

# TOWN OF FAIRFAX

## STAFF REPORT

### February 4, 2015

**TO:** Mayor and Town Council

**FROM:** Garrett Toy, Town Manager *GT*

**SUBJECT:** Accept report, including equipment list, on the Town's participation in the Excess Property Program of the US Department of Defense

---

#### RECOMMENDATION

Accept report, including the list of property received, on the Town's participation in the Excess Property Program of the US Department of Defense.

#### DISCUSSION

At its January 14<sup>th</sup> meeting, the Council accepted a report on the details of the Town's participation in the US Department of Defense surplus military equipment program (1033 Program) and requested staff return with a list of the equipment received. Attached is the list of equipment received. The items highlighted in yellow indicate the equipment the Police Department (PD) is retaining.

The Town began participating in the 1033 program in 2011 and started receiving equipment (no vehicles) in 2012. In essence, staff completed a form by checking boxes with minimal information on what the Town would actually receive. At the time, it seemed reasonable to participate since the PD would be able to acquire equipment that they needed, but could not purchase. However, most of the items received were not useable.

About 12 months ago, Chief Morin decided to stop participating in the program, meaning no further items were acquired or will be acquired under this program. During the past 12 months, PD has worked to catalog and send back everything that PD didn't have a use for. PD is permitted to discard certain items (e.g., flashlights), but many items have been returned or are in the process of being returned via the specific process required by the 1033 program. In some cases, PD did not in fact receive the equipment requested. In the interim, PD is keeping 7 rifles and sights used solely for range training, not duty use, to reduce the wear and tear on the rifles stored in the vehicles. However, PD plans to return the rifles and sights this year due to their condition and the annual reporting requirements for the equipment.

The Chief indicates that the program was much more trouble than it was worth, given the time required to catalog and return the equipment.

#### FISCAL IMPACT
