News from around Town...

## November 2018

**We are happy to announce our New Website!**

We're excited to have launched our new website that will help us provide a better city government experience for residents, businesses and visitors.

The new website includes a mobile-friendly interface that adapts to all devices (phone, tablets, laptops, desktops), security protocol to protect visitor privacy and a content management system that allows internal staff to easily and regularly maintain online services.

Key features include type-ahead search and easy access to frequently asked questions, meetings, events and issue reporting.

In addition, we have consolidated web services and pulled the Fairfax Police and Fairfax Recreation websites into the Town website. In the New Year we will be working the Fairfax Open Space and the Town Volunteers to support their websites as well. This has been a huge undertaking and is still a work in progress but we hope that the new site is a service to our community that will continue to improve in 2019 and beyond!
