#### **Independent Auditor's Report**

To the Honorable Mayor And City Council City of De Leon De Leon, Texas

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of De Leon, Texas as of and for the year ended September 30, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of De Leon, Texas management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of De Leon, Texas as of September 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued by report dated April 19, 2010, on my consideration of the City of De Leon's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

As described in Note 1, The City has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and analysis-for State and Local Governments*, as of September 30, 2004.

The management's discussion and analysis and budgetary comparison information on pages 3 through 9, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries to management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of De Leon, Texas basic financial statements. The introductory section and combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on them.

Respectively submitted,

Bulling

Burl D. Lowery Certified Public Accountant

April 19, 2010

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of City of De Leon's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended September 30, 2009. Please read it in conjunction with the City's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The City's total combined net assets were \$3,075,654 at September 30, 2009 and \$3,053,886 at September 30, 2008.
- During the year, the City's expenses were \$431,403, more than the \$1,089,448 generated in taxes and other revenues for governmental activities before transfers from the Water and Sewer Fund.
- The total cost of the City's programs in the governmental activities was \$1,520,851.
- The general fund reported a fund balance this year of \$1,432.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts-management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual* parts of the government, reporting the City's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
- *Proprietary fund* statements offer *short* and *long-term* financial information about the activities the government operates *like businesses*, such as water and sewer.
- *Fiduciary fund* statements provide information about the financial relationships in which the City acts solely as a *trustee* or *agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

#### **Government-wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report information about the City's net assets and how they have changed. Net assets the difference between the City's assets and liabilities- is one way to measure the City's financial health or *position*.

- Over time, increases or decreases in the City's net assets are an indicator of whether its financial health improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base.

The government-wide financial statements of the City include the *Governmental activities*. Most of the City's basic services are included here, such as fire, police and streets, and general administration. Property taxes and grants finance most of these activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's most significant *funds*-not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following kinds of funds:

- Governmental funds-Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.
- *Proprietary funds*-Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.
- *Fiduciary funds*-The City is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These funds consist of the Cemetery Trust Fund.

#### FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net assets. The City's combined net assets were \$ 3,075,654 at September 30,2009.

The City has restricted net assets of 205,229, which are restricted for cemetery perpetual care, which leaves unrestricted net assets of \$(37,105) which are available to fund future operations of the City.

**Changes in net assets.** The City's total governmental revenues were \$1,089,448. A significant portion, 30%, of the City's revenue comes from property taxes and 31% relates to charges for services.

The total cost of all governmental type programs and services was \$1,520,851; 19% of these costs are for police and 18.1% are for general administration.

#### **Governmental Activities**

- Property tax values have remained fairly stable for the City. Revenues from property taxes were \$325,507 for the 2008-2009 fiscal year.
- Revenues of the Water and Sewer Fund from customers was \$842,788 for the 2008-2009 fiscal year.

#### FINANCIAL ANLYSIS OF THE CITY'S FUNDS

Revenues from governmental fund types in the individual funds totaled \$1,089,987, and \$882,403 in the proprietary funds. The City's property tax base and number of utility customers has remained stable.

#### General Fund Budgetary Highlights

Over the course of the year, the City revised its budget several times. Even with these adjustments, actual expenditures were \$85,669 less than the final budget amounts of the General Fund.

On the other hand, resources available were \$46,470 less than the final budgeted amount.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

At the end of 2009, the City had invested \$4,465,491 in a broad range of capital assets, including land, equipment buildings, and vehicles. There were \$156.052 of additions during the current year.

The City's fiscal year 2009-2010 general fund budget does not include any new construction contracts. However the City is building a wastewater treatment plant\d of approximately \$2.3 million funded with combination tax and revenue certificates of obligation.

#### Long Term Debt

At year-end the City had \$2,728,198 outstanding long-term debt including certificates of obligation fo \$2,350,000 issued in the 2008-2009 year. More detailed information about the City's debt is presented in the notes to the financial statements.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Appraised value and utility customers used for the 2009-2010 budget preparation is approximately the same as the appraised value and number of utility customers for the 2008-2009 budget.
- General operating fund spending decreases in the 2009-2010 budget from \$1,618,289 to \$1,343,649. This is a decrease of 16.9%.

These indicators were taken into account when adopting the general fund budget for 2009-2010. Amounts available for appropriation in the general fund budget are \$1,053,741, a decrease of 6 percent over the final 2008-2009 budget of \$1,121,471.

If these estimates are realized, the City's budgetary general fund balance is not expected to materially change during the 2009-2010 fiscal year.

#### CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Administration.

#### City of De Leon Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance To the Statement of Activities For the Year Ended September 30, 2009

Total net change in fund balance - governmental funds	\$10,142
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. In the Statement of Activities, the cost of these expenditures is capitalized. Polic Cars	\$67,238
Depreciation is not recognized in the governmental funds. The Statement of Activities recognizes depreciation on all depreciable assets.	(\$78,814)
Proceeds from capital leases are not recognized as revenue and other resources in the State of Net Assets	(\$63,469)
Priincipal payments on capital leases are recognized as expenditures in the governmental funds. Principal payments are recognized as a reduction of liabilities in the Statement of Net Assets. Fire Truck Police Cars	\$17,518 \$22,413
Priincipal payments on tax anticipation notesare recognized as expenditures in the governmental funds. Principal payments are recognized as a reduction of liabilities in the Statement of Net Assets.	\$70,000
Because some property taxes are not collected in the fiscal year assessed, the taxes are considered to be "available revenues in the year collected in the governmental funds. Deferred taxes increase by this amount.	\$1,461
Tax anticipation note issuance costs are recorded as an expenditure in the governmental funds but are amortized in the Statement of activities:	
Current year amortization	(\$2,143)
Other reconciling items	
The change in accrued compensated abscenses is not reflected as an expense in the governmental funds, but is in the Statement of Activities	\$3,896
Change in net assets of governmental activities	\$48,242

The accompanying notes are an integral part of this statement.

# Note 1 – Description of City and Reporting Entity

The City of De Leon was incorporated under the provisions of the State of Texas. The City is a home rule city and operated under a Council-Mayor form of government and provides the following services as authorized by its charter: public safety (police and fire), streets, sanitation, health and social services, culture, recreation, public improvements, and general administrative services. Other services include utilities.

## Financial Reporting Entity

As required by the accounting principles generally accepted in the United States of America, these financial statements present the primary government and its component units, entities for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the governmentwide financial statements to emphasize it is legally separate from the primary government.

#### **Component Units:**

The Comanche Gardens of Memory, Inc. transferred its privately owned cemetery, perpetual care fund, cash on hand, and equipment to the De Leon Public Facilities Corporation on February 13, 2001. The De Leon Public Facilities Corporation was created by the City of De Leon to own and operate the Gardens of Memory Cemetery. The City Council appoints the directors of the De Leon Public Facilities Corporation and oversees its operations. The fiscal year of the corporation is the same as the City's fiscal year. The De Leon Economic Development Corporation collects sales taxes to promote economic development in the City of De Leon. The board of directors of the De Leon Economic Development Corporation are appointed by the City Council of the City of De Leon. The fiscal year of the De Leon Economic Development Corporation is the same as the City's fiscal year.

## Note 2 - Summary of Significant Accounting Policies

The financial statements of the City of De Leon have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City also applied Financial Accounting Standards Board (FASB) Statements issued on or before November 30, 1989 to its governmental and business-type activities and to its enterprise funds provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements issued after November 30, 1989 to its principles are described as follows:

## A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

# **Government-wide Financial Statements**

The statement of net assets and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered businesstype activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program of the City's governmental activities and for business-type activities of the City. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and (2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is selffinancing or draws from the general revenues of the City.

## **Fund Financial Statements**

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at the more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

# Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

<u>General Fund</u> – The General Fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in the other funds.

<u>Special Revenue Fund – Parks Improvement</u> – The Parks Improvement Fund is used to account for and administer the parks improvement grant that the City received from the State of Texas.

<u>Cemetery Trust Fund</u> – The Cemetery Trust Fund is a permanent fund. The City in agreement with the De Leon Cemetery Association, a legally separate entity, has restricted the use of the Cemetery Trust Funds to only earnings and not principal. These earnings are transferred to a Cemetery Special Projects Fund for use in maintaining and improving the De Leon Cemetery.

Nonmajor funds are aggregated and presented in a single column. The City's nonmajor governmental funds are as follows:

<u>Special Revenue Funds</u> – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts and major capital projects) that are legally restricted to expenditures for specific purposes.

#### Proprietary Funds

Proprietary funds reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. The City's proprietary funds are all classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods and services. All of the City's enterprise funds are major funds.

<u>Water and Sewer Fund</u> – The Water and Sewer Fund is used to account for operation of the water and sewer departments of the City. The fund's operations are financed primarily through user charges.

#### B. Measurement Focus

**Government-wide Financial Statements** – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the City are included on the statement

of net assets. The statement of activities presents the operations of the City in a format that reports the net revenues (expenses) of its individual functions.

**Fund Financial Statements** – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of the current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements of the governmental funds.

Like government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of changes in revenues, expenses, and changes in fund net assets presents revenues and expenses in total net assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

When the City incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the City's policy to use restricted resources first, then unrestricted resources.

## C. Basis of Accounting

# Government-wide Financial Statements and Proprietary Fund Financial Statements

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting: proprietary and fiduciary funds also use the accrual basis of accounting.

Under the accrual basis of accounting, revenues are recognized when earned. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

#### **Governmental Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual: i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Major revenue sources susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, and charges for services. The City considers property taxes as available when they are collected. Fines and permits are recorded as revenues when received. Sales taxes are collected by the State of Texas and subsequently remitted to the City and are recognized as revenue when received by the City. Grant funds are earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenue until earned.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

#### D. Budget Process

Prior to October 1 of each year the Mayor submits to the City Council a proposed operating budget for the upcoming fiscal year. The operating budget includes proposed expenditures and the means of financing them. The City holds a public hearing on the proposed budget at least ten days prior to adoption as required by law. Prior to October 1 each year the budget is legally enacted through the passage of an ordinance.

The City uses a modified accrual basis for budgeting in governmental funds. The major governmental fund – General Fund and Special Revenue Fund – Parks Improvement are presented in budgetary comparison schedules as required supplemental information. Nonmajor governmental funds that adopt budgets present budgetary comparison schedules in other supplemental information.

The budgetary comparison schedules shown in the accompanying supplemental information present comparisons of the legally adopted budget, as amended, with actual results. The originally adopted budget is presented for purposes of comparison to the final, amended budget.

## E. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Proprietary Funds consider all highly liquid investments with a maturity of three months or less at the time of purchase as cash equivalents.

# F. Inventories

The City uses the purchases method of accounting for inventories for all areas except the Water and Sewer Fund supplies. Under the purchases method materials and supplies are recorded as expenditures when purchased.

The supplies in the Water and Sewer Fund are expended when used. A physical inventory of the supplies is performed as of the end of the fiscal year. The inventory is valued at cost on the first-in first-out method.

# G. Restricted Cash

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

## H. Capital Assets

General capital assets are capital assets that are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are reported at their fair market value as of the date received. The City's infrastructure consists of City streets, streetlights, and signs, and water and sewer systems. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All capital assets are depreciated, except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements.

Capital outlays are recorded as expenditures of the General and Special Revenue Funds and as assets in the government-wide financial statements to the extent the City's capitalization threshold of \$5,000 is met. In accordance with GASB Statement No. 34, infrastructure has been capitalized retroactively. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method.

To the extent the City's capitalization threshold of \$5,000 is met, capital outlays of the Proprietary Funds are recorded as fixed assets and depreciated over their estimated useful lives in both the fund financial statements and the government-wide financial statements using a straight-line method.

The following estimated useful lives in years are used in computing the straight-line depreciation:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives	Estimated Lives
Buildings and improvements	40	40
Machinery and equipment	5-10	5-10
Vehicles	5-10	5-10
Infrastructure	40	40

## I. Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the Government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary fund types are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources, are reported as obligations of the funds. Long-term loans and leases are recognized as a liability on the governmental fund financial statements when due.

# J. Governmental Fund Designated Fund Balances

The City designates portions of fund balances which are legally segregated for a specific future use. Fund balances have been designated in the Cemetery Trust Fund.

## K. Net Assets

Net assets represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement on their use through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

## L. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water, sewer, and sanitation.

# M. Contributions of Capital

Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction.

## N. Interfund Receivables and Payables

During the course of operations, many transactions occur between individual funds for various reasons. The short-term receivables and payables between the individual funds are classified as "Interfund Receivables" and "Interfund Payables".

Permanent transfers of revenues between funds are classified as "Transfers in" and "Transfers out" in the individual funds. The Council approves the permanent transfers of funds at the Council meetings. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported in the same manner as general revenues. Any residual balances outstanding between the governmental activities and the businesstype activities are reported in the statement of net assets as "internal balances".

## O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported

amounts of revenues and expenditures/expenses during the reporting period. As such, actual results could differ from those estimates.

## P. Compensated Absences

Vacation and sick leave benefits are accrued monthly as earned. The liability for these accrued benefits is reported as accrued compensated balances. This liability is reported as a current liability in the proprietary fund types, and as a general long-term liability in the governmental funds, except for the portion deemed to be current, if any.

# Q. Risk Management

The City is exposed to various risks related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year 2009, the City purchased insurance coverage to cover potential risks. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

# Note 3 – Deposits and Investments

## Primary Government

The City maintains a cash pool, which includes the cash balances of the General Fund, Water and Sewer Fund and Municipal Court Fund. The Cemetery Trust Fund and the remaining Special Revenue Funds maintain their separate bank accounts and banking records.

Deposits – State statutes require that all deposits in financial institutions be fully collateralized by U. S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. The Farmers and Merchants Bank of De Leon, Texas is the primary depository of the City.

Carrying Bank Primary Government: Amount Balances Petty Cash \$650 Cash in Bank: **Governmental** Activities 239,058 303,832 **Business-type** Activities 266,310 213,764 Investments: Governmental Activities: Certificates of Deposit 235,385 235,385 TEXPOOL 1,281 1,281 **Business-type** Activities: Certificates of Deposit 154,686 154,686 208,524 208,524 TEXPOOL **Restricted for Construction** Cash in Bank 40.395 40.395 **US Bank Construction Escrow** 2,194,165 2,194,165 \$3,340,454 3,352,032 **Total Primary Government** 

At September 30, 2009, the City had the following cash and investments:

As of September 30, 2009, the total bank balance above was covered by FDIC coverage in the amount of \$250,000 and pledged securities with a market value of \$1,890,979 which were pledged by the Farmers and Merchants Bank to the City.

The City's deposits are categorized to give an indication of the level of risk assumed by the City at year-end.

Category 1 includes deposits that are insured or registered of for which the securities held by the City or its agent in the City's name.

Category 2 includes uninsured and unregistered deposits for which securities are held by the counterpart's trust department or agent in the City's name.

Category 3 includes uninsured and unregistered deposits for which the securities are held by the counterparty, or by its trust department or agent but not in the City's name.

Based on these levels of risk, all of the City's deposits are classified as Category 1.

#### Deposits - Component Units

The Farmers and Merchants Bank is the authorized depository for the De Leon Public Facilities Corporation and the Economic Development Corporation.

At September 30, 2009, cash and investments were invested as follows:

	Carrying <u>Amount</u>	Bank <u>Balances</u>
Component Unit:		
Cash in Bank	\$103,954	103,841
Certificates of Deposit	72,174	72,174
Total Cash and Investments	\$176,128	176,015

The De Leon Public Facilities Corporation and the Economic Development Corporation are also categorized to give an indication of the level of risk assumed by the Corporation at year-end. Based on the three levels of risk discussed above, all of the Corporation's deposits are classified as Category 1.

## Investments - Primary Government

The City is required by Government Code Chapter 2256, Public Funds Investment Act, to adopt, implement, and publicize an investment policy. The Public Funds Investment Act requires an annual audit of the investment practices. Audit procedures in this area conducted as a part of the audit of the general purpose financial statements disclosed that in the areas on investment practices, management reports and establishment of appropriate policies, the City adhered to the requirements of the Act.

The Act determines the types of investment, which are allowable for the City. These include, with certain restrictions, (1) obligations of the U. S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds.

The City's investments consist of certificates of deposit and deposits with TEXPOOL All of the certificates of deposit are fully collateralized with FDIC coverage and pledged securities.

The carrying amount by type of investment is classified into the following three categories of credit risk:

Category 1 - Insured, registered, or securities held by the entity or its agent in the entity's name.

Category 2 – Uninsured or unregistered, with securities held by the counterparty's trust department or agent in the City's name.

Category 3 - Uninsured and unregistered, with the securities held by the counterparty, or by its trust department or agent but not in the City's name.

The City's investments at September 20, 2009 are as follows:

				Reported	Fair
	Category 1	Category 2	Category 3	Amount	Value
Primary Government:					
Time Deposits	\$390,071			390,071	390,071
TEXPOOL				209,805	209,805
				<u> </u>	
Total Primary	\$390,071			599,876	599,876
Government					
Component Units:					
Time Deposits	\$72,174			72,174	72,174

Public Funds Investment Pool – Public funds investment pools in Texas are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: (1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; (2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; (3) maintain a market value of its underlying investment portfolio within one half of one percent of its shares.

The City's investment in Pools are reported at an amount determined to be fair value per share of the pool's underlying portfolio, unless the pool is a 2a-7 like, in which case they are reported at share value. A 2a-7 like pool is one which is not registered with the Securities and Exchange Commission as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with SEC's Rule 2a7 of the Investment Company Act of 1940.

#### Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and if so, the reporting of certain disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk, but had these investments:

TEXPOOL \$209,805 AAA Rated

b. Custodial Risk

Deposits are exposed to custodial risk if they are not covered by depository insurance and the deposits are uncollaterized, collaterized with securities held by the pledging financial institution, or collaterized with securities held by the pledging financial institution's trust department or agent but not in the City's name.

Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent in the City's name.

At year end, the City was not exposed to custodial credit risk.

c. Concentration of Credit Risk

The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end the City was not exposed to interest rate risk.

c. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

Note 5 – Property Taxes

Taxes are levied each October 1 and the tax rate is set by the Council. Taxes are based on the assessed (appraised) value listed as of the prior January 1 for all real and business personal property located in the City. Taxable assessed value represents the appraisal value less applicable exemptions authorized by the City.

Taxes are due on October 1, the levy date, and are delinquent after the following January 31. Tax liens are automatic on January 1 each year. All uncollected taxes are reclassified as delinquent as of July 1 each year. At that time, 15% collection costs may be added to all delinquent accounts.

Property taxes are recorded as receivables and deferred revenues at the time the taxes are assessed. In governmental funds, revenues are recognized as the related ad valorem taxes are collected. In the government-wide financial statements, the entire levy is recognized as revenue, net of estimated uncollectible amounts, at the time of the levy.

Taxes are collected by the City's tax office which operates jointly with the De Leon Independent School District.

### Note 6 – Receivables

The receivables of the City of De Leon as of September 30, 2009 are as follows:

Delinquent ad valorem taxes Customers and other Due from State	<u>General</u> \$36,680 42,234	Special <u>Revenue</u>	Business-Type Activities <u>Water &amp; Sewer</u> 137,603	<u>Total</u> 36,680 179,837
Total Gross Receivables	\$78,914		137,603	216,517
Less allowance for uncollectible accounts	9,535			9,535
				·
Net Receivables	\$69,379 		137,603	206,982

Governmental Activities (General Fund) recognize an allowance for uncollectible taxes based on historical tax collection data. The City's Water and Sewer Fund utilizes the direct charge-off method with no allowance for uncollectible accounts. Historically write-offs of bad debts in the Water and Sewer Fund have not been material. Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. Deferred revenues in the governmental funds at September 30, 2009 consisted of the following:

Unavailable: Delinquent property taxes, net	\$27,145
Total Deferred Revenue	\$27,145

#### Note 7 - Interfund Receivables and Payables

**Fund Financial Statements** 

The interfund receivables and payables at September 30, 2009 are as follows:

Due to:	Cemetery Trust Fund Road Maintenance Fund	\$15,597 5,143
		. <u> </u>
Total Du	ie to	\$20,740
Due from	n: General Fund	\$20,740
Total Du	e from	\$20,740

These interfund balances will be paid within the current year.

During the year ended September 30, 2009, the City made the following permanent transfers between funds:

Transfers from:	
Enterprise Fund:	
Water and Sewer Fund	\$479,645
Governmental Funds:	
General Fund	-0-
Total Transfers from	\$479,645
Transfers to:	

Governmental Activities: General Fund	\$440,000
Special Revenue Fund: Wastewater Improvement	39,645
Total Transfers to	\$479,645

Permanent transfers between the Water and Sewer Fund and the General Fund are made annually to supplement the General Fund's resources. Transfers between the Water and Sewer Fund and the Special Revenue – Wastewater Improvement Fund are made monthly to provide resources to improve the City's wastewater treatment plant.

#### Note 8 - Capital Assets

Capital assets activity for the year ended September 30, 2009 is as follows:

	Balance 10-1-2008	Additions/ Adjustments	Retirement/ Adjustments	Balance <u>9-3</u> 0-2009
<b>Governmental Activities</b>				
Infrastructure	\$380,000			380,000
Buildings & improvements	5 748,069	1,208,346		1,956,415
Machinery & equipment	625,642	67,238		692,880
Total Assets Being	·			·
Depreciated	1,753,711	1,275,584		3,029,295
Less accumulated				
Depreciation	1,090,385		78,814	1,169,199

<b>Business-type Activities</b>				
Infrastructure	\$1,256,293	32,690		1,288,983
Machinery & equipment	119,398			119,398
Total Assets Being				
Depreciated	1,375,691	32,690		1,408,381
Less accumulated				
Depreciation	897,921		62,236	960,157
Net Business-Type				. <u> </u>
Assets	\$477,770	24,860	62,236	448,224

Parks improvement construction in progress \$1,208,346 as of September 30, 2008. This was transferred to capital assets in 2008-2009.

Wastewater plant construction in progress at September 30, 2009 was \$27,905.

Depreciation expense was charged as direct expense to programs of the primary government as follows:

Governmental Activities:	
General Administration	\$21,708
Street Department	16,491
Police Department	30,478
Municipal Court	3,530
Animal shelter	1,418
Park	5,189
Total Governmental Activities	\$78,814 
Business-type Activities:	
Water and Sewer Department	\$62,236
	. <u> </u>
Total Business-type Activities	\$62,236

### Note – Long-term Debt

At September 30, 2009 the City's long-term debt consisted of the following:

Capital Leases	Governmental
Capital lease purchase – fire truck October, 2005 for \$118,260 Annual installment of \$19,710 including 4% interest.	37,135
Capital lease purchase – police cars January 2009 for \$63,475 Annual installment of \$22,413 including 6% interest Total Capital Leases	41,064 \$78,199

# **Tax Anticipation Note**

Tax anticipation note – parks improvement Series 2006 October 2006 for \$500,000 7 year note 4.15% Interest

Total Tax Anticipation Notes

\$300,000

A summary of changes in long-term debt is as follows:

	Balance 10-1-2008	Issued/ Adjustments	Retired	Balance 9-30-2009
Capital Leases	\$ 54,659	63,475	<u>39,935</u>	78,199
Tax Anticipation Note	370,000		70,000	300,000
Total Long-term Debt	\$424,659	63,475	109,935	378,199

The annual requirements on all debt outstanding as of September 30, 2009 are as follows:

#### **Governmental Activities**

Principal	<u>Interest</u>	<u>Total</u>
108,154	14,967	123,121
115,405	10,024	125,069

80,000	1,660	81,660
<u> </u>		<u> </u>
\$ 378,199	31,527	409,726
	108,154 115,405 75,000 80,000	108,154       14,967         115,405       10,024         75,000       4,876         80,000       1,660         \$ 378,199       31,527

#### **Business-type Activities**

The City issued Combination Tax and Revenue Certificates of Obligation July 29, 2009 in the amount of \$2,350,000 to fund the construction of a wastewater treatment plant. The Certificates are to be repaid over a twenty year period and have zero interest.

Future payment requirements are as follows:

Principal payment only:		
2010	\$120,000	
2011	120,000	
2012	120,000	
2013	120,000	
2014	120,000	
2015-2019	600,000	
2020-2024	575,000	
2025-2029	575,000	
Total	\$2,350,000	

#### Note 10 – Assets and Obligations Under Lease

The City has equipment under capital leases. The leases are capitalized and are considered financing sources and are disclosed under the Long-term Debt section of the Notes.

#### Note 11 – Fund Balance Designations

The total fund balance in the Special Revenue Funds and the Cemetery Trust Fund are designated for specific purposes internally but are not restricted externally.

#### Note 12 – Pension Plan

#### Plan Description

The City provides benefits for all of its full-time employees through a nontraditional, joint contributory, defined contribution plan in the state-wide Texas Municipal Retirement System (TMRS), one of over 811 administered by TMRS, an agent multiple-employer public employee retirement system. It is the opinion of TMRS management that the plans in TMRS are substantially defined contribution plans but they have elected to provide voluntary additional disclosure to help foster a better understanding of some of the nontraditional characteristics of the plan.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the City financed monetary credits, with interest. At the date the plan began, the City granted monetary credits for service rendered before the plan began of a theoretical amount equal to two times what would have been contributed by the employee, with interest, prior to the establishment of the plan. Monetary credits for service since the plan began are a percent (100%, 150%, or 200%) of the employee's accumulated contributions. In addition, the City can grant as often as annually another type of monetary credit referred to as an updated service credit which is

theoretical amount which, when added to the employee's accumulated contributions and the monetary credits for service since the plan began, would be the total monetary credits for service since the plan began, would be the total monetary credits and employee contributions accumulated with interest if the current employee contribution rate and City matching had always been in existence and if the employee's salary had always been the average of his salary in the last three years that are one year before the effective date. At retirement, the benefit is calculated as if the sum if the employee's accumulate contributions with interest and the employerfinanced credits with interest were used to purchase an annuity.

Members can retire at ages 60 and above with 10 or more years of service or with 25 years of service regardless of age. The plan also provides death and disability benefits. A member is vested after 5 years, but he must leave his accumulated benefits in the plan. If a member withdraws his own money, he is not entitled to the employer-financed monetary credits, even if he was vested. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and with the actuarial constraints also in the statutes.

#### Contributions

The contribution rate for the employees is 5%, and the City contribution rate is 3.83%, both as adopted by the governing body of the City. Under state law governing TMRS the City contribution rate is annually determined by the actuary. The rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to b a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his retirement becomes effective. The prior service contribution rate amortizes the unfunded actuarial liability over the remainder of the plan's 25 year amortization period. When the City periodically adopts updated service credits and increases in annuities in effect, the increased unfunded actuarial liability is amortized over a new 25 year period. Currently, the unfunded actuarial liability is being amortized over a 25 year period which began October, 1994. The unit credit actuarial cost method is being used for determining the city contribution rate. Contributions are made monthly by both the employees and the City. Since the City needs to know its contribution rate in advance to budget for it, there is a one-year lag between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect.

The City's total payroll in fiscal year 2008-2009 was \$471,312, and the City's contributions were based on a payroll of \$438,109. Both the City and the covered employees made required contributions amounting to \$17,389 (4.5% of the covered

payroll for the months in calendar 2008 and 3.83% for the months in calendar 2009 for the City and 5% for the employees). There were no-related party transactions.

#### Schedule of Actuarial Liabilities and Funding Progress

Actuarial Valuation Date 12/31/08	
Actuarial Value of Assets	\$326,525
Actuarial Accrued Liability	399,636
Percentage Funded	81.7%
Unfunded Actuarial Accrued Liability	73,111
Unfunded Actuarial Accrued Liability as a Percentage of Covered Payroll	16.2%
Calendar 2008 Covered Payroll	438,109
Net Pension Obligation at the Beginning of Period	-0-
Annual Required Contribution	17,859
Contributions Made	17,859
Net Pension Obligation at the End of Period	-0-

### Note 13 - Contingencies and Commitments

#### Federal and State Programs Contingencies

The City participates in various federal and state assisted grant programs which are subject to financial and compliance audits. Such audits could lead to a request for reimbursement of the grantor agency for expenditure disallowed under terms of the grant. Management believes such disallowance, if any, would be immaterial.

#### Note 14 - Negative Budget Variances

The City had the following negative budget variances in the General Fund by department:

General Government	\$26,881
Library	2,523
Park	50,063

# Note 15-Library Fund

The City is the fiscal agent for the City County Library special revenue fund beginning with the current year. The Fund had a beginning fund balance of \$59,384 which is shown as a fund balance adjustment in the City financial statements.

Required Supplementary Information Other Than MD&A

#### **Independent Auditor's Report**

<u>Report on Compliance and on Internal Control over Financial</u> <u>Reporting Based on an Audit of Financial Statements Performed</u> <u>In Accordance with Government Auditing Standards</u>

To the Honorable Mayor And City Council City of De Leon De Leon, Texas

I have audited the basic financial statements of the City of De Leon, Texas as of and for the year ended September 30, 2009, and have issued my report thereon dated April 19, 2010. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the **Government Auditing Standards**, issued by the Comptroller General of the United States.

#### **Compliance**

As a part of obtaining reasonable assurance about whether the City of De Leon's basic financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and accordingly, I don not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under **Government Auditing Standards**.

#### Internal Control Over Financial Reporting

In planning and performing my audit, I considered the City of De Leon's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be a material weakness. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by the employees in the normal course of performing their assigned functions. I noted no matters involving internal control that I feel are reportable conditions as defined above.

This report in intended solely for the information and use of management, others within the organization and the City Council and is not intended to be and should not be used by anyone other than those specified parties.

Respectfully submitted,

Bue The
