1. New Water Service includes the deposit for labor, materials and equipment for new water service including water meter. The balance will be billed upon completion of installation.
2. New or replacement water meter includes the full payment of the water meter, strainer, connector couplings, tamper-proof device and associated labor. A deposit of \$250 is required for repair or replacement from the curb stop to the water meter.
3. Water Service larger than 1-inch installed by private contractor. Only a meter charge shall apply.
