TOWN OF FAIRFAX

Jan. 13, 2014

Dear Fairfax Council Members,

It is crucial that you unanimously pass Ordinance 775 prohibiting the installation of SmartMeters and related equipment in the Town of Fairfax for 3 years. Fairfax is a healthier town because of our current Moratorium and thanks to our town council, Fairfax residents have been saving money by not having to pay to PGE the monthly fee for the "privilege" of not having a SmartMeter on their property!

As I've mentioned in the past, clients want to buy or rent homes in Fairfax just because of this Moratorium. Fairfax is known and respected throughout the country because of this stand against SmartMeters.

With thanks,

Diane Hoffman

33 Porteous Ave.

Fairfax, Ca 19130
