Communications from Citizens

Chris Monticchio – Mr. Monticchio had comments concerning 4865 Libhart Mill Road, Lavender Acres. Mr. Monticchio thanked Mr. Test for being transparent and providing information concerning the meeting held on August 21, 2025 at Lavender Acres with the York County Conservation District. Mr. Monticchio stated that the current "phased plan" is not the recorded plan. He stated that he believes that the current "phased plan" is illegal and that Hellam Township's ordinance concerning Land Development is clear that if there is any change to use the plan must go back through the approval process. He also stated that there are no phase 2 or 3 plans. He also advised that business activities continue at the property. He also stated that advertising continues as the Lavender Acres sign is still in place and that "opening soon" is on the sign. He said that he feels the owner, William Hewitt, is disregarding the Township's letter.

Stephanie Heisey – Ms. Heisey wanted to discuss Pa House Bill 589-2026, Landslide and Sinkhole Insurance Program. She asked that people call their representative and say they support the bill as Hellam

Township has numerous slopes that could lead to landslide and that there are sinkholes along the river. Ms. Heisey asked what is going to be done concerning the blight in the Township. Ms. Heisey stated that there are many blighted properties in the Township and that the blight affects property values of non-blighted properties. She advised that there are several collapsing barns that add to the blight problem. She told everyone that the State does provide funding to help with blight.

Barry Miller – Mr. Miller asked about the status of the River Dr culvert project. He was advised that the Township is still attempting to acquire funding.

Katina Snyder – Ms. Snyder is curious as to what defines blight. She stated that she would prefer to look at a collapsing barn rather than look at a warehouse. She stated that she considers the warehouse blight. Supervisor Otterbein responded that the Commonwealth has a very specific definition of blight.

Christopher stated that option was considered and eventually disregarded by the well driller, Myers Brothers. The Browns were asked if they had spoken to their neighbors and they stated they had. Mr. Test was asked if there are any requirements that the neighbors be advised of this waiver request. He stated that to his knowledge there is no requirement.
