If vending at Twentynine Palms location, City Business License #: _____

If vending at Desert Hot Springs location, City Business License #: _____

Business Liability Insurance Provider (attach copy): _____

I have read and agree to the below information:

- Only farmers with current California Certified Producer certificates can sell fresh fruits and vegetables, cut flowers, nuts, meat and eggs, and some other products.
- Grocery and prepared food vendors must have a Temporary Food Facility Permit and/or Cottage (Commercial) Food Registration and sometimes a Processed Food Registration.
- All vendors must have General Business Liability insurance.
- Market farmers and vendors **must participate on the agreed upon schedule** (rain or shine) in order to maintain the trust of our loyal, engaged shoppers. Missing your scheduled dates will result in removal from the market. Emergencies should be conveyed to market owner via text to 760-401-0028 as soon as possible.
- We look for grocery and non-food items produced locally, *preferably sold by the maker*, in keeping with our emphasis on local farmers. Grocery products including jams and jellies, pickles, mustards, granola, baking mixes, quality grains, and dairy products are currently needed at market.
- We have limited space for **non-food** vendors and look for original products, not resale.
- We will have designated as Small Business Market Days. Whether information booths or selling merchandise, businesses must adhere to the same set up and fee requirements.
- Vendors must provide their own canopy with weights (and screening and tarps for food vendors) and a banner stating the business name. Booths must be set up, ready to sell at opening time and must remain in place until closing time.
- Vendors are accepted at the discretion of the market owner. Additionally, all vendors' spaces will be assigned by the market owner.
