Situation Update

Command Center Situation Reports will be issued Monday-Friday.

State Actions in Today’s Report:

- Daily Case Update (link in sidebar)
- Testing Capacity and Strategy, PPE Procurement
- $502 Million From Federal COVID-19 Relief Fund For Cities & Towns
- Update on Mobile Testing Numbers
- Update on Holyoke and Chelsea Soldiers’ Homes
- New Blood Donation Information

Background on the Command Center

The COVID Command Center, under the leadership of Secretary Marylou Sudders and reporting to Governor Charlie Baker and Lt. Governor Karyn Polito, is the Commonwealth’s single point of strategic decision making and coordination for the Administration’s comprehensive COVID-19 response.
State Actions Today

Today, Governor Charlie Baker and Lt. Governor Karyn Polito joined Secretary of Health and Human Services Marylou Sudders to provide an update on the COVID-19 response. (Read the news release) (See video here).

The Governor provided his daily update on testing, hospitalizations, PPE distribution, and long-term testing in Massachusetts. Lt. Governor Polito reiterated the state’s message to survivors of domestic violence.

Daily Update on Testing, Hospitalizations, and PPE Distribution

Testing:
- Yesterday (May 13th) approximately 8,500 new tests were reported in Massachusetts. Over 410,000 total tests have been completed to date.
  - 14% of yesterday’s tests were positive. Positive test rates have been around 10% for the past week.

Hospitalizations and Capacity:
- As of May 13th, the number of hospitalizations continues to trend downward.
- Approximately 3,000 individuals are reported hospitalized.

Personal Protective Equipment:
- To date, the Commonwealth has delivered over 10.5 million pieces of PPE; this includes masks, gloves, gowns, and ventilators distributed to health care workers, first responders and others.
- The Command Center continues to aggressively pursue all supply chain avenues.

COVID-19 Testing Capacity and Strategy, PPE Procurement

The Baker-Polito Administration announced expanded COVID-19 testing capacity and strategy, and provided an update on personal protective equipment (PPE) procurement.

Testing Plan
As required to secure COVID-19 testing resources allocated in legislation passed by Congress on April 24, the Administration will submit its plan to expand testing to the federal government this month.

The plan builds on previously expanded testing criteria, and calls for the following:
- Boost overall testing capacity to 45,000 daily tests by the end of July, and 75,000 daily tests by the end of December, with the goal of decreasing positivity rate to less than 5 percent.
- Lab processing capacity is also planned to expand, enabling preparedness for a potential testing surge in the fall.
- Testing expansion for residents and patients in high-risk congregate settings like state hospitals, group homes and correctional facilities will continue, and the Administration will ensure testing for individuals who are symptomatic, close contacts of confirmed COVID-19 cases or whose employment places them at a high risk.
- Randomized testing for surveillance purposes to build on the Community Tracing Collaborative’s contact tracing efforts.
- Improved turnaround time of testing to provide same-day or next-day results.
When implementing the new testing proposed in this plan, communities with low testing availability, hotspots with high positive rates and high density areas will be the priorities.

Click here to view today’s testing presentation from the press conference.

CVS Testing Sites
The Baker-Polito Administration and CVS today announced the expansion of self-swab and send testing sites at nine select CVS Pharmacy drive-thru locations throughout the Commonwealth, which will enable on-the-spot COVID-19 testing at no cost, with results available in 2-3 days.

CVS has served as an early partner in Massachusetts’ efforts to expand testing, and these new testing sites build upon the previously announced location in Lowell. These new sites are part of CVS’s first rollout of its national testing expansion program, with a goal of 1,000 testing sites across the country.

The drive-thru CVS testing sites include locations in:
- Charlton
- Worcester
- Raynham
- Northampton
- Bridgewater
- Carver
- West Springfield
- Danvers
- Westport

Individuals who meet testing criteria may register in advance at CVS.com beginning Friday, May 15 to schedule an appointment.

PPE Procurement
The Baker-Polito Administration continues to work to acquire personal protective equipment (PPE) to support frontline workers battling COVID-19. Today, the Administration highlighted the delivery of over 7.5 million additional pieces of PPE and supplies to be delivered to front-line workers throughout the Commonwealth.

From April 20 through this past weekend, this equipment has been brought to Massachusetts through six different chartered flights. The PPE includes over 6 million surgical and procedural masks, about 800,000 swabs, nearly 400,000 coveralls and over 125,000 gowns. The Administration is grateful to the various partners who helped secure and deliver this PPE, including the Chinese Consul General in New York, Huang Ping, OCEANAIR and Delta Airlines.

Administration to Distribute $502 Million from Federal COVID-19 Relief Fund to Cities & Towns
The Baker-Polito Administration today announced that it is preparing to distribute up to $502 million from the federal Coronavirus Relief Fund to local cities and towns for eligible costs related to the COVID-19 response effort. The Administration is also providing guidance to local municipalities on this formal distribution process and establishing protocols to maximize the use of federal resources and promote compliance with federal restrictions.
This distribution, plus funds allocated directly to Boston and Plymouth County, represents approximately 25% of the state’s allocation from the Coronavirus Relief Fund, and in most cases, is expected to be sufficient to address incurred or expected eligible COVID-related expenses. This approach is intended to distribute money to municipalities quickly and efficiently, and maintain necessary flexibility to allocate additional funds if unanticipated needs arise, or if federal rules change. These resources will also help ease municipal cashflow pressures.

The Administration’s distribution process will allow municipalities to apply for estimated Fiscal Year 2020 (FY20) needs. These funds will help address any existing deficits in FY20, thereby avoiding the need to use reserves to fund a deficit or carry one into Fiscal Year 2021 (FY21). Municipalities will then have the opportunity to request funding for FY21 eligible COVID-19 costs at a later date.

These funds must be utilized by municipalities consistent with parameters established by the federal Coronavirus Aid, Relief, and Economic Security Act (the “CARES” Act) and guidance from the US Treasury Department.

Please click here for the full guidance for municipalities regarding the Baker-Polito Administration’s approach to distributing Coronavirus Relief Funds and click here for a letter from Secretary of Administration and Finance Michael J. Heffernan to Municipal Chief Executives.

**Deadline Approaching for Nursing Facility Testing Requirement**

On April 27, the Administration announced a comprehensive nursing home accountability and support policy which includes up to $130 million in new funding to support long care facilities during the COVID-19 pandemic. To access this support package, nursing facilities are **required to conduct baseline testing of staff and residents**. Testing must be completed by **May 25** in order for facilities to be eligible for the enhanced funding. To date, only 10% of nursing facilities have met this requirement.

More information related to the required testing policy can be found here and an FAQ can be found here. As a reminder, facilities have several options for testing which can be found in the FAQ.

Nursing facilities wishing to pursue testing through state-directed methods (COVID Command Center Congregate Care Mobile Testing Program call center), must:

- Call the call center at 617-366-2350 to request testing no later than Monday, May 18\(^{th}\), at 4 PM
- Confirm with the call center that your facility is ready with paperwork to be scheduled no later than Wednesday, May 20\(^{th}\), at 4 PM. The call center will work with you to ensure the requisition requirements are met

Nursing facilities that have not called to request testing by Monday, May 18th, at 4 PM, will not be able to make use of the COVID Command Center Congregate Care Mobile Testing Program and will have to use an alternate testing channel to meet requirements before May 25\(^{th}\).

Other Important Updates

Holyoke Soldiers’ Home Update

- Today, volunteers from the American Red Cross Armed Forces Division are on site with a support services van to provide coffee, snacks, and masks for staff and domiciliary vets.
- The Holyoke Soldiers’ Home has been intently focused on following infection control procedures and maintaining best practices for the safety of veteran residents and staff, and to support the recovery of veterans as the health status of many stabilizes.
- All veteran residents’ health is being monitored and retesting is being conducted for veterans both on- and off-site as clinically appropriate. As results are received, veteran residents are being cohorted and further monitored. Recovery units are being identified and readied for residents.
  - This week, the veterans that are at a dedicated skilled nursing unit at Holyoke Medical Center have all been retested and results are being returned.
- Additional social and recreational activities are also being added back in while maintaining social distance and proper usage of Personal Protective Equipment (PPE).
- The Holyoke Soldiers’ Home Clinical Command continues to respond to the COVID-19 outbreak, monitoring staffing levels, while bringing on additional management staff for nursing, facilities, and administration staff to build capacity for resuming regular operations and moving to the recovery phase; Additionally, infection control staff is developing plans for dedicated recovery units.
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

- Regular family communication continues from Holyoke Soldiers’ Home staff through video chat, using donated iPads, and the Family Hotline is available for ad hoc updates with support from social work and clinical staff.
  - Families can call the Family Hotline at 413-552-4764 Monday - Friday 8:00 a.m. - 4:00 p.m.
  - Families can also request updates via email at CommunicationsMailbox-HLY@Mass.gov.
  - Please note the Soldiers’ Home can only share medical information about a resident with the authorized health care proxy on file. If a family member requests an update and is not the health care proxy, the name of the health care proxy will be shared and it will be suggested that the health care proxy should call and request the update.
- Governor Charlie Baker has advised flags be lowered to half-staff until the end of the public health emergency at the Soldiers' Home in Holyoke, Soldiers' Home in Chelsea, as well as the Massachusetts Veterans Memorial Cemetery in Agawam and Winchendon due to the fact Military Honors are unavailable during this public health crisis.

- The total numbers at the Holyoke Soldiers’ Home as of Thursday May 14:
  - 88 veteran resident deaths (74 positive, 13 negatives, 1 unknown)
  - Testing results of all residents:
    - 74 veteran residents have tested positive
    - 53 veteran residents have tested negative
    - 9 veteran residents have pending tests
  - Resident locations:
    - 104 residents are onsite
    - 32 residents are offsite
      - 31 residents are at a dedicated skilled nursing unit at Holyoke Medical Center
      - 1 resident is receiving acute care offsite
  - 83 employees have tested positive

Chelsea Soldiers’ Home Update

- The Chelsea Soldiers’ Home clinical command continues to respond to the COVID-19 pandemic, including regular coordinating calls with the VA Health Care System, and this week, welcomed the VA Boston Health Care System Incident Commander to collaborate on best practices and further testing.
- Chelsea Clinical Command monitoring and enforcing staff use of personal protective equipment (PPE), and closely monitoring staff levels, supplementing as necessary with support from contracted staff. The Home has reviewed its infection control and clinical operations with additional experts.
  - Staff have been provided PPE core competency training, the entire facility is rounded on daily for infection control quality assurance checks, all units have been provided with educational materials, and there are daily cleanings throughout the facility in addition to frequent terminal cleaning.
- Veteran residents’ health is being monitored and retesting is being conducted for veterans both on- and off-site as clinically appropriate. As results are received, veteran residents are being cohorted and further monitored. Additional isolation space has been identified and is being readied.
- This week, the Chelsea Soldiers’ Home leadership and Board of Trustees accepted a generous donation from Brighton Marine of 175 iPads to help keep Veterans stay connected during the pandemic. These iPads will allow for additional video visits between veteran residents and their loved ones, which have been made with support from the Chelsea Soldiers’ Home Social Work team and staff. Families can request updates on their loved ones by contacting the Home at CSH@mass.gov and through phone and video conversations. Medical information can only be shared with an authorized health care proxy.
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

- Governor Charlie Baker has advised flags be lowered to half-staff until the end of the public health emergency at the Soldiers' Home in Chelsea, Soldiers' Home in Holyoke, as well as the Massachusetts Veterans Memorial Cemetery in Agawam and Winchendon due to the fact Military Honors are unavailable during this public health crisis.

- The total numbers at the Chelsea Soldiers’ Home as of Thursday May 14:
  - 38 veteran resident deaths (30 tested positive, 8 tested negative)
  - 36 veteran residents who have tested positive
  - 178 veteran residents who have tested negative
  - 57 staff tested positive

COVID-19 Public Health Data

The Department of Public Health has made available the underlying data files the Department uses each day to produce the COVID-19 Dashboard, as part of a continued effort to expand the amount and type of data released to the public. The data files are updated and posted daily (by 4pm) with the dashboard report for the public, researchers, and media to download. City and town case data are published weekly each Wednesday. (Find the Data Files Here). Key data reflected in today’s report is provided below:

<table>
<thead>
<tr>
<th>New Cases</th>
<th>Confirmed Cases</th>
<th>Deaths of Confirmed COVID-19 Cases</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,685</td>
<td>82,182</td>
<td>5,482</td>

</tr>
</thead>
<tbody>
<tr>
<td>3%</td>
<td>781</td>
<td>14,329</td>
<td>424,361</td>
</tr>
</tbody>
</table>

Please Note: Data from the Massachusetts Department of Correction’s (DOC) on-site testing program is now included in the DPH Daily COVID-19 Dashboard.

Resources

Homeless COVID-19 Isolation Sites

The Commonwealth’s COVID-19 Command Center and MEMA have stood up regional isolation and recovery sites located in hotels across the state (click here for more information). Currently there are sites in Lexington, Pittsfield, Taunton, Northampton, and Everett. These locations are for individuals who:

- Are homeless (people who normally sleep at a shelter, on the street, for whom home is unsafe due to violence, or who do not have a permanent address) AND
- Who are COVID-19 positive OR have a medical provider’s note recommending isolation and can safely isolate without medical supervision.
These sites are for individuals who have mild or moderate symptoms and do not need hospital level of care or nursing facility level of care. Medical treatment is not provided on site. As noted above, individuals must have a positive COVID-19 test or must have been seen by a medical provider and directed to isolate for them to be accepted. These locations cannot support individuals who need assistance with Activities of Daily Living or who need the level of care provided at a Skilled Nursing Facility.

For shelter providers located outside Boston, please call 617-367-5150 between the hours of 7 a.m. and 7 p.m. The intake coordinator will determine eligibility, register an individual for the program, and have the guest placed and transported to the nearest Isolation and Recovery location that has availability.

For shelter providers located in Boston please call 617-534-5050 to access sites in Boston.

**Disaster Recovery Information**

On March 27, the President declared a Major Disaster Declaration for the Commonwealth of Massachusetts related to the COVID-19 pandemic response. Through this declaration, federal aid will be made available to cities and towns, state agencies, and certain non-profits in all Massachusetts counties to help pay for emergency protective measures (response costs) related to the COVID-19 pandemic. MEMA’s Recovery Unit has developed a webpage with information and guidance on, but not limited to, disaster declaration, eligibility criteria, and the application process.

**COVID-19 Public Resources Map**

MEMA, together with MA VOAD and other partners, has developed a COVID-19 Public Resources Map showing the location of resources available to the public, such as food banks, houses of worship, and Project Bread site locations. Please note that this map is not inclusive of all resources and is only as accurate as the information that has been provided to MEMA.

**Massachusetts COVID-19 Response Dashboard**

MEMA has developed and maintains a public-facing COVID-19 ArcGIS Online dashboard, available here. This dashboard is continuously updated and captures information about current COVID 19 case counts, cases by age, cases by county, hospital status, hospital bed status, death tolls, and deaths by age. Users should refresh the dashboard on a daily basis as enhancements are continuously being added.

**Stay Informed**

- Get information from trusted sources. Visit https://www.mass.gov/covid19 for the latest news, case counts, and lab testing results. Call 2-1-1 with questions. Text the keyword COVIDMA to 888-777 to receive notifications to your phone. To receive these notifications in Spanish, text COVIDMAESP to 888-777
- Take care of your emotional health:
- Call 2-1-1 and choose the “CALL2TALK” option.
- Samaritans is continuing operations 24/7, as always. During this unprecedented time, it can feel overwhelming to receive constant messages about COVID-19. Call or text their 24/7 helpline any time at 877-870-4673.
- The Disaster Distress Helpline, 1-800-985-5990, is a 24/7, 365-day-a-year, national hotline dedicated to providing immediate crisis counseling for people who are experiencing emotional distress related to any
natural or human-caused disaster, including disease outbreaks like COVID-19. This toll-free, multilingual, and confidential crisis support service is available to all residents in the United States and its territories.

- Health care facilities can learn more about requesting personal protective equipment here.
- Apply for Jobs at COVID-19 Temporary Care Sites (Details Here).

The Need for Blood Donations Continues, and Recovered Covid-19 Donors Can Help Save Lives
In coordination with the U.S. Food and Drug Administration (FDA), the Red Cross is seeking people who are fully recovered from the new coronavirus to sign up to donate plasma to help current COVID-19 patients. People who have fully recovered from COVID-19 have antibodies in their plasma that can attack the virus. This convalescent plasma is being evaluated as treatment for patients with serious or immediately life-threatening COVID-19.
COVID-19 RESPONSE COMMAND CENTER
DAILY SITUATION REPORT

Infections, or those judged by a healthcare provider to be at high risk of progression to severe or life-threatening condition. Interested individuals can visit RedCrossBlood.org/plasma4covid to learn more, and if eligible, sign up to help.

We are also encouraging people who have not had COVID-19 to schedule and keep appointments to donate blood or platelets to ensure a stable blood supply during this pandemic. Donating blood products is essential to community health and the need for blood products is constant. As part of our nation’s critical infrastructure, healthy individuals can still donate in areas that have issued shelter in place declarations. The Red Cross follows the highest standards of safety and infection control, and volunteer donors are the only source of blood for those in need. To make an appointment to donate, please visit www.RedCrossBlood.org

Requests for Red Cross Emergency Response

American Red Cross
The American Red Cross (ARC) of Massachusetts is committed to fulfilling our Mission of providing emergency relief to our neighbors following a home fire or other disaster. We have implemented temporary changes to our response protocols. ARC will be responding to your requests for service with a virtual response and ask your assistance in sharing this information with your Incident Commanders and Dispatch Center personnel.

Notification: Continue to request a response by contacting our long-standing emergency line 800-564-1234. When calling: Please have contact information for the head of household for each displaced family unit. A point of contact from the Fire Department or Emergency Management on-scene that we can coordinate with if needed. Quick assessment as to extent of damage.

What we will do:
- Contact each head of household by phone or video chat. Open a virtual case for each affected family.
- Arrange for lodging if needed.
- Deliver a Client Assistance Card (financial assistance) to hotel, family member’s home, etc.
- Provide Recovery guidance and assistance in the days following the incident.

If a virtual response is not possible, we will send a minimal number of Red Cross volunteers to the scene to orchestrate the virtual intake process. We value our partnership with your department and encourage you to contact us with any questions.
