

# MARIN COUNTY CERT HYBRID TRAINING

The CERT training teaches you basic disaster response skills so you can safely help yourself, your family, and your neighbors in the event of a disaster when professional first responders aren't available.

Due to the pandemic, the CERT basic training is now being offered as a combination of online training and a one-day hands-on, skills training on Saturday, May 15. All public health guidelines and safety protocols will be followed.

The online training is estimated to take 10-12 hours and is comprised of 8 Units of instruction and one exam. Each unit has a quiz which must be passed before continuing to the next unit.

Marin County CERT will offer weekly online Office Hours starting Thursday, March 25 from 5:30–6:30pm to answer questions you might have while taking the online training. You will be sent a link after you register. For more information, visit [ReadyMarin.org](http://ReadyMarin.org).

**Register today and get started!**

**COST: \$50\***
