WHY SHOULD I GET THE COVID-19 VACCINE?

Getting the COVID-19 vaccine helps protect you and your loved ones from getting COVID-19. The vaccine helps protect you even if you already had COVID-19 and recovered.

IS THE COVID-19 VACCINE SAFE?

Yes. Researchers took no safety shortcuts and large studies show that the vaccines are safe. All vaccine trials included people from different ages, races, ethnicities, and different medical conditions.

CAN I GET COVID-19 FROM THE VACCINE? WILL IT CHANGE MY DNA?

No. The vaccines cannot give you COVID-19. The vaccines do not contain a live virus and it is impossible for the vaccines to change your DNA.

DO I HAVE TO PAY FOR THE VACCINE?

No. You do not have to pay for the COVID-19 vaccine. The vaccine is free for everyone.

WHO CAN GET THE VACCINE?

Everyone ages 16 or older who lives or works in Lake County can register to get vaccinated. You do not have to be a citizen and you do not need insurance to register and receive the vaccine.

HOW DO I GET THE VACCINE?

Register for the COVID-19 vaccine at AllVax.lakecohealth.org or call (847) 377-8130. You will be notified when it's your turn to schedule your vaccine. For more options, visit lakecountyil.gov/vaccine.

ALLVAX

WHAT IF I DECIDE NOT TO GET THE VACCINE?

Registering on AllVax saves your spot in line for the vaccine. Signing up does not mean that you have to get the vaccine.
