WILDFIRE

HOME HARDENING WORKSHOP

For Building Industry Professionals

FIREWISE USA™
RESIDENTS REDUCING WILDFIRE RISKS

CSAA Insurance Group,
a AAA Insurer

Attention Building Industry Professionals! You're invited to attend a FREE 4-hour seminar on wildfire home-hardening.

- 1PM-4PM Seminar for Building Professionals
- 4PM-5PM Manufacturer Showcase and Live Burn Demo

Recognizing that "home-hardening" through improved architectural design, ember and ignition resistant material selection, and retrofitting of existing buildings are the most important factors in improving home survival during wildfires, FIRE Safe MARIN has developed a seminar and training curriculum to introduce building professionals to these concepts.

Taught by experts in the field of wildfire, home hardening, and building science, this seminar is intended for building industry professionals to:

- Train the contractor, handyman, architect, and owner/builder to recognize structural vulnerabilities to wildfires and embers;
- Introduce ignition and ember resistant designs and materials;
- Provide home-hardening and retrofitting resources;
- Encourage building modifications to reduce the likelihood of structural ignitions during wildfires;
- Develop a list of contractors to provide Marin homeowners with access to knowledgeable professionals

Weather permitting, a live fire demonstration will be conducted at 5PM.

Register today at www.firesafemarin.org/events

FIRE Safe MARIN has partnered with CSAA Insurance Group (a AAA insurer) to bring building professionals the most up-to-date knowledge on home-hardening for wildfire.
