Subject:

Sewer billing issue

Follow Up Flag:

Flag Status:

Flagged

I'm writing this email suggesting that sewer billing for commercial properties be looked at and revised as the averaging method does not work for, at least, downtown businesses due to the influx of lights spectacular spectators. I would suggest the previous method of billing where my sewer charge matches my water charge. Even this is inaccurate and unfair for me, but I can compromise to this approach easier than paying for something I am (obviously) absolutely NOT receiving. I hope this email does not come across as condescending because it isn't the approach im attempting. It's just obviously silly that I have to explain this and fight for this to change even though it's clearly wrong. A water bill should never outweigh a sewer bill, and quite frankly, is theft. Please keep me updated about this issue reaching city council and when it will be addressed!

For the record, my bill for March is:

Water: \$246 Sewer: \$749
