

PERMIT FEE SCHEDULE

The cost of a building permit is based on the value of the work being done. This fee applies to building permits and trade permits. The value is determined by a number of factors, including, in particular, the occupancy group and type of construction. The value will be determined by the total contract value for the project or through the ICC Valuation tables.

| Building and Trade Permit Fees | |
|---------------------------------------|-----------------|
| \$1,000.00 or less: | \$50.00 |
