Animal condition

TJO Director's Report-April 1 through December 31, 2021 (Three quarters)

Staffing The Executive Director, Pam Peebles, will be resigning effective 12/31/21. The open position will be posted immediately by the city of Springfield.

Due to extraordinarily high workload, the city of Springfield approved three additional Animal Welfare Specialists to complement our current team of four. The positions are currently posted and interviews are underway.

Budget Accompanying this report is an attachment for FY22 year to date budget expenditures as well as an attachment with details for FY21 year-end close.

COVID-19 TJO field services are at full service, with the exception of restricting Animal Control Officer's entry into residences. TJO Center is at full service, available by appointment only, seven days each week. Throughout this year, all operations were continually re-evaluated as they pertain to COVID guidelines to help ensure a healthy work place as well as meet public needs.

ACOs Cruelty Response TJO's five Animal Control Officers have responded to and investigated several highly publicized cruelty cases which resulted in prosecutions.

State of Veterinary Medicine in Community. Since the start of the pandemic, veterinary appointments have become highly inaccessible, often booking out three months or more. It is even more for those that do not have a previously established relationship with a vet, as clinics are typically not accepting new clients. Emergency clinics are often overwhelmed and often have a wait of 8-10 hours or more. This current state has had a significant impact on TJO, as pet owners who are desperate for help for their sick/injured pets, or even for those seeking vaccinations, are turning to TJO for assistance. Keeping up with this additional demand has proven to be heart wrenching and time consuming, and is not sustainable. We provide community medical assistance when resources allow, but are exploring ways to integrate a more formal and sustainable program.

Radiology Suite. Funding of \$48,000 for a digital radiograph unit has been raised through a fundraiser held by the Foundation for TJO Animals earlier in 2021. The next step is to have renovations to an existing room at TJO. A contractor has been selected under Chapter 30b and we are awaiting a timeline for start and completion. This is highly anticipated project will bring faster diagnosis and treatment to hundreds of animals that pass through TJO. The contracting is being funded in two ways. A gift in the amount of \$13,000 from Jan and Bernadette Piepul of Springfield in honor of their German Shepherd dog Nikki. The balance is expected through ARPA funds.

ACO Service Animal Control Supervisor Hannah Orenstein was invited to join the Hampden County DA's office's STOP DV Team, which monitors and tracks high risk DV perpetrators.

Animal Control Officer Julie Sanborn was elected by the Animal Control Officer's Association as Vice President of Western MA. She also chairs the annual Animal Control Officer's training academy.

Continuing Education. Animal Control Officers and our veterinarian are mandated to earn continuing education credits each year. Accumulated CE credits are reported to the MA Department of Agricultural Resources and the veterinary licensure board. TJO staff attended seminars and/or webinars on the topics of; Dangerous Dog Cases; Shelter Population Trends; Community Medicine and Outreach; Bird Housing and Care; Assessing Pain and Quality of Life in Shelter Animals; Improving Public Safety by Stopping Animal Cruelty; and many more.

Media Due to the pandemic, our several weekly television and radio spots were cancelled. Local news stations did stories with TJO on; dog abandoned (3); animal cruelty cases at TJO (4); conflicts with wildlife (2); cold weather tips (2); Halloween pet safety. TJO is very active on social media and this has proven to be extremely beneficial to reach a large audience during COVID. We have interactive Facebook and Instagram accounts. Facebook is our most active with over 43,000 followers.

Next Supervisory Board Meeting. The next meeting of the supervisory board has not been scheduled. Meetings have been paused since February of 2020 due to the pandemic.
