24-261	I am requesting the following public records: Copies of any incident reports related to a fatal collision on July 19, 2023 on Highway 18 near Thousand Oaks Drive in which a vehicle or vehicles struck Albert Anderson, DOB [REDACTED]. I am not seeking an accident report. I am seeking any incident reports which are public under the following: Miss. Code Ann. § 25-61-12 (2) (c) states: "Nothing in this chapter shall be construed to exempt from public disclosure a law enforcement incident report. An incident report shall be a public record. A law enforcement agency may release information in addition to the information contained in the incident report." In addition, Miss. Code Ann. § 25-61-3(e) states that an Incident report "means a narrative description, if such narrative description exists and if such narrative description does not contain investigative information, of an alleged offense, and at a minimum shall include the name and identification of each person charged with and arrested for the alleged offense, the time, date and location of the alleged offense, and the property involved, to the extent this information is known." Furthermore, according to Miss. Ethics Commission Op. R-10-020 (February 11, 2011), a law enforcement agency must include a narrative description on the incident report, and the agency's failure to include a narrative description in what it discloses fails to comply with the Act. I am making this request as a member of the news media. This information is not being sought for commercial purposes. The Mississippi Public Records Act requires a response time within seven days. If access to the records I am requesting will take longer than this amount of time, please contact me with information about when I might expect copies or the ability to inspect the requested records.
