Subject: CofC Beautification Committee

Rhonda and Rick - It was decided at our last meeting that we would have the rock walls repaired. That will include the Upper G (north of courthouse), wall around the park, wall down LakeBird Lane and some work around the post office (I have OK from Postmaster Rhonda). I have not gotten Baxter's information as to when he plans to start this project.

We also plan to remove the "ugly" chain-link fence between the Park and the Motorcycle Museum, but only the half near Hwy. 290, and replaced with a small rock wall similar to existing park walls. Gordon will have the other half done.

Both Gordon and Chrystal have talked to me about extending the sidewalks toward their entryways at their own expense. I would like to coordinate all of this work to be done between Market Days weekends. Do we/they need to go before the Counsel to get permission for the sidewalks?

I think it is really going to enhance Memorial Park! Let me know what our next steps need to be with the City. Thanks
