

Calen McNett ~

TxDOT has stated that if we can come to an agreement on a shared entrance they would be willing to approve. Forgive my design skills, but the above is what we are proposing. If the City is willing to do so, I can have it added to the site plan and get with Randy Hambright and TxDOT on the precise measurements and requirements. Also, the other entrances on this schematic will not be there. It will be the single shared entrance.
