expenses) of its individual functions.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of the current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements of the governmental funds.

Like government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of changes in revenues, expenses, and changes in fund net assets presents revenues and expenses in total net assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

When the City incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the City's policy to use restricted resources first, then unrestricted resources.

C. Basis of Accounting

Government-wide Financial Statements and Proprietary Fund Financial Statements

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting.

Under the accrual basis of accounting, revenues are recognized when earned. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Governmental Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual: i.e., when they become both measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Major revenue sources susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, and charges for services. The City considers property taxes as available when they are collected. Fines and permits are recorded as revenues when received. Sales taxes are collected by the State of Texas and subsequently remitted to the City and are recognized as revenue when received by the City. Grant funds are earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenue until earned.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

D. Budget Process

Prior to October 1 of each year the Mayor submits to the City Council a proposed operating budget for the upcoming fiscal year. The operating budget includes proposed expenditures and the means of financing them. The City holds a public hearing on the proposed budget at least ten days prior to adoption as required by law. Prior to October 1 each year the budget is legally enacted through the passage of an ordinance.

The City uses a modified accrual basis for budgeting in governmental funds. The major governmental fund – General Fund is presented in budgetary comparison schedules as required supplemental information. Nonmajor governmental funds that adopt budgets present budgetary comparison schedules in other supplemental information.

The budgetary comparison schedules shown in the accompanying supplemental information present comparisons of the legally adopted budget, as amended, with actual results. The originally adopted budget is presented for purposes of comparison to the final, amended budget.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

E. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Proprietary Funds consider all highly liquid investments with a maturity of three months or less at the time of purchase as cash equivalents.

F. Inventories

The City uses the purchases method of accounting for inventories for all areas except the Water and Sewer Fund supplies. Under the purchases method materials and supplies are recorded as expenditures when purchased.

The supplies in the Water and Sewer Fund are expended when used. A physical inventory of the supplies is performed as of the end of the fiscal year. The inventory is valued at cost on the first-in first-out method.

G. Restricted Cash

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

H. Capital Assets

General capital assets are capital assets that are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are reported at their fair market value as of the date received. The City's infrastructure consists of City streets, streetlights, and signs, and water and sewer systems. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

All capital assets are depreciated, except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements.

Capital outlays are recorded as expenditures of the General and Special Revenue Funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold of \$5,000 is met. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method.

To the extent the City's capitalization threshold of \$5,000 is met, capital outlays of the Proprietary Funds are recorded as fixed assets and depreciated over their estimated useful lives in both the fund financial statements and the government-wide financial statements using a straight-line method.

The following estimated useful lives in years are used in computing the straight-line depreciation:

<u>Description</u>	Governmental Activities <u>Estimated Lives</u>	Business-Type Activities <u>Estimated Lives</u>
Buildings and improvements	40	40
Machinery and equipment	5-10	5-10
Vehicles	5-10	5-10
Infrastructure	40	40

I. Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the Government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary fund types are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources, are reported as obligations of the funds. Long-term loans and leases are recognized as a liability on the governmental fund financial statements when due.

J. Governmental Fund Designated Fund Balances

The City designates portions of fund balances which are legally segregated for a specific future use.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

K. Net Position

Net assets represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement on their use through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

L. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water, sewer, and sanitation.

M. Contributions of Capital

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction.

N. Interfund Receivables and Payables

During the course of operations, many transactions occur between individual funds for various reasons. The short-term receivables and payables between the individual funds are classified as “Interfund Receivables” and “Interfund Payables”.

Permanent transfers of revenues between funds are classified as “Transfers in” and “Transfers out” in the individual funds. The Council approves the permanent transfers of funds at the Council meetings. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported in the same manner as general revenues. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the statement of net assets as “internal balances”.

O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

amounts of revenues and expenditures/expenses during the reporting period. As such, actual results could differ from those estimates.

P. Compensated Absences

Vacation and sick leave benefits are accrued monthly as earned. The liability for these accrued benefits is reported as accrued compensated balances. This liability is reported as a current liability in the proprietary fund types, and as a general long-term liability in the governmental funds, except for the portion deemed to be current, if any.

Q. Risk Management

The City is exposed to various risks related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year 2014, the City purchased insurance coverage to cover potential risks. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Note 3 – Deposits and Investments

Primary Government

The City maintains a cash pool, which includes the cash balances of the General Fund, Water and Sewer Fund and Municipal Court Fund. The Cemetery Trust Fund and the remaining Special Revenue Funds maintain their separate bank accounts and banking records.

Deposits – State statutes require that all deposits in financial institutions be fully collateralized by U. S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. The Farmers and Merchants Bank of De Leon, Texas is the primary depository of the City.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

At September 30, 2014, the City had the following cash and investments:

	<u>Carrying Amount</u>	<u>Bank Balances</u>
Primary Government:		
Petty Cash	\$807	
Cash in Bank:		
Governmental Activities	171,047	179,762
Business-type Activities	327,020	342,791
Investments:		
Governmental Activities:		
Certificates of Deposit	76,367	76,367
TEXPOOL	1,283	1,283
Business-type Activities:		
Certificates of Deposit	159,898	159,898
TEXPOOL	208,654	208,654
Restricted for Debt Service	59,143	59,143
Restricted for Construction		
Cash in Bank	3,019	3,019
US Bank Construction Escrow	107,821	107,821
Waterline Escrow	1,316,242	1,316,242
Water Meter Escrow	203,618	203,618
 Total Primary Government	 <u>\$2,634,919</u>	 <u>2,658,598</u>

As of September 30, 2014, the total bank balance above was covered by FDIC coverage in the amount of \$250,000 and pledged securities which were pledged by the Farmers and Merchants Bank to the City.

The City's deposits are categorized to give an indication of the level of risk assumed by the City at year-end.

Category 1 includes deposits that are insured or registered of for which the securities held by the City or its agent in the City's name.

Category 2 includes uninsured and unregistered deposits for which securities are held by the counterpart's trust department or agent in the City's name.

Category 3 includes uninsured and unregistered deposits for which the securities are held by the counterparty, or by its trust department or agent but not in the City's name.

Based on these levels of risk, all of the City's deposits are classified as Category 1.

Deposits – Component Units

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

The Farmers and Merchants Bank is the authorized depository for the De Leon Public Facilities Corporation and the Industrial Development Corporation.

At September 30, 2014, cash and investments were invested as follows:

	<u>Carrying Amount</u>	<u>Bank Balances</u>
Component Unit:		
Cash in Bank	\$ 156,742	157,513
Certificates of Deposit	80,165	80,165
 Total Cash and Investments	 <u>\$236,907</u>	 <u>237,678</u>

The De Leon Public Facilities Corporation and the Industrial Development Corporation are also categorized to give an indication of the level of risk assumed by the Corporation at year-end. Based on the three levels of risk discussed above, all of the Corporation's deposits are classified as Category 1.

Investments – Primary Government

The City is required by Government Code Chapter 2256, Public Funds Investment Act, to adopt, implement, and publicize an investment policy. The Public Funds Investment Act requires an annual audit of the investment practices. Audit procedures in this area conducted as a part of the audit of the general purpose financial statements disclosed that in the areas on investment practices, management reports and establishment of appropriate policies, the City adhered to the requirements of the Act.

The Act determines the types of investment, which are allowable for the City. These include, with certain restrictions, (1) obligations of the U. S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds.

The City's investments consist of certificates of deposit and deposits with TEXPOOL. All of the certificates of deposit are fully collateralized with FDIC coverage and pledged securities.

The carrying amount by type of investment is classified into the following three categories of credit risk:

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Category 1 – Insured, registered, or securities held by the entity or its agent in the entity’s name.

Category 2 – Uninsured or unregistered, with securities held by the counterparty’s trust department or agent in the City’s name.

Category 3 – Uninsured and unregistered, with the securities held by the counterparty, or by its trust department or agent but not in the City’s name.

The City’s investments at September 30, 2014 are as follows:

	<u>Category 1</u>	<u>Category 2</u>	<u>Category 3</u>	<u>Reported Amount</u>	<u>Fair Value</u>
Primary Government:					
Time Deposits	\$236,265			236,265	236,265
TEXPOOL				209,937	209,937
	<u>\$236,265</u>	<u> </u>	<u> </u>	<u>446,202</u>	<u>446,202</u>
Total Primary Government	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Component Units:					
Time Deposits	\$80,165			80,165	80,165
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Public Funds Investment Pool – Public funds investment pools in Texas are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; (3) maintain a market value of its underlying investment portfolio within one half of one percent of its shares.

The City’s investment in Pools are reported at an amount determined to be fair value per share of the pool’s underlying portfolio, unless the pool is a 2a-7 like, in which case they are reported at share value. A 2a-7 like pool is one which is not registered with the Securities and Exchange Commission as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with SEC’s Rule 2a7 of the Investment Company Act of 1940.

Analysis of Specific Deposit and Investment Risks

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and if so, the reporting of certain disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk, but had these investments:

TEXPOOL \$209,937 AAA Rated

b. Custodial Risk

Deposits are exposed to custodial risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the City's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent in the City's name.

At year end, the City was not exposed to custodial credit risk.

c. Concentration of Credit Risk

The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end the City was not exposed to interest rate risk.

c. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Note 5 – Property Taxes

Taxes are levied each October 1 and the tax rate is set by the Council. Taxes are based on the assessed (appraised) value listed as of the prior January 1 for all real and business personal property located in the City. Taxable assessed value represents the appraisal value less applicable exemptions authorized by the City.

Taxes are due on October 1, the levy date, and are delinquent after the following January 31. Tax liens are automatic on January 1 each year. All uncollected taxes are reclassified as delinquent as of July 1 each year. At that time, 15% collection costs may be added to all delinquent accounts.

Property taxes are recorded as receivables and deferred revenues at the time the taxes are assessed. In governmental funds, revenues are recognized as the related ad valorem taxes are collected. In the government-wide financial statements, the entire levy is recognized as revenue, net of estimated uncollectible amounts, at the time of the levy.

Taxes are collected by the City’s tax office which operates jointly with the De Leon Independent School District.

Note 6 – Receivables

The receivables of the City of De Leon as of September 30, 2014 are as follows:

	<u>General</u>	<u>Special Revenue</u>	<u>Business-Type Activities Water & Sewer</u>	<u>Total</u>
Delinquent ad valorem taxes	\$52,409			52,409
Customers and other	28,892		107,296	136,188
Other				
 Total Gross Receivables	<u>\$81,301</u>	<u> </u>	<u>107,296</u>	<u>188,597</u>
 Less allowance for uncollectible accounts	13,102			13,102
 Net Receivables	<u>\$68,199</u>	<u> </u>	<u>107,296</u>	<u>175,495</u>

Governmental Activities (General Fund) recognize an allowance for uncollectible taxes based on historical tax collection data. The City’s Water and Sewer Fund

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

utilizes the direct charge-off method with no allowance for uncollectible accounts. Historically write-offs of bad debts in the Water and Sewer Fund have not been material.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. Deferred revenues in the governmental funds at September 30, 2014 consisted of the following:

Unavailable:

Delinquent property taxes, net	\$39,307
Waterline grant	-0-
	\$39,307
	\$39,307

Note 7 – Interfund Receivables and Payables

Fund Financial Statements

The interfund receivables and payables at September 30, 2014 are as follows:

Due to: Cemetery Trust Fund	\$15,597
Road Maintenance Fund	13,722
Industrial Development	14,758
Wastewater Debt Service	19,490
	\$63,567
	\$63,567
Due from: General Fund	\$44,077
Utility Fund	19,490
	\$63,567
	\$63,567

These interfund balances will be paid within the current year. During the year ended September 30, 2014, the City made the following permanent transfers between funds:

Transfers from:

Enterprise Fund:

Water and Sewer Fund	\$340,000
Governmental Funds:	
General Fund	-0-

Note 10 – Assets and Obligations Under Lease

The City has equipment under capital leases. The leases are capitalized and are considered financing sources and are disclosed under the Long-term Debt section of the Notes.

Note 11 – Fund Balance Designations

The total fund balance in the Special Revenue Funds and the Cemetery Trust Fund are designated for specific purposes internally but are not restricted externally.

Note 12 – Pension Plan

Plan Description

The City provides benefits for all of its full-time employees through a nontraditional, joint contributory, defined contribution plan in the state-wide Texas Municipal Retirement System (TMRS), one of over 811 administered by TMRS, an agent multiple-employer public employee retirement system. It is the opinion of TMRS management that the plans in TMRS are substantially defined contribution plans but they have elected to provide voluntary additional disclosure to help foster a better understanding of some of the nontraditional characteristics of the plan.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to the establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150%, or 200%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum if the employee's accumulate contributions with interest and the employer-financed credits with interest were used to purchase an annuity.

Members can retire at ages 60 and above with 10 or more years of service or with 25years of service regardless of age. The plan also provides death and disability benefits. A member is vested after 5 years, but he must leave his accumulated

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

benefits in the plan. If a member withdraws his own money, he is not entitled to the employer-financed monetary credits, even if he was vested. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and with the actuarial constraints also in the statutes.

Contributions

The contribution rate for the employees is 5%, and the City contribution rate is 0.94%, both as adopted by the governing body of the City. Under state law governing TMRS the City contribution rate is annually determined by the actuary. The rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his retirement becomes effective. The prior service contribution rate amortizes the unfunded actuarial liability over the remainder of the plan's 25 year amortization period. When the City periodically adopts updated service credits and increases in annuities in effect, the increased unfunded actuarial liability is amortized over a new 25 year period. Currently, the unfunded actuarial liability is being amortized over a 25 year period which began October, 1994. The unit credit actuarial cost method is being used for determining the city contribution rate. Contributions are made monthly by both the employees and the City. Since the City needs to know its contribution rate in advance to budget for it, there is a one-year lag between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect.

The City's total payroll in fiscal year 2013-2014 was \$483,403, and the City's contributions were based on a payroll of \$436,538. Both the City and the covered employees made required contributions amounting to \$4,102 or 0.94% of the covered payroll for the City and \$21,827 or 5% of the covered payroll for the employees. There were no-related party transactions.

Schedule of Actuarial Liabilities and Funding Progress

Actuarial Valuation Date 12/31/13

Actuarial Value of Assets	\$501,907
Actuarial Accrued Liability	535,273
Percentage Funded	93.8%
Unfunded Actuarial Accrued Liability	33,366

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Unfunded Actuarial Accrued Liability as a Percentage of Covered Payroll	7.6%
Calendar 2013 Covered Payroll	438,339
Net Pension Obligation at the Beginning of Period	-0-
Annual Required Contribution	4,106
Contributions Made	4,106
Net Pension Obligation at the End of Period	-0-

Note 13 – Contingencies and Commitments

Federal and State Programs Contingencies

The City participates in various federal and state assisted grant programs which are subject to financial and compliance audits. Such audits could lead to a request for reimbursement of the grantor agency for expenditure disallowed under terms of the grant. Management believes such disallowance, if any, would be immaterial.

Note 14 – Negative Budget Variances

The City had the following negative budget variances in the General Fund by department:

Solid Waste	\$ 1,763	
General Government	5,599	
City Court	1,105	
Dispatch Service	859	
Park	460	
Senior Citizens	2,175	
Library	2,017	1
Tax Office	74	

Note 15-Cemetery Trust Fund

The Cemetery Trust Fund is reported as a trust fund in the 2013-2014 financial statements and is not included in the government-wide financial statements.

Note 16- De Leon Industrial Development Corporation – A Component Unit

The De Leon Industrial Development Corporation owns real estate that is being rented to promote community Industrial development. The building is financed and subject to depreciation expense. Depreciation is as follows:

	Balance 10-01-13	Additions	Retirements	Balance 9-30-14
Building	\$50,095	-0-	-0-	\$50,095
Accumulated Depreciation	4,863	-0-	1,002	5,865
Net Depreciable Assets	45,232	-0-	1,002	\$44,230

The building purchase was financed with a note payable to the Farmers & Merchants Bank in the amount of \$40,000. The note is payable in monthly payments of \$308.30 including interest at 5 %.

Future requirements are as follows for the years ended September 30:

	Principal	Interest	Total
2015	\$2,561	\$1,138	\$3,699
2016	2,692	1,007	3,699
2017	2,830	870	3,700
2018	2,975	725	3,700
2019	3,127	573	3,700
2020-2021	9,748	727	10,475
 Total	 \$23,933	 5,040	 28,973

City of De Leon, Texas
Notes to Financial Statements
September 30, 2014

Note 19 – Other Items

The City entered into an agreement with the Texas Water Development Board in July of 2014 for construction of waterlines. Originally the City would borrow \$1,350,000 from the Texas Water Development Board for the project. A substantial portion \$828,950 of the loan was forgiven in 2014. The City issued certificates of obligation to fund the portion of the \$1,350,000 loan that was not forgiven in 2014.

Independent Auditor's Report on Internal Control over Financial Reporting and
On Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards

To the Honorable Mayor
And City Council
City of De Leon
De Leon, Texas

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregately discretely presented component units, and the aggregate remaining fund information of the City of De Leon, Texas, as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City of De Leon's basic financial statements, and have issued my report thereon dated July 31, 2015.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the City of De Leon's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of De Leon's internal control. Accordingly, I do not express an opinion on the effectiveness of the City of De Leon's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies.

Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weakness may exist that have not been

identified. I did identify deficiencies that I consider to be significant deficiencies. These significant deficiencies are noted as findings 2014-1 and 2014-2 in the schedule of audit findings.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of De Leon's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with these provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed findings 2014-1, 2014-2, and 2014-3 which are matters that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectively submitted,

Burl D. Lowery
Certified Public Accountant

City of De Leon, Texas
 Schedule of Findings and Questioned Costs
 For the Year Ended September 30, 2014

A. Summary of Auditor's Results

1. Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

Material weakness(es) identified? Yes X No

significant deficiencies identified that are not considered to be material weaknesses? X Yes No

Noncompliance material to financial statements noted? Yes X No

B. Financial Statement Findings

Finding 2014-1: Negative Budget Variances

Condition: The City's actual expenditures exceed the budgeted amounts in several departments.

Criteria: Expenditures of the City are required to be budgeted before the expenditure is incurred. The negative variances indicate expenditures in excess of amounts authorized in the City's general fund operating budget.

Effect: The City has incurred expenditures that were not authorized in its budget.

Recommendation: I recommend that management more closely monitor the budget in the future and obtain budget amendments when needed. The budget should also be reviewed before expenditures are incurred to make certain the expenditures are within the budgeted amounts.

Finding 2014-2: Transfers to Wastewater debt Service, Industrial Development Corporation Street Improvement Fund.

Condition: Transfers of funds collected for debt service and sales taxes collected for specific purposes were not timely transferred to the funds they were collected for.

Criteria: A portion of the monthly collections for wastewater is pledged for debt service. A portion of the City's monthly sales tax collections are collected for industrial development and road improvement.

City of De Leon, Texas
Schedule of Findings and Questioned Costs (Continued)
For the Year Ended September 30, 2014

Effect: The City transferred several months collections at one time and did not transfer the funds monthly as required.

Recommendation: I recommend that management monitor wastewater collections and sales tax collections and make the transfers to the proper funds each month as required.

City of De Leon
Corrective Action Plan
For the Year Ended September 30, 2014

Finding 2014-1: Negative Budget Variances.

The Mayor and City Secretary will monitor the budget status on a regular basis in the future and obtain budget amendments as needed.

Finding 2014-2: Transfers to Wastewater Debt service

The City Secretary will implement procedures to make certain the transfers to the debt service fund and other funds are timely make in the future.

City of De Leon, Texas
Status of Prior Audit Findings
For the Year Ended September 30, 2014

Finding 2013-1 - Negative Budget Variances

The City had negative budget variances in the year ended September 30, 2012. The City also had negative budget variances in the current year as noted on the Schedule of Findings and Questioned Costs.

Finding 2013-2 – Transfers to Wastewater Debt Service. The City as noted in the current audit findings did not timely transfer the utility collections to the Wastewater Debt Service fund monthly as required.

Finding 2013-3 – The year-end financial reports were not complete when printed. Certain line items were omitted before and after page breaks. The current year financial statements were correctly printed.
