Todd McGee, Council President
Holyoke City Council
536 Dwight Street
Holyoke, MA 01040

RE: Holyoke Water Works, Commissioner Vacancy

Dear President McGee:

I am Ryan P. Murphy, a life-long resident of Holyoke, Massachusetts, as well as a business owner serving Holyoke and the surrounding area. I would like to humbly express my interest, and request consideration, in the appointment as a Commissioner of the Holyoke Water Works.

As the owner and operator of Murphy Mechanical Services, a full service heating and air conditioning company I began in 2015, I have been afforded the opportunity to serve both business and residents alike. In many instances, Murphy Mechanical Services has worked parallel with the City of Holyoke's Gas and Electric Company as well as the Holyoke Water Works, including reducing our customers' energy bills by way of upgrades and conversions through technological expertise. Murphy Mechanical Services relationships with the City of Holyoke Utility companies are an integral aspect to our success.

Please find attached my resume and references. I believe my knowledge, experience, and professional relationships as the owner of Murphy Mechanical Services will provide a unique perspective and effective contribution to the Holyoke Water Works and look forward to discussing my qualifications in further detail.

Sincerely,

Ryan P. Murphy

Enclosure

RYAN P. MURPHY

128 Pleasant Street
Holyoke, MA, 01040
