

Discuss Bond Measure for Road Repairs

Heather Abrams, Town Manager

January 10, 2024

Fairfax Roads - Now

- The Town scored a 55 out of 100 for our overall average Pavement Condition Index (PCI)
- Fairfax roads are ranked the worst for municipalities within Marin County
- Spending \$500K/year will result in a PCI of 51 over the next 5 years

*Developed by the U. S. Army Corp of Engineers during World War II and standardized by ASTM, the PCI is an objective and rational basis for determining pavement condition and establishing maintenance priorities.

Possible Solutions

- Continue allocating resources as available
- Increase revenues
 - Consider sales tax increase
 - Consider general obligation bond (Measure K example)

Next Steps – This is just the first discussion

- Determine Council interest
- Survey/poll voters
- Return to Council with survey results
- Road Repair project planning
- Council consider adding measure to November 2024 Ballot
- Voter campaign
- Voter approval
- Road Repair project implementation
