# When we all respond, we contribute to a better future for Puerto Rico.

Every 10 years, the federal government counts everyone who lives in the United States. The 2020 Census will inform the distribution of more than \$675 billion annually in federal funds to communities across the country, including communities in Puerto Rico.

To ensure an accurate count, remember to:

Count every person living in your home, regardless of place of origin, including newborns and children.

Respond using the address where you were living on April 1, 2020.

## Responding to the 2020 Census is:

- › **Safe.** Your personal information is confidential and protected by federal law. The census will not ask for your social security number, bank account, or credit card information.
- › **Easy.** Invest a few minutes to complete your form online, by phone, or by mail. Census Bureau staff with identification will visit your home to deliver your questionnaire. From May - July 2020, census takers will visit households that have not yet responded. A census taker can assist if you need help completing your form.
- › **Important.** The 2020 Census will help determine funding for Puerto Rico for the next 10 years for things like health care, infrastructure, and education.
