

Low Service Flushing Program 6/7/25 from 7am-4pm

LOW SERVICE FLUSHING

Holyoke Water Works Will be flushing the Low Service distribution zone (Red topped hydrants) on Saturday 6/7/25 at 7am until flushing is complete. Only certain hydrants will be flushed to limit disturbances to our customers. Customers may see temporary disruptions in water quality including discoloration, pressure changes, or air in the water which can give it a “milky” appearance when hydrant flushing takes place in your neighborhood. If you have any questions or water quality concerns, please call 413-532-6778. Thank you.

Holyoke Water Works Vaciará la zona de distribución de alto servicio (hidrantes con cubierta rojo) a partir del sabado 6/7/2025 a las 7 de la mañana. El lavado continuará hasta hasta que se complete el trabajo. Solo se descargarán ciertos hidrantes para limitar las molestias a nuestros clientes. Los clientes pueden ver interrupciones temporales en la calidad del agua, incluida la decoloración, los cambios de presión o el aire en el agua que puede darle una "apariencia lechosa" cuando se realiza el lavado de hidrantes en su vecindario. Si tiene alguna pregunta o inquietud sobre la calidad del agua, llame al 413-532-6778. Gracias.
